Introduction to Michigan Incident Crime Reporting (MICR)

The MICR User and Technical Manual provides detailed information on Michigan’s crime data collection process and the associated data elements, edits, and errors. The information was previously in two manuals; this new manual combines both user guidance and technical specifications. The MICR collection process has changed, and will continue to change, as crime reporting needs and technology advance. It is our goal to update this manual on a quarterly basis to provide the most current information to accurately collect Michigan’s crime data from all its law enforcement agencies.

History of Crime Data Collection

The Michigan Uniform Crime Reporting (UCR) program was instituted in 1959 when the Michigan State Police (MSP) requested all law enforcement agencies (LEAs) voluntarily submit their crime data to compile a uniform crime report. The enactment of Michigan [Public Act 319 of 1968](#), as amended, spurred the growth of the UCR program; submission of crime data became mandatory.

The UCR program originally collected summary counts of offense and arrest information on all reported crimes. In 1982, the system was redesigned and became known as the Incident Reporting System (IRS) which eventually became the Michigan Incident Crime Reporting (MICR) program. As of 2006, all law enforcement agencies in Michigan participate in incident-based reporting.

Overview of MICR

MICR is a statistical database. It was developed to collect accurate and detailed crime data. Until 2016, the database only retained two calendar years of data. The Federal Bureau of Investigation (FBI) no longer limits their collection; therefore, MICR has adopted this change with the release of Version 1.0.0. allowing updates without date constrictions. MICR accepts incidents submitted by agencies via their own records management system (RMS) using the Extensible Markup Language (XML) web service, or directly thru the Michigan Criminal Justice Information Network (MiCJIN) MICR Portal application for LEAs that do not have an RMS. The file transfer service for processing data files was discontinued June 30, 2018.

Accomplishments

- Moved from a mainframe system to an Oracle database
- Federal reporting: Summary to NIBRS
- Collection of Hate Crime data
- Collection of LEOKA data
- MICR Web Service accepting XML
- Capturing Elder Abuse (Defined as “Elder abuse is an intentional act, or failure to act, by a caregiver or another person in a position involving an expectation of trust that causes or creates a risk or harm to an adult 60 years of age or older. This includes physical, sexual, emotional, psychological, and financial abuse, neglect, or exploitation.”)

Goals

- Collect complete and accurate monthly crime data from all Michigan LEAs
- Collect complete and accurate LEOKA data to assist with prevention and training
- Collect Address information for each submitted incident for crime mapping

Testing and Certification

Agencies new to MICR, changing RMS vendors, or receiving a major upgrade to their RMS software must complete a testing and certification process. MICR certifies data, not RMS vendors. The testing and certification process assists to ensure the quality and integrity of the submitted data. After successfully completing the testing process, agencies will receive credentials to submit directly to the MICR XML web service. Please contact your MICR representative when changing your RMS vendor; it is important we have the most updated information to better assist you with these transitions, and with future vendor specific questions.

MICR Portal, Reports, and Publications

MICR Portal and Reports

With access to the MiCJIN Portal, agencies can update their agency information and generate a variety of reports. The Agency Tracking function allows approved users to view agency information (address, agency head and MICR rep), update select information, and view population data, approved count and city/twp codes, Full Time Law Enforcement and Employee Counts, and monthly incident totals.

The following MICR reports may be generated.

- Incidents and Clearances
- Summary of Offenses
- Summary of Incidents
- Agency Crime Statistics
- Summary of Victims
- Arrested Persons

Only incidents that have passed the validation process, free of error, will be saved in the database and included in reports and year-end statistics. If you do not have access to the MiCJIN portal, you may contact the MICR Unit for information.

