

Damage Assessment and Emergency Status Report

Incident: 2013-04-Statewide-Flooding

Operational Period

Operational Period Begin: 04/23/2013 08:00:00
 Operational Period End: 04/23/2013 17:00:00
 Situation Report No. #8
 SEOC Status: Full
 Hours of Operation Begin: 04/23/2013 08:00:00
 Hours of Operation End: 04/23/2013 17:00:00

Executive Summary

The State Emergency Operations Center (SEOC) will be fully operational today from 0800 to 1700 (8:00 AM to 5:00 PM). A briefing / conference call with state agency and NGO partner organizations will be held today at 1630 (4:30 PM).

SEOC personnel continue to monitor river levels across Central Lower Michigan, with particular focus on the Grand River from Lansing to Lake Michigan. River levels are receding. As of this morning, river crests and current levels on the Grand River were as follows:
 The Grand River at Lansing, with a flood stage of 11 feet, crested at 10.96 feet on Sunday evening and is currently at 9 feet.
 The Grand River at Ionia, with a flood stage of 21 feet, crested at 24.69 feet Saturday morning and is currently at 21.35 feet.
 The Grand River at Lowell, with a flood stage at 15 feet, crested at 19.02 feet on Sunday morning and is currently at 16.8 feet.
 The Grand River at Ada, with a flood stage of 20 feet, crested at 22.94 feet on Sunday morning and is currently at 21.14 feet.
 The Grand River at Grand Rapids, with a flood stage of 18 feet, crested at 21.85 feet on Sunday evening and is currently at 20.5 feet.
 The Grand River at Robinson Township, with a flood stage of 13.3 feet, crested at 17 feet last Friday morning and is currently at 16.49 feet.

Crests and current levels for other rivers of concern:

The Tittabawassee River at Midland, with a flood stage of 24 feet, crested at 28.37 feet early Saturday morning and is currently at 18.3 feet.
 The Saginaw River at Saginaw, with a flood stage of 17 feet, crested at 22.42 feet early Sunday morning and is currently at 20.6 feet.
 The Muskegon River at the Croton Dam, with a flood stage of 9 feet, crested at 11.11 feet early Saturday morning and is currently at 9 feet.
 The Cass River at Frankenmuth, with a flood stage of 17 feet, crested at 20.72 feet late Saturday evening and is currently at 11.7 feet.
 The Pine River at Alma, with a flood stage of 8 feet, crested at 10.15 feet on Thursday, April 18, and is currently at 6.2 feet.
 The Chippewa River at Mt. Pleasant, with a flood stage of 8 feet, crested at 10.46 feet last Friday morning and is currently at 6.77 feet.

A FEMA Liaison Officer (LNO) is working in the SEOC to coordinate federal and state operations and to provide information on flood response activities in other federal Region V states.

Local governments and state agencies continue to conduct damage assessments as flood waters recede and damage to private structures and public facilities and infrastructure becomes more visible. Support to local damage assessment operations is being provided by the respective MSP/EMHSD District Coordinators. Local damage assessment operations will continue throughout the week.

County and local EOCs are in varying levels of operation. (Current EOC and jurisdiction status information can be found in the MI CIMS "EM Program Status" board.)

The following road closures are still in effect involving state highways and trunklines:

All Ramps to/from I-196 in Grand Rapids are closed. The ramp from WB I-196 to Baldwin Street is also closed.
 The off ramps from eastbound and westbound I-196 to Market Avenue (Exit #73) in Grand Rapids are closed.
 Market Avenue is flooded between I-196 and Freeman Avenue.
 Eastbound and westbound I-196 BL between Ivanrest and Byron Center is closed.
 M-21 over the Maple River (east of Ionia, between Muir and Pewamo), due to water levels under the bridge.

Five ARC shelters remain open, with a current shelter population of five.

Watches/Warnings

River Flood Warnings and Advisories remain in place for many rivers around the Lower Peninsula. Many rivers will be above flood stage

through much of the rest of this week. All rivers are expected to be below flood stage by the end of the weekend.

Upcoming Forecast

Rivers appear to have all crested with slow falls expected over the next few days.

Lower Peninsula: Up to 1 inch of rain will fall Tuesday Afternoon (April 23) through Wednesday morning (April 24). This rain should slow down the fall of river levels or increase the levels slightly through Thursday (April 25). Significant river rises are still not expected from this rainfall. Forecast looks mostly dry and slightly warmer for the next 7 days.

Upper Peninsula: Precipitation comes to an end today by early afternoon. Little additional rainfall is now expected for the next 7 days. Warmer temperatures will move in by the end of the week. - At this time, gradual snow melt is anticipated through the weekend. Flooding potential - if it occurs looks to be first week of May at the earliest.

Summary

Agency Summaries

Licensing and Regulatory Affairs (LARA)

The Michigan Public Service Commission has indicated the following report was received from Consumers Energy for the city of Grand Rapids: There are 140 customers without power. As some customers are commercial, there may be a slightly higher actual

number of individuals affected. The buildings without power are the Forsland Building and Plaza Tower. Consumers Energy has three crews - one high voltage distribution and two low voltage distribution crews - performing inspections at critical substations that might affect Grand Rapids pumping stations and key downtown substations. They are also patrolling and inspecting underground vaults. Consumers Energy is working with Grand Rapids officials to address issues.
