Revised benefit provisions.

Retirement System Funded % Based on Actuarial Value and Market Value of Assets

* After adjusting to market value.

Revised benefit provisions.

Unfunded as Percentage of Payroll

* After adjusting to market value.

Revised benefit provisions.

Comments on the Investment Markets

- ◆ Investment markets have been very volatile.
- ◆ Valuation is based on a 5-year smoothed value of assets.
 - Reduces the volatility of the valuation results.
- ◆ 9/30/2008 smoothed value of assets was higher than market value.
 - Meeting the actuarial assumption will require average future market returns over 8%.
- ◆ 9/30/2008 valuation results based on market value:
 - Funded percent would be 71.5% (instead of 83.6%).
 - Employer contribution would be 13.59% of payroll (instead of 9.60%).

Circular 230 Notice: Pursuant to regulations issued by the IRS, to the extent this presentation concerns tax matters, it is not intended or written to be used, and cannot be used, for the purpose of (i) avoiding tax-related penalties under the Internal Revenue Code or (ii) marketing or recommending to another party any tax-related matter addressed within. Each taxpayer should seek advice based on the individual's circumstances from an independent tax advisor.