Law Enforcement Officers Killed or Assaulted (LEOKA)

The MICR Unit reports the state's LEOKA data to the FBI to be included in their annual publication of compiled data from all participating states. The FBI's criteria include: ordinarily wears/carries a badge and firearm, are duly sworn with full arrest powers, members of a law enforcement agency, and were acting in an official capacity (on or off duty) at the time of assault or death. LEOKA data element fields must be completed for each incident reporting a police officer as a victim of an assault or death. Reports include variables of time, location, circumstance, age, sex, race, and weapon used. Accurate data submission to MICR is crucial to utilize the data for training. MICR does not collect the names or addresses of any individual.

K9: The MICR Unit understands the importance and hard work of each K9. As K9s would not meet the FBI criteria stated above, they cannot be listed with a Victim Type of Police Officer. Therefore, assaults and/or deaths of a K9 should be classified as 72000 – Animal Cruelty.

Yearly collections of LEOKA data can be found at:

- Michigan: <http://www.micrstats.state.mi.us/MICR>
- FBI: <https://ucr.fbi.gov/leoka>

Hate Crime

The MICR Unit reports the state's hate crime data to the FBI to include in their annual publication. Each incident submitted to MICR must include the mandatory data element field "Suspected Bias Motivation." The collection of this data is used to report the number of incidents, offenses, offenders, and victims involved (in whole or by part) in a hate crime. All incidents should be updated as bias is discovered or determined not to exist. The following should be taken into consideration when entering a bias:

- Offender is of different racial, religious, ethnic/national origin, sexual orientation, or gender group than the victim
- Bias related comments, written statements, or gestures made by the offender
- Bias related drawings, markings, symbols, or graffiti left at the crime scene
- Objects or items used or left indicating bias (white hooded robes, burning cross)
- Victim membership of organized racial, religious, ethnic/national origin, sexual orientation, or gender group and offenders are not a member of that organization
- Incident location where previous hate crime occurred
- Multiple incidents occurred; all victims targeted for the same bias

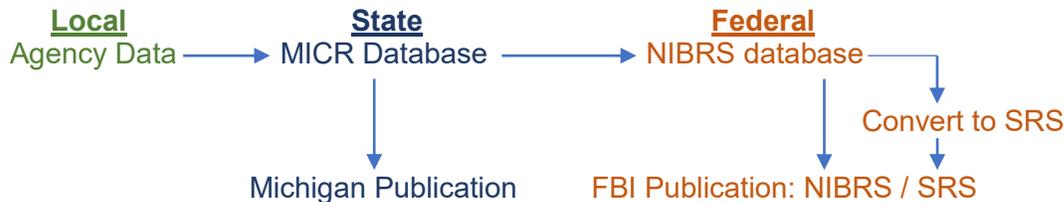

Yearly collections of hate crime data can be found at:

- Michigan: <http://www.micrstats.state.mi.us/MICR>
- FBI: <https://ucr.fbi.gov/hate-crime>

[Back to Beginning of Section](#) / [Back to Table of Contents](#)

MICR Data and FBI Data Collections – “Does the data match?”

The FBI publishes state crime datasets in two annual publications. *Crime in the United States* (CIUS) is a collection of summary-based data submitted to the FBI’s Summary Reporting System (SRS). The second publication, *National Incident-Based Reporting System (NIBRS)*, is a collection of incident-based data submitted to NIBRS. SRS collects complete data from ten offenses and only accepts arrest data on an additional thirty offenses. NIBRS collects complete data on fifty-two offenses and only accepts arrest data on ten additional offenses. The FBI’s goal is for all states to submit NIBRS rather than SRS by 2021. With only thirty-six states (some partial) currently submitting to NIBRS, the SRS collection remains to compare crime nationwide. The FBI converts the data of NIBRS submitting states, like Michigan, to SRS for CIUS.

MICR collects data on over one hundred offenses in an incident-based format and submits that data to NIBRS. Theoretically, MICR data should closely resemble NIBRS data; however, incidents not validated by MICR will not be forwarded to the FBI causing a difference in crime counts. It is important to correct and resubmit all errors from both the state and federal level. Only agency data deemed “full and complete” will be published yearly by both Michigan and the FBI; this includes receiving twelve months of data with explainable monthly increases and/or decreases from the previous year. It is imperative to correct all outstanding errors in attempt to *capture* (MICR) and *send* (NIBRS) complete information to assist with the comparison of state and federal datasets and publications.

