COVER DRAWING

*Michigan State Capitol:*

This image, with flags flying to indicate that both chambers of the legislature are in session, may have originated as an etching based on a drawing or a photograph. The artist is unknown. The drawing predates the placement of the statue of Austin T. Blair on the capitol grounds in 1898.

PAGE GRAPHICS

*Capitol Dome:*

The architectural rendering of the Michigan State Capitol’s dome is the work of Elijah E. Myers, the building’s renowned architect. Myers inked the rendering on linen in late 1871 or early 1872. Myers’ fine draftsmanship, the hallmark of his work, is clearly evident.

Because of their size, few architectural renderings of the 19th century have survived. Michigan is fortunate that many of Myers’ designs for the Capitol were found in the building’s attic in the 1950’s. As part of the state’s 1987 sesquicentennial celebration, they were conserved and deposited in the Michigan State Archives.

*East Elevation of the Michigan State Capitol:*

When Myers’ drawings were discovered in the 1950’s, this view of the Capitol – the one most familiar to Michigan citizens – was missing. During the building’s recent restoration (1989-1992), this drawing was commissioned to recreate the architect’s original rendering of the east (front) elevation.

The *Michigan Administrative Code* (1979 edition), which contains all permanent administrative rules in effect as of December 1979, was, during the period 1980-83, updated each calendar quarter with the publication of a paperback supplement. An annual supplement contained those permanent rules, which had appeared in the 4 quarterly supplements covering that year.

Quarterly supplements to the Code were discontinued in January 1984, and replaced by the monthly publication of permanent rules and emergency rules in the *Michigan Register*. Annual supplements have included the full text of those permanent rules that appear in the twelve monthly issues of the *Register* during a given calendar year. Emergency rules published in an issue of the *Register* are noted in the annual supplement to the Code.

**SUBSCRIPTIONS AND DISTRIBUTION**

The *Michigan Register*, a publication of the State of Michigan, is available for public subscription at a cost of $400.00 per year. Submit subscription requests to: Office of Regulatory Reinvention, Romney Building –Eight Floor, 111 S. Capitol Avenue, Lansing, MI 48909. Checks Payable: State of Michigan. CORRECTION OF OBVIOUS ERRORS IN PUBLICATION

Ms. Deidre O’Berry
Office of Regulatory Reinvention
State Budget Office
Department of Technology, Management and Budget
Romney Building, 8th Floor
111 South Capitol Avenue
Lansing, Michigan 48933

Dear Ms. O’Berry:

SUBJECT: Request for Correction of the Michigan Administrative Code, Supplying Water to the Public, ORR 2017-008 EQ

The Department of Environmental Quality (DEQ), as the promulgating agency, is writing to request that the Office of Regulatory Reinvention exercise its discretion to correct an obvious error in the Michigan Administrative Code, pursuant to Section 56(1), MCL 24.256, of the Administrative Procedures Act, 1969 PA 306, as amended.

I respectively request that references to “household advisory level” be removed from R 325.10105 and R 325.10604f. This term was in the draft rules which were included in the April 30, 2018, JCAR package submittal; however, this package was withdrawn on May 3, 2018. Household advisory level was removed from the draft rules that were included in the resubmitted JCAR package that occurred on May 9, 2018. Below are the needed changes.

R 325.10105

(n) "Household advisory level" means the concentration of lead at an individual sampling location as specified in R 325.10604f(1)(l) that, if exceeded, results in additional actions as specified in R 325.10410(5)(c)(ii).

OR

325.10410(5)(c)(ii).

(o) "Imminent hazard" means that, in the judgment of the director, there is a violation, or a condition that may cause a violation, of the state drinking water standards at a public water supply requiring immediate action to prevent endangering the health of people.

(p) "Initial compliance period" means January 1993 to December 1995. For a supply that has less than 150 service connections, the initial compliance period is January 1996 to December 1998 for contaminants listed in part 6 of these rules that have an effective date of January 17, 1994.

(q) "Lake/reservoir" means a natural or man-made basin or hollow on the Earth's surface in which water collects or is stored that may or may not have a current or single direction of flow.

(r) "Large water supply" or "large water system," for the purpose of lead and copper control, means a public water supply that serves more than 50,000 persons.
"Lead service line" means either a service line which is made of lead or any lead pigtail, lead gooseneck, or other lead fitting that is connected to the service line, or both.

