I. Understanding ORS

Who are we?

The Michigan Office of Retirement Services (ORS) administers retirement programs for State of Michigan employees, Michigan public school employees, judges, state police, and Michigan National Guard. The Michigan Public School Employees' Retirement System (MPERS) is a public school employee retirement plan currently operating under the provisions of Public Act (PA) 300 of 1980, as amended.

What is our role with MPERS?

ORS must collect and maintain wage, service, and contribution information for all employees who are members of this retirement system. ORS uses this information to calculate and fund accurate pensions for MPERS members. ORS is responsible for processing retirement benefits for our members (you!) in retirement.

What is your role?

In order to calculate a member's pension in retirement, ORS depends on Michigan public schools to report information on MPERS members. Each school district is referred to as a reporting unit (RU), which reports member wage, service, and contribution information to ORS. Each employee's information is called a *Record*. Records are sent to ORS based upon the RU's pay period cycle. It is very important that these records accurately represent the pay and service time for each MPERS member employed by your RU. This will ensure that your employees receive an accurate retirement benefit when they have completed their careers.

We strive to be your partner in retirement reporting. Great customer service is our goal! Do not hesitate to call or email [ORS](#) if you have reporting questions.

Who regulates us?

ORS operates within the Michigan Department of Technology, Management & Budget governed by the State of Michigan. ORS operates and implements retirement accounts for MPERS members as per PA 300 of 1980, as amended. The retirement act legislation provides the foundation for the implementation and maintenance of all member retirement accounts.

The Michigan Office of the Auditor General performs routine audits and reviews of ORS annually. The auditor general conducts audits of financial transactions and accounts of the state and of all branches, departments, offices, boards, commissions, agencies, and institutions of the state established by the Michigan Constitution or by law.

II. ORS websites and resources

The goal of ORS is to provide the most current and accurate resources to benefit members and employers for their retirement-related needs. ORS maintains multiple websites to assist school employers with their reporting needs. RUs can use the following websites to share information with their employees as well as to submit required data to ORS. Each of these websites is explained in detail below.

URL	Site description
Michigan.gov/PSRU	ORS Employer Information website, a website with information to help you report.
SSPRD.State.MI.US/SelfService	ORS Employer Reporting, the secure employer self-service website.

Employer Information website

The Employer Information website provides resources that will help you understand and comply with ORS reporting requirements. The tabs across the top of the screen direct you to various reporting resources, employer communications, and legislation.

Reporting Unit Topic	Available Resources
Administration and Compliance	<ul style="list-style-type: none"> ○ Contribution Rates ○ Charters and Public School Academies ○ Governmental Accounting Standards Board (GASB) ○ Archive: Legislative Updates
Reporting Resources	<ul style="list-style-type: none"> ○ Reporting Instruction Manual ○ Reporting Website ○ Reporting Retirees ○ File Transfer Service ○ Contribution Rates ○ Education & Training ○ New Reporting Units ○ Charters and Public School Academies ○ Forms ○ Scheduled System Maintenance ○ Publications Order Form ○ Archive: Legislative Updates ○ TDP Calculator (MPSERS site)

Retirement Act	Retirement Act: Public Act 300 of 1980
Stay Updated	Sign up for Michigan Office of Retirement Services updates via email.

Employer Reporting website

The Employer Reporting website is a web-based application for all your reporting tasks. RUs can submit payroll files for employees in the Defined Benefit (DB) and Defined Contribution (DC) plans, process member account changes, submit adjustment records, and complete payment transactions on this web-based application.

To access this application, click the *Reporting Website* link on the Employer Information website, under *Reporting Resources*. You may wish to add both the Employer Information and the Employer Reporting websites to your browser's favorites or bookmarks.