Yearly collections of crime data can be found at:

- Michigan: <http://www.micrstats.state.mi.us/MICR>
- FBI: <https://ucr.fbi.gov/crime-in-the-u.s>

Group A and Group B Offenses

The FBI collects offense file classes in two groups. Specific criterion categorizes each offense as Group A (more serious/significant) or Group B (less serious/significant). Each group has different programming requirements. For example, Group B offenses cannot be submitted to MICR with Group A arrest charge codes. However, Group A offenses are accepted with Group A or Group B arrest charge codes. The FBI currently collects all data elements on Group A offenses but only collects arrest data on Group B offenses. MICR accepts all data regardless of offense. Because MICR only collects four offenses per incident, please submit the four most severe offenses; this is referred to as the MICR hierarchy. (Reference Section 3.1; [Group A Offenses](#), [Group B Offenses](#), [Arrest Charge Codes](#), and [Hierarchy of Offenses](#).)

Non-Reportable Offenses

The only traffic offenses collected by MICR and NIBRS are 54001 – Hit and Run (of a person) Motor Vehicle Accident, 54002 – OUIL or OUID, and Vehicular Manslaughter under 09002 or 09003. All other traffic offenses should not be submitted to MICR. Offense file class 73000 – Miscellaneous Criminal Other should not be used for any offense deemed criminal by an agency that initiated as a traffic violation.

Defining an Incident: Single vs. Multiple

A single incident is defined as one or more offenses committed by the same offender, or group of offenders, acting in concert at the same time and place.

Acting in Concert

Acting in concert requires all offenders be aware of, and consent to, committing or assisting in the offense(s). If an offender is non-consenting, their actions must assist in the commission of the offense(s). All offenders in an incident must have committed all offenses. If one or more of the offenders did not act in concert, more than one incident is required.

Example: Three women threw rocks at a homeless man leaving welts on his body. One woman left. The remaining two women decide to take the man's wallet. One incident will reflect three offenders with the offense of Aggravated Assault. A second incident will reflect two offenders with the offense of Robbery.

Concept of Time and Place

Multiple crimes may be reported in one incident if committed by the same person, or group of persons acting in concert, when the time and space intervals separating the crimes are insignificant. The offense(s) must have occurred during an unbroken duration of time and must have occurred at the same or adjoining location(s).

Example: A man walks down a street and smashes five car windows with a baseball bat. After breaking the last window, he reaches inside the car, grabs a purse, and runs. One incident will reflect the damage to property and theft from motor vehicle. Five victims will be connected to the damage to property, and one victim will be connected to both offenses.

Justifiable Homicide: A Separate Incident

Justifiable Homicide is not a criminal offense; however, MICR collects this information for statistical and other purposes including officer safety training. This offense always occurs with another offense and therefore is always two separate incidents. The first incident reflects the crime the offender was attempting/committing, and the second incident reflects the justifiable homicide.

Example: A man shoots at a police officer. The officer returns fire killing the man. The offense of Aggravated Assault is one incident reflecting the man as the offender and the officer as the victim; appropriate LEOKA fields must be completed. The offense of justifiable homicide is a second incident reflecting the officer committing the justifiable homicide and the man as the victim.

When Victims are Offenders

With the example of a bar fight, and no evidence of all parties acting in concert, multiple incidents are often created when several participants are both victims and offenders. When all participants do act in concert, Victim to Offender Relationship code "31" (Victim was Offender) may be utilized to submit one incident. This data element may assist agencies condensing multiple incidents into one. Remember, all offenders listed in an incident must have committed all offenses.

[Back to Beginning of Section](#) / [Back to Table of Contents](#)

Updating Incidents

Portal users can make immediate changes via the MICR web application. Incidents determined unfounded after submission to the MICR database must be deleted. RMS vendors should automatically send deletes and updates to MICR. If needed, please contact your MICR representative to verify unfounded incidents have been deleted and/or updates are properly captured.

