

MICR (IBR) Date Options

Enhancements have been made to Premier One on how the date/time fields are used to properly report the incident to MICR and the FBI. If a date range is entered in the Occurred On fields, you will be prompted to choose between using the Occurred On or Reported On date for IBR statistical reporting purposes.

If there is only one date entered in the Occurred On field, these options will not be visible.

Please review the examples below to determine the proper entry option.

For all crimes that occur over a known time period:

Use the Occurred On option if:

- The time frame of occurrence is in the current calendar year, and on the same calendar day .
(Ex – MDOP Mailbox while homeowner was at work)