First, you need to establish a web user account on the Employer Reporting site. If you will be a Web Administrator or a Payment Processor, begin by completing a form to request access — [Web Administrator Authorization \(R0687C\)](#) or [Payment Processor Authorization \(R0842C\)](#). Otherwise, begin by creating a MiLogin account, if you don't already have one, and request access to the Employer Reporting website. See RIM section [12.01: Creating a MiLogin account and requesting reporting website access](#) for detailed help. Once your MiLogin account has been created and you have requested access to the reporting website, follow the steps below to create your web user account.

1 — Go to the [Employer Reporting](#) website and click *Open Account*.

5 — When you have clicked Save Account and received a confirmation screen, contact your RU's Web Administrator, who will give you authorization and activate your account. You will receive an email confirming activation of your account. Keep your user ID, password, MiLogin user ID, employer number, and Web Administrator contact information in a safe place for future reference.

A list of the current contacts for your RU can be found at the bottom of the Employer Reporting website homepage once a user logs in. If you are responsible for reporting multiple RUs, you will need to select the RU number.

Reporting Instruction Manual

The Reporting Instruction Manual (RIM) is the authoritative guide to ORS reporting. It is a searchable web document that explains what you are reporting and how to report it accurately and timely. The RIM provides a summary of basic plan provisions under Michigan's Retirement Act (PA 300 of 1980, as amended) and the legal requirements for reporting, established by the Retirement Act or by ORS as allowed by law. Current laws, rates, and factors are subject to change and are updated in the RIM as quickly as possible.

Chapters 1-6 cover information regarding membership, compensation, hours, and benefit plans, as well as information about the websites used in reporting. Chapters 7-14 focus on providing instructions for reporting using the Employer Reporting website. Information about whether a type of payment is considered reportable will be found in Chapter 4: Reporting Compensation. Information about how to actually submit or adjust a record on a report that includes that payment can be found in Chapter 7: Payroll Reporting.

The main page of the RIM shows a list of RIM chapter links, along with links to the appendices and glossary. Recently updated sections are also listed here, and a search bar is at the top right (not shown below).

Chapter links

Reporting Instruction Manual

The *Reporting Instruction Manual (RIM)* provides information and instructions to help you comply with the reporting and payment requirements of the retirement law. The information contained in the manual is adapted from statute, board decisions, and retirement system policy. If there are any discrepancies between the *Reporting Instruction Manual* and the actual law, the provisions of the law govern.

The chapters of this manual are listed on the left. You may need to scroll down to see all fourteen chapter names, as well as [Appendix A](#), [Appendix B](#) and the [Glossary](#). Click on the chapter name to see the sections of the chapter.

View [Get to Know the New Reporting Instruction Manual \(RIM\)](#) for tips on navigating the manual. You may search the manual by using the Search box at the top right of the screen.

Search tips:

- Search results will include pages in the *Reporting Instruction Manual* as well as other pages on the Employer Information website.
- To find an exact phrase, put the phrase in quotes. The results will only include pages with the same words in the same order as the ones inside the quotes.
- For example, searching on "defined contribution" will show only the results with that phrase, leaving out results with the word *defined* alone or *contribution* alone.

Additional Sources of Information

The [Public School Employee's Retirement System member website](#), the [Pension Plus Retirement Plan member website](#), and the [Public School Employees' Retirement Act](#) are valuable resources for you and your employees.

Recent Updates (past 12 months)

For updates made after March 18, 2022, the previous version is available in [Appendix B](#). All links below go to the current version.

- 4.02.00: IRS Reportable Compensation (updated 01/07/22)
- 3.03.08: Independent contractors and third-party employees (updated 11/16/21)

III. Understanding reporting roles

A reporting unit (RU) is an employer participating in MPSERS. RUs include all K-12 schools, intermediate school districts, some participating public school academies and charter schools, tax-supported community colleges, seven Michigan universities, and some participating district libraries.

As an employee of an RU who submits wages, hours, and contributions on each MPSERS member to the retirement system, the accuracy and reliability of members' pensions depend on the information you provide to ORS. Your role is essential to maintaining the Defined Benefit (DB) and Defined Contribution (DC) plans.