Assaults Resulting in Death

Incidents should always be updated to reflect the most accurate information. Updating an assault to a homicide is dependent on the MICR version used.

Agencies using Version Base:

- If the death occurred within the same year the assault was reported, update the assault offense to a homicide offense. It is important to use the same incident number. If the assault occurred in the previous year and the death occurred in the current year, delete the original assault incident and submit a new murder incident.
- If the assault occurred two years prior to the death, do not delete the original aggravated assault incident. A new murder incident MAY be created; this is left to the discretion of each agency.

Agencies using Version 1.0.0 or higher, regardless of the year, should update the assault offense to a homicide offense and resubmit the incident.

No MICR Reportable Data

Agencies with no MICR reportable incidents, within any given month, must submit a “Zero-Incident/No Criminal Data” record. This submission notifies the MICR Unit that no criminal activity occurred for the specified month. Submission of the Zero-Incident/No Criminal Data record will prevent notification of delinquent reporting and assists with completing yearly reporting requirements. If a Zero-Incident/No Criminal Data record is submitted to MICR and later a criminal incident is submitted, the user will receive an error. The Zero-Incident/No Criminal Data record must first be deleted before the criminal incident can be accepted into the MICR database.

[Back to Beginning of Section](#) / [Back to Table of Contents](#)

Clearing Incidents

An incident can only be cleared by arrest or exceptional clearance.

Multiple Arrest Indicator

To collect accurate arrest and clearance rates, the Multiple Arrest Indicator allows the user to reflect which incident the arrest is related to while clearing all incidents in which the arrestee is listed as an offender within the same ORI jurisdiction. MICR counts persons arrested, not arrest charges.

Example of Multiple Incidents: A man is arrested for drug possession. Once identified, his name is connected to three previous incidents of robbery, burglary, and arson under the same ORI. The arrest of drug possession will clear the drug charge as well as the other three incidents.

Coding: Using Code C-Count Arrest in the drug incident will clear the incident. Using Code M-Multiple in the other three incidents will also clear the incidents but will not count the arrestee more than once.

Example without Multiple Incidents: A man is arrested for robbery. Once identified, his name is not connected with any active cases under the same ORI. The arrest of the robbery will clear the incident.

Coding: Using Code N-Not Applicable will clear the incident and alert MICR that the arrestee is not associated with any other incident.

Exceptional Clearance

The following four conditions must be met to exceptionally clear an incident. If all criteria are not met, the incident cannot be exceptionally cleared.

1. The identity of at least one offender is clearly and definitively established
2. Sufficient probable cause supports the arrest, charging, and prosecution of the offender
3. Exact location of offender is known allowing an arrest to be made
4. Reason outside the control of law enforcement prevents the arrest

With the above criteria met, MICR collects the reason (Exceptional Clearance code) outside the control of law enforcement.

- Death of offender
- Prosecution declined by the prosecutor, for a reason other than lack of probable cause
- In Custody of Other Jurisdiction
- Victim refused to cooperate (in the prosecution)
- Juvenile/no custody (the handling of a juvenile without taking him/her into custody, but rather by oral or written notice given to the parents or legal guardian in a case involving a minor offense)

[Back to Beginning of Section](#) / [Back to Table of Contents](#)

Hotel Rule

The Hotel Rule applies to burglaries of hotels and motels when occupants are transient and burglaries of storage/rental facilities when property is temporarily placed. MICR collects data from the “Premises Entered” field to reflect multiple victims in a single incident. The “Premises Entered” field can only be utilized when the “Location Site” field is “Hotel/Motel” or “Rental Storage.”

Example – Hotel/Motel: A hotel is burglarized; seven rooms were entered by force. One incident report will reflect the burglary of seven rooms and one victim, the hotel business. The individuals staying at the hotel are not listed as victims; they are transient, and the hotel manager will most likely report the crime.

