While working on the ABC'S of Michigan I learned that Detroit was our former capital and also it's the home of the Automobiles. Also, I learned that Michigan is surrounded by lakes. Its like an Island. One thing I never even heard of was that the Ice Age created Lake Michigan and other Great Lakes. Michigan is famous for Schools, cherries, apples, and also Sugar beets. Kellogg's cereal in Battle Creek is very famous for Michigan. There are a lot of famous cities and counties in Michigan like Traver City, Lansing, Battle Creek, Detroit, and Mackinac City. So, that is just a little piece of what Michigan is famous for.

While working on "ABC's of Michigan- Many ways of learning," I learned that the indians were living peacefully until the french came. The french were trading indians for gun powder, alcohol, and guns. Unfortunately some of the indians did not like the french. The french started to take advantage of them and wanted more. One day the British came in. The British were in for the fur trader business. There were indians who liked the french and some liked British. So they started a war. The British were winning but the indians had a little sneak game to get past the British. The British thought the game was pretty cool and the indians invaded the British base. And that's what I learned in the Michigan Abc's.

While working on ABC's of Michigan
Many ways of Learning I Learned
that indians use to be free and
belived in their own religon until the
French explorers came to Michigan.
The French kind of took over and
taught the indians thfeir religon.
The French knew that the indians
can hunt so the French figured that
they would make a deal for fur from
the indians so the french would
sale the fur to Europeans.