ORS has designated several user types to categorize the type of tasks and responsibilities an RU's staff may have. Each user type has its own roles and responsibilities, and each has a different level of access to ORS' reporting system. The following chart explains the user types and their roles and levels of access.

User type	User role/responsibility/access
Web Administrator	<ul style="list-style-type: none">• The lead payroll reporter for each RU.• Access to all reporting functions in the employer reporting system.• Maintains ORS contact information for the RU.• Activates/deactivates other reporting user accounts within their designated RU.• Manages and controls access for all web users within their designated RU.• Adds, edits, and deletes contact types.• Account must be created by ORS and certified by superintendent.
Employer Reporting (1-5)	<ul style="list-style-type: none">• The primary submitter of payroll reports to the retirement system.• Access to all reporting processing functions, such as submitting reports and making adjustments.• Receives and responds to ORS requests for additional information regarding member accounts including final salary information.• Cannot submit payments; can view employer statements.
Payment Processor (1-3)	<ul style="list-style-type: none">• Submits payments for employer and member contributions.• Access to online payment processing.• Access to employer statements and financial records.• Receives communications regarding financial information or changes related to financial reporting.• No access to reporting functions.

User type	User role/responsibility/access
Member Inquiry (1-2)	<ul style="list-style-type: none"> • Access to the Member Benefit Inquiry screen only which allows the user to look up a member's benefit structure. • No access to reporting functionality. • Cannot submit payments.

At some RUs, one person may perform tasks in more than one user type, but only one user ID will be associated with a specific role. If an RU has more than one person performing the role of a specific user type, each is designated by a different number. For example, if an RU has three people assigned to Employer Reporting, they will be designated as Employer Reporting 1 (ER1), ER2, and ER3. If an RU has only one person doing both employer reporting tasks and payroll processor tasks, that person may be designated as both ER1 and Payment Processor 1, with a unique user ID and password for each role. But two people will never share a designation such as ER1.

If the employee listed as ER1 terminates employment, the web administrator should replace that user type with another employee assuming their responsibilities. ORS will continue to send communications and important information to the person listed as ER1 for your RU. If this contact information is not current or accurate, your RU's web administrator will receive the communications until another person is designated as ER1.

Additional contacts: Nonreporting roles

Additional contacts may be created for staff who do not require access to reporting or financial records but may need to be contacted for other purposes, such as a superintendent. The RU decides which of its staff should be added as contacts and which type of contact they are. Below is a list of ORS contact types who do not have access to the Employer Reporting website:

- Superintendent.
- Administrator 2.
- Administrator 3.
- Business Official.
- HR Director.
- Human Resources.
- Other 1.
- Other 2.
- Technical 1.
- Technical 2.
- Escalation 1.
- Escalation 2.

Whenever possible, the escalation contact(s) should be someone who oversees the reporting and payment processes — someone other than those with web reporting or payment processor access. This may be the supervisor or director for the payroll office.

IV. Understanding benefit plans

ORS administers multiple plans held within MPSERS, including Defined Benefit (DB) pension plans, Defined Contribution (DC) plans, and the Pension Plus and Pension Plus 2 plans, which are hybrids of the two, so that the member has a traditional pension as well as a DC component when they retire. Understanding the basics of a DB plan and a DC plan and the differences between them is essential to reporting your employees.

A *DB plan* is a retirement plan that provides a guaranteed lifetime pension payment in retirement based on a set formula. A DB plan is a traditional pension in which a member receives a predetermined monthly payment in retirement for their lifetime. To qualify for a pension in retirement, members must meet certain age and service (employment) requirements.