Example – Storage Unit: A storage facility was broken into and items were missing from ten different rented units. Each renter alerts the storage facility manager of the missing items. The manager contacts law enforcement. One incident report will reflect one burglary of ten units with the victim listed as the storage facility business.

Example – Renting a Room: Four couples are renting four different rooms in the same house thru Airbnb. The house is burglarized, and items were missing from all four rooms. Because the home is being used for temporary housing (hotel), one incident should be submitted reflecting the burglary of four units with the location site of hotel and the home owner listed as the victim.

[Back to Beginning of Section](#) / [Back to Table of Contents](#)

Cargo Theft

MICR requests the user identify if an incident did, or did not, involve cargo theft for each incident including one or more of the following offenses:

- | | |
|---|--|
| <input type="checkbox"/> 12000 – Robbery | <input type="checkbox"/> 26001 – Fraud, False Pretenses |
| <input type="checkbox"/> 12001 – Carjacking | <input type="checkbox"/> 26002 – Fraud, Credit Card/ATM |
| <input type="checkbox"/> 21000 – Extortion | <input type="checkbox"/> 26003 – Fraud, Impersonation |
| <input type="checkbox"/> 22001 – Burglary Forced | <input type="checkbox"/> 26005 – Fraud, Wire |
| <input type="checkbox"/> 22002 – Burglary Without Force | <input type="checkbox"/> 26007 – Fraud, Identity Theft |
| <input type="checkbox"/> 23003 – Larceny from Building | <input type="checkbox"/> 26008 – Fraud, Computer Hacking |
| <input type="checkbox"/> 23005 – Larceny from Motor Vehicle | <input type="checkbox"/> 27000 – Embezzlement |

| <input type="checkbox"/> 24001 – Motor Vehicle Theft | <input type="checkbox"/> 30003 – Retail Fraud, Refund/Exchange |
| <input type="checkbox"/> 24003 – Motor Vehicle Fraud | <input type="checkbox"/> 51000 – Bribery |

The national UCR program defines Cargo Theft as “the criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a **commercial shipment** of freight **moving in commerce**, from any pipeline system, railroad car, motor truck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.”

Cargo theft does not include:

- Larceny of merchandise from a convenience store
- Burglary of a residence with stolen money and household goods
- Burglary of a storage unit with stolen tools
- Completed Burglary with no property stolen
- Fraud with a credit card stolen
- Larceny Other with stolen jewelry and precious metals
- Motor Vehicle Theft (unless a semi-trailer hauling automobiles is stolen in transit)
- Larceny Other with money stolen from a residence
- Larceny from Motor Vehicle with stolen vehicle parts/accessories or wallets
- Embezzlement of money stolen from a business
- Larceny of drugs from a residence

Cargo theft does include:

- Box truck delivery driver stops at a truck stop, leaves vehicle, items are stolen
- Air cargo worker steals shipment scheduled for delivery from an all-cargo aircraft
- Port facility dock worker enters area after hours and steals container of supplies

Offense File Classes

MICR collects crime data on over 100 Offense File Classes. There are over 65 associated data elements used to collect specific details on each file class. Consistency on *how* offense file classes are chosen is a crucial component to accurate crime statistics. Offenses submitted to MICR are based on the crime that took place, NOT based on judicial prosecution.

Do not report assaults separately that occurred during the robbery. If an injury from a robbery results in death, a homicide must also be reported.

12001 – Carjacking: To take or attempt to take an occupied vehicle under confrontational circumstances from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

Assault 13001 – 13004: *An unlawful attack by one person upon another person. Consider type of weapon employed or the use of an object as a weapon, seriousness of injury, intent, and capability of assailant to cause serious injury when classifying assaults.*

13001 – Non-Aggravated Assault: An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

13002 – Aggravated Assault : An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

13003 – Intimidation/Stalking: To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct but without displaying a weapon or subjecting the victim to actual physical attack. Includes stalking and threats associated with intimidation in person, over the telephone, and in writing. The individual receiving the bomb threat is considered the victim (the school secretary receiving a bomb threat is the victim).