"Level 1 assessment" means an evaluation to identify the possible presence of sanitary defects, defects in distribution system coliform monitoring practices, and (when possible) the likely reason that the supply triggered the assessment. Level 1 assessment shall be conducted by the supply operator or owner. Minimum elements include review and identification of atypical events that could affect distributed water quality or indicate that distributed water quality was impaired; changes in distribution system maintenance and operation that could affect distributed water quality (including water storage); source and treatment considerations that bear on distributed water quality, where appropriate (for example, whether a ground water supply is disinfected); existing water quality monitoring data; and inadequacies in sample sites, sampling protocol, and sample processing. The supply shall conduct the assessment consistent with any department directives that tailor specific assessment elements with respect to the size and type of the supply and the size, type, and characteristics of the distribution system.

"Level 2 assessment" means an evaluation to identify the possible presence of sanitary defects, defects in distribution system coliform monitoring practices, and (when possible) the likely reason that the supply triggered the assessment. A level 2 assessment provides a more detailed examination of the supply (including the supply’s monitoring and operational practices) than does a level 1 assessment through the use of more comprehensive investigation and review of available information, additional internal and external resources, and other relevant practices. Level 2 assessment shall be conducted by the department. Minimum elements include review and identification of atypical events that could affect distributed water quality or indicate that distributed water quality was impaired; changes in distribution system maintenance and operation that could affect distributed water quality (including water storage); source and treatment considerations that bear on distributed water quality, where appropriate (for example, whether a ground water supply is disinfected); existing water quality monitoring data; and inadequacies in sample sites, sampling protocol, and sample processing. The department shall conduct the assessment tailoring specific assessment elements with respect to the size and type of the supply and the size, type, and characteristics of the distribution system. The supply shall comply with any expedited actions or additional actions required by the department in the case of an E. coli MCL violation.

"License" means the license that is issued by the department to a water hauler, or for a water hauling tank, under section 18 of the act.

"Limited treatment system" means a treatment system, including, but not limited to, disinfection, fluoridation, iron removal, ion exchange treatment, phosphate application, or filtration other than complete treatment.

"Living unit" means a house, apartment, or other domicile occupied or intended to be occupied on a day-to-day basis by an individual, family group, or equivalent.

"Locational running annual average (LRAA)" means the average of sample analytical results for samples taken at a particular monitoring location during the previous 4 calendar quarters.

R 325.10604f

R 325.10604f  Treatment techniques for lead and copper household advisory level for lead and the household advisory level for lead are as follows:
(a) This rule, R 325.10410, and R 325.10710a to R 325.10710d are the requirements for lead and copper and apply to community and nontransient noncommunity water supplies. These public water supplies are considered "water supplies" or "supplies" in this rule, R 325.10410, and R 325.10710a to R 325.10710d.

………………..

(k) Failure to comply with the applicable requirements of this rule, R 325.10410, R 325.10710a, R 325.10710b, R 325.10710c, R 325.10605, R 325.10710d, and R 325.11506(1)(e) constitutes a violation of these rules for lead or copper, as applicable.

(l) The household advisory level for lead is exceeded if the lead level at an individual sampling location is more than 0.010 milligrams per liter (mg/l), when samples are collected pursuant to R 325.10710a.

---------------

(m) When notified of a new source or long-term change in treatment as required under R 325.10710d(a)(iii), the department may require the supply to conduct a new or updated corrosion control study as described in R 325.10604f(3)(c), additional monitoring, or other action the department considers appropriate to ensure the supply maintains optimal corrosion control.

(nm) The department may require the supply to conduct a new or updated corrosion control study as described in R 325.10604f(3)(c).

Please note the correction in both the Michigan Register and the Michigan Administrative Code.

If you have any questions regarding this request, please contact me at 517-284-6705 or fiedlerd@michigan.gov.

Sincerely,

[Signature]

Mich. Const. Art. IV, §33 provides: “Every bill passed by the legislature shall be presented to the governor before it becomes law, and the governor shall have 14 days measured in hours and minutes from the time of presentation in which to consider it. If he approves, he shall within that time sign and file it with the secretary of state and it shall become law . . .