A *DC plan* is a retirement plan in which a percentage of earnings are set aside each pay period by the employer and the employee for the benefit of the employee. DC contributions made by the employer and the employee are invested in the State of Michigan 401(k) and 457 Plans. This type of retirement plan is strictly an investment account to be used in retirement. No predetermined monthly payment is guaranteed. Some employees choose to defer some compensation to a State of Michigan 457 Plan account, and this type of account is like a DC plan, but without the employer contribution. The employer defers a percentage of the employee's compensation to this plan on the employee's behalf.

Employees hired by Michigan public schools are placed in a benefit structure based on when they first became members of MPSERS. The benefit structure categorizes a member's retirement plan type, which varies based on available benefits, eligibility requirements, contribution rates, and pension factors. For public school employees there are multiple benefit structures:

Defined Benefit (DB)		Defined Contribution (DC)	Hybrid of DB and DC
MIP Fixed	MIP 7%	DC	Pension Plus
MIP Graded	Basic	MIP DC Converted	Pension Plus 2
MIP Plus	Basic 4%	Basic DC Converted	

In addition, each member has a retiree healthcare plan:

- Premium subsidy benefit — A portion of the monthly insurance premiums are paid by the retirement system after retirement.
- Personal Healthcare Fund (PHF) — A fund established to provide for medical expenses in retirement. Members with PHF are considered to have a DC component to their benefit structure.

To determine what plan a member or retiree is in, use the Member Benefit Plans link on the Employer Reporting website. This process allows you to review basic information about an employee to determine the amount of employee contributions that should be withheld.

V. ORS reporting

MPSERS membership — Who must be reported?

Almost all employees of an RU are members of the retirement system (MPSERS) — but not all. Who is a MPSERS member and how do you know who to report? According to the Retirement Act, a MPSERS member is any public school employee not excluded from membership. A rule of thumb is if a member is hired and paid directly as an employee of the school district, they most likely are considered a MPSERS member. Once an employee is identified as a MPSERS member, they are placed into the appropriate benefit structure based on their hire date. Any new employee new to MPSERS will be placed in the Pension Plus 2 Plan with the Personal Healthcare Fund (PHF) as their retiree healthcare plan. New employees have 75 days to elect to stay in the Pension Plus 2 Plan or retroactively switch to the Defined Contribution (DC) Plan with PHF. If they make no election within the 75-day window, they will default to the Pension Plus 2 Plan, retroactively. The new employee will need to log in to their miAccount to make their retirement plan election.

In addition to reporting MPSERS members, you must report MPSERS retirees who return to work. These employees were members until they retired; now they collect a pension. ORS collects information about their wages to ensure they are in compliance with wage limits for retirees. New employees who receive a MPSERS pension are required to inform their employer of this fact when they are hired.

What must be reported?

As a payroll officer, you report several types of information that determine the pension and other benefits that MPSERS members receive upon retirement. The three main types of information you must report include:

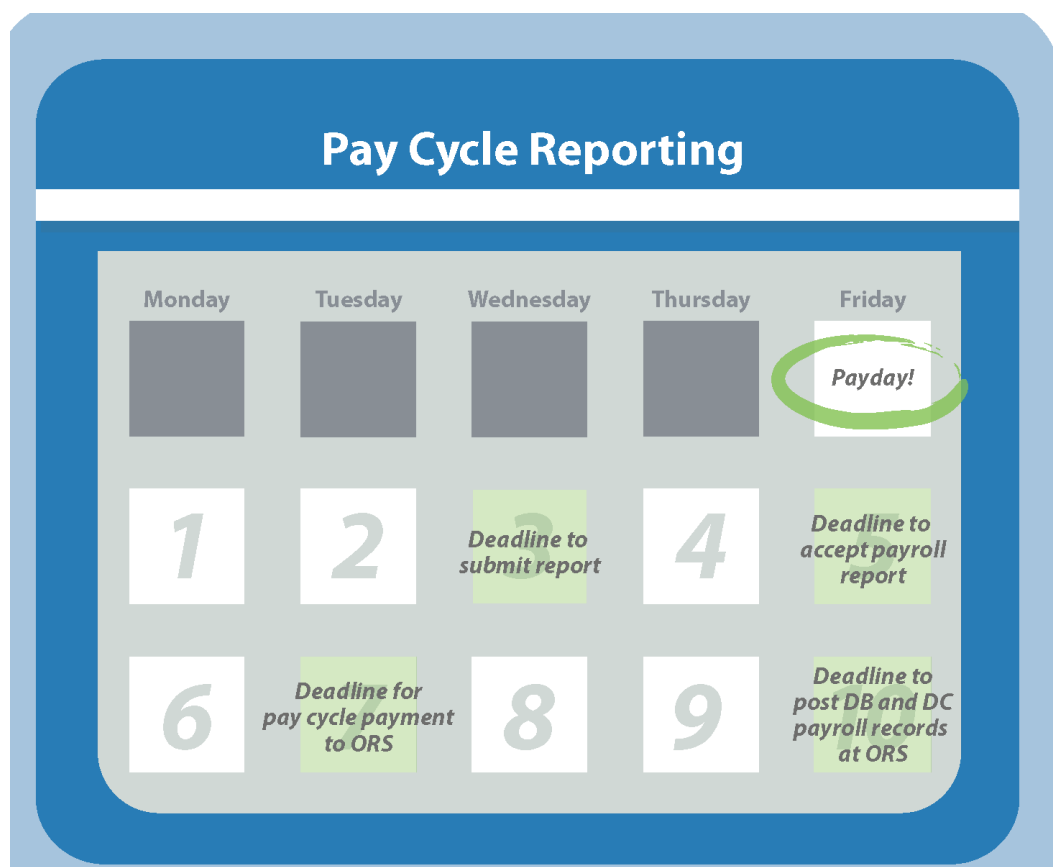

- Wages and other types of compensation — Reportable compensation must be accurately reported using the correct code indicating the type of compensation. Required contributions and pensions are based on compensation.
- Hours — Accurate reporting of employee hours, or service, allows ORS to calculate the retirement eligibility of an employee in the Defined Benefit (DB) Plan, which is based on their years of service. For employees in the DC Plan, hours must be accurate to determine whether they are fully vested in their State of Michigan 401(k). All the information above applies to employees in the Pension Plus or Pension Plus 2 plans, which have both a DB component and a DC component.
- Contributions — Depending on the member's benefit plan, various member and employer contributions are paid into the MPSERS system or into the member's 401(k) and 457 accounts, where it is invested. Accurate and timely reporting and payments of contributions ensure that members are building their retirement accounts as they directed and ensure the fiscal health of the retirement system.

Compensation

Understanding what information to submit to ORS can be complex. An RU has the right to compensate its employee any amount negotiated; however, not all the compensation may be reportable to ORS. Only certain types of compensation are recognized as reportable for the purposes of determining a member's pension as defined in PA 300 of 1980, as amended.

Pay cycle reporting

Retirement reports must be accepted by the fifth business day and payment to ORS must be submitted by the seventh business day after your pay cycle end date. DB and DC records that can be accepted and posted by the employer must be posted by the 10th business day after your pay cycle end date.

Detail records

The employer reporting system organizes member data into four different types of records containing different details. Payroll reports are made up of a set of detail records. Each record contains specific information related to that member for that specific pay period. ORS names these detail records:

- Detail 1 (DTL1) record — Demographic information.
- Detail 2 (DTL2) record — Wage (compensation) and hours information.
- Detail 3 (DTL3) record — Tax-deferred payment information.
- Detail 4 (DTL4) record — Gross wages and employer and member 401(k) and 457 contribution information.

Detail 1 (DTL1) records contain the member's demographic information including Social Security number (SSN), name, and address. These records are submitted when a member is new to the system or makes some change to their demographic information. Please note that the Detail 1 record must also include date of birth and gender.