13004 – Non-Fatal Shooting: An unlawful attack involving the discharge of a firearm, wherein the bullet penetrates the body, but does not result in death. Firearm is defined as a weapon that fires a projectile by force of an explosion.

14000 – Abortion: Unlawful purposeful induced termination of a human pregnancy.

20000 – Arson: To unlawfully and intentionally damage, or attempt to damage, any real or personal property by fire or incendiary device. Arson fires that destroy property across multiple jurisdictions should be reported by the LEA where the fire initiated; report total damage.

21000 – Extortion: To unlawfully obtain money, property, or any other thing of value, either tangible or intangible, through the use or threat of force, misuse of authority, threat of criminal prosecution, threat of destruction of reputation or social standing, or through other coercive means. Includes threats in non-confrontational circumstances when the victim is not in fear of immediate harm. If during a demand for money, property, etc., there is a personal confrontation between the victim and offender and the offender can carry out the threat of force or violence immediately, the agency should report the offense as robbery.

Burglary/Breaking & Entering 22001 – 22004: *The element of trespass is essential. Incidental damage resulting from a Burglary (forced door, broken window, hole in the wall, or dynamited) is only reported if the damage amount is deemed substantial. Substantial damage is reported under 29000 – Damage to Property. Agencies should not report the Larceny as a separate offense when associated with the unlawful entry of a structure.*

22001 – Burglary, Forced Entry: The unlawful forcible entry into a building or other structure with the intent to commit a felony or a theft. Does not apply to autos or coin boxes.

[22002 – Burglary, Entry Without Force \(intent to commit\)](#): The unlawful non-forcible entry into a building or other structure with the intent to commit a felony or a theft.

Section 1.4

Data Elements

MICR collects over sixty data elements for Administrative, Offense, Offender, Victim, Arrest, Property, and Address information within a single incident. Each data element is assigned specific data codes. Accurate RMS coding is crucial to properly translate agency data to MICR. Vendors supplying a RMS to agencies should supply all options to their users. Users not finding data element options provided in this section should contact their RMS and/or MICR representative for clarification.

Refer to the most current programing specifications (also known as the Information Exchange Package Documentation or “IEPD”) on the MICR website for updates implemented between MICR User and Technical Manual releases at:

<https://www.michigan.gov/crs>

Section 2.1

Programming Requirements

Each MICR incident submission has mandatory and conditional requirements. Each incident must be validated, and error free, before inclusion in the MICR database.

- Ⓒ [Mandatory Data Elements](#)
- Ⓒ [Mandatory Conditions](#)
- Ⓒ [Additional Requirements per Offense File Class](#)

[Back to Table of Contents](#)

Mandatory Data Elements

Each incident submitted to MICR must include the following data elements, unless the incident is a Zero-Incident/No Criminal Data record. Below are the mandatory data elements noting which are not required for Zero-Incident/No Criminal Data records. The following section will list the conditions for each offense file class.

All incidents require:

- | | |
|---|---|
| <input type="checkbox"/> ORI Number | <input type="checkbox"/> Location Site* |
| <input type="checkbox"/> Original Year | <input type="checkbox"/> Offense Attempted/Completed * |
| <input type="checkbox"/> Incident Number | <input type="checkbox"/> Offender Number * |
| <input type="checkbox"/> County | <input type="checkbox"/> Offender Suspected of Using * |
| <input type="checkbox"/> City/Township Code | <input type="checkbox"/> Suspected Bias Motivation* |

| <input type="checkbox"/> Hour Occurred* | <input type="checkbox"/> Victim Type* |
| <input type="checkbox"/> Offense File Class* | <input type="checkbox"/> Incident Complete Indicator |

**Not required with Zero-Incident/No Criminal Data records*

Mandatory Conditions

The following mandatory conditions apply for all offenses, unless otherwise noted.

- If Offender Number equals 00, then Offender Age/Race/Sex cannot be entered
- If Offender Number equals 01-99, Offender Age/Race/Sex are mandatory
- If Offense File Class equals a Group B offense, then Arrest Charge must equal a Group B arrest charge code
- If Offense File Class equals 09005 or 09006, additional Victim Connected File Class can only equal 09001 or 09004
- If Victim Type equals I or P, then Victim Age/Race/Sex are mandatory
- VOR is mandatory if Victim Type equals I or P and Offender Number is greater than 00
- If Arrest Number exists, then Arrest Type, Arrest Age/Race/Sex, Arrest Charge, Arrest Armed, Date of Arrest, Multiple Arrest Indicator, and Disposition of Arrest under 18 (if applicable) are mandatory
- If an Offense File Class requiring property has Offense Attempted/Completed equal to A, then Item Number must equal 0 and Property Loss Type must equal 0 or 9
- If Property Loss Type equals 1 or 5, then Property Class, Property Value and Date Recovered are mandatory
- If Property Loss Type equals 5, then Property Loss Type 7 must exist with duplicate Item Number unless Offense File Class equals 24002, 25000, or 28000
- If Property Loss Type equals 7, then Property Class and Property Value are mandatory

Property Notes:

- Property can only be entered if Offense File Class equals 10001, 10002, 12000, 12001, 20000, 21000, 22001, 22002, 23001-23007, 24001-24003, 25000, 26001-26005, 26007, 26008, 27000, 28000, 29000, 30001-30004, 35001, 35002, 39001-39004, or 51000

Additional Requirements per Offense File Class

MICR reportable Offense File Classes are listed in the first column. The second column lists *additional* mandatory elements per offense file class; if “None” is entered, then only the mandatory elements ([listed on the prior page](#)) are required. The third column lists conditions for the mandatory elements. If no condition is listed, then any valid option will be accepted into MICR.

Section 2.2

MICR Errors

Each incident submitted to the MICR database is validated against MICR edits (schematron). Errors are immediately returned to Portal users. RMS' may display errors at their discretion; users submitting thru a RMS may or may not see all the errors listed in this section, or as written. Only incidents free of error are accepted into the MICR database, forwarded to the FBI, and included in published statistics.

Section 2.3

Warnings and Quarterly Warning Reports

Each incident submitted to the MICR database is validated against MICR edits and warnings. Like errors, warnings are immediately returned to Portal users. Warnings will display in the agency's RMS, if programed. These same warnings are available to each agency on a quarterly basis by accessing the MICR website. Incidents that contain warnings, but are free of error, are collected in the MICR database and forwarded to the FBI. Like MICR, the NIBRS system generates warnings and questions many of the same data elements seen in the MICR warnings.

Public Act

Public Act 319 of 1968

An Act to provide a uniform crime reporting system; to provide for the submitting of such report to the department of state police; to require submission of the report by certain police agencies; to require the reporting on wanted persons and stolen vehicles; to require the reporting of information regarding certain persons and unidentified bodies of deceased persons; to prescribe certain powers and duties of law enforcement agencies; and to vest the director of the department of state police with certain authority.

PUBLIC ACT 319 of 1968, (as amended)

28.251 Uniform crime reports; duties of police departments to file; contents.

Sec. 1 The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed; the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

28.252 Compilation of monthly uniform crime reports; use.

Sec. 2 Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a sounder program of crime detection and prevention and the apprehension of criminals.

28.253 Voluntary crime reports; inclusion in compilation.

Sec. 3 Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with the proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2.

28.254 Reports of wanted persons and stolen vehicles.

Sec. 4 The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department of state police, in a manner prescribed by the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested.

28.255 Reports of apprehension or recovery.

Sec. 5 When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of his apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department.

28.256 Inapplicability of act as to traffic misdemeanor.

Sec. 6 The provisions of this act do not apply to misdemeanor traffic cases or to persons wanted for misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances. History: 1968, Act 319, Imd. Eff. 7/3/68.