Detail 1 - Member Demographics:

SSN:

Old SSN:

First Name:

Last Name:

Middle Name:

Name Change Indicator: ☐

Address - 1:

Address - 2:

Address - 3:

City:

State:

Zip - 1:

Zip - 2:

Province:

Country Code:

Postal Code:

Status Code:

Status Date: (MM/DD/YYYY)

Date Of Birth: (MM/DD/YYYY)

Gender:

Detail 2 (DTL2) records contain reportable DB Plan wages, hours, and contributions.

When determining wages to report to ORS, what is reported on the Detail 2 record may be different from what is reported on the Detail 4. Employer Reported Wages on the Detail 2 should include all reportable compensation as defined by statute. Employer Reported

Wages on the Detail 4 should include gross wages as found in Box 1: Earnings on the member's *W-2* form.

Detail 2

Employer reported wages = Reportable compensation
(as defined by statute)

Detail 4

Employer reported wages = Gross wages
(Exceptions include nontaxable exclusions per IRS rules and regulations.)
Gross wages are found on a member's *W-2* form (Box 1: Earnings).

Detail 2 - Wage and Service:

Employment Class Code:

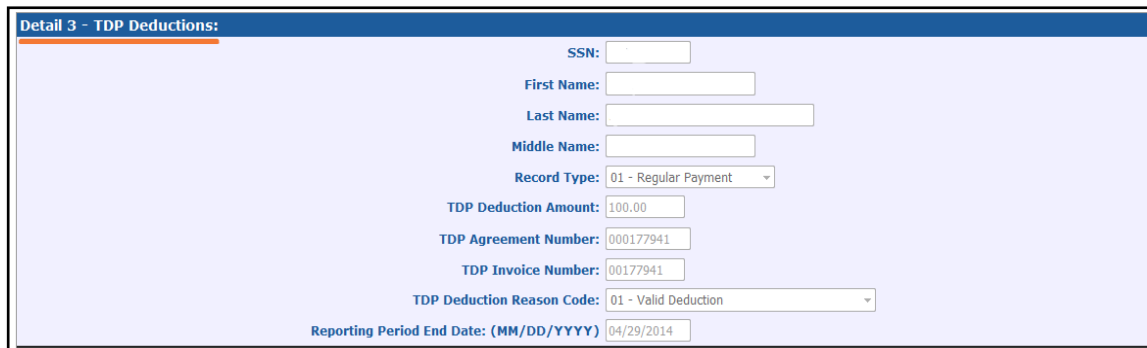

Contract Begin Date: (MM/DD/YYYY)

Contract End Date: (MM/DD/YYYY)

Frequency Of Pay:

1.5% indicator will work for record end dates July 1, 2010 to June 30, 2011 only ☐

Detail 3 (DTL3) records contain information about a member's tax-deferred payments (TDP) for service credit purchases. Only members with TDP agreements require records of this type. For more information on TDPs, see the [RIM Chapter 10: Tax-Deferred Payment Plan](#).

Detail 3 - TDP Deductions:

SSN:

First Name:

Last Name:

Middle Name:

Record Type: 01 - Regular Payment

TDP Deduction Amount: 100.00

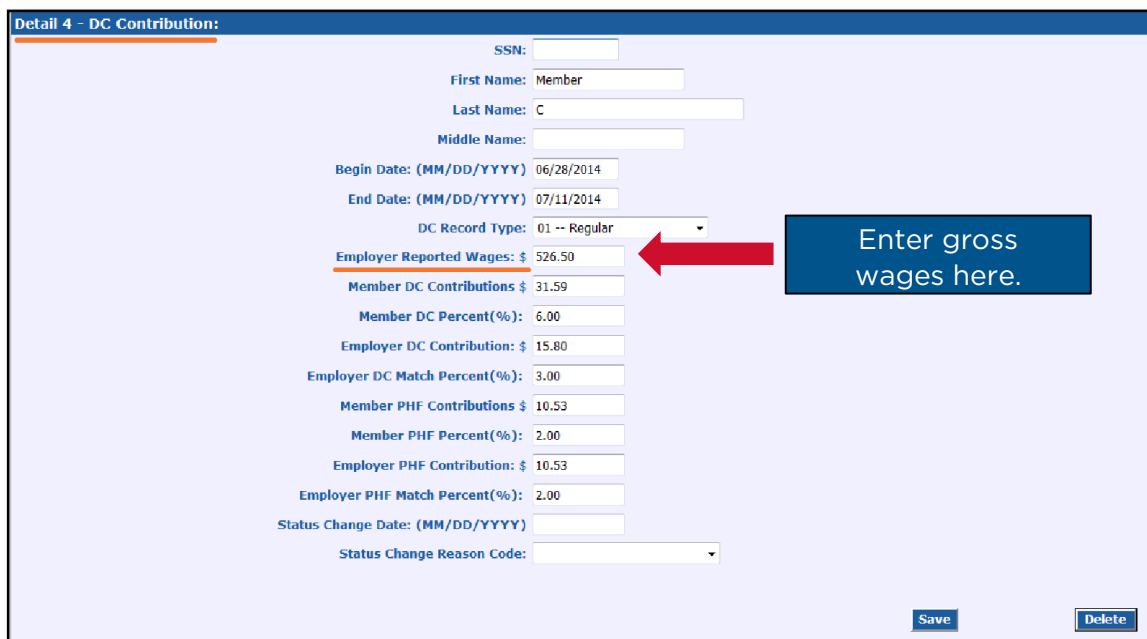

TDP Agreement Number: 000177941

TDP Invoice Number: 00177941

TDP Deduction Reason Code: 01 - Valid Deduction

Reporting Period End Date: (MM/DD/YYYY) 04/29/2014

Detail 4 (DTL4) records contain wages and contribution amounts based on an employee's gross wages rather than reportable compensation. An employee's gross wages — found in Box 1: Earnings on the employee's *W-2* form — should be entered in Employer Reported Wages. This may be different from the member's reportable compensation entered in their Detail 2 record. Please note that weekly workers' compensation, long-term disability, and short-term disability are not reported on a Detail 4 record.

Detail 4 - DC Contribution:

SSN:

First Name: Member

Last Name: C

Middle Name:

Begin Date: (MM/DD/YYYY) 06/28/2014

End Date: (MM/DD/YYYY) 07/11/2014

Enter gross wages here.

Save Delete

Employment class and wage codes

Member wages are reported using a combination of class codes and wage codes. The class codes define your employees' positions within your RU. Quite often, employees will work in more than one position. When a member works in two or more different positions, you will need to submit separate Detail 2 records using the correct employment class code, wage code, and pay rate for each position.

For example: Member B is a teacher who also coaches basketball and is paid for their coaching. During this pay period, Member B also received a lump-sum longevity payment for \$800 and \$1,000 in merit pay — both are types of reportable compensation without hours. Member B earns \$78,000 in teaching wages over the year. For this pay period, Member B's records would use the following class and wage codes:

Example 1

Wage type	Amount	Wage code description	Employment class code
Teaching wages	\$3,000	01 — Regular Wages	1240 — Teaching
Coaching wages	\$1,500	11 — Coaching Wages	1560 — Coaches — Recreational
Longevity pay, merit pay*	\$1,800	09 — Wages Without Hours	1240 — Teaching

*Longevity and merit pay can be combined and reported with wage code 09.

During the summer months you will need to change Member B's wage code to reflect their summer spread wages. During the summer, Member B would be reported with Class Code 1240 — Teaching and Wage Code 08 — Summer Spread Wages. You reported hours for the actual time worked throughout the school year; therefore, the summer spread wage code does not allow for hours.

Example 2

Wage type	Amount	Wage code description	Employment class code
Teaching wages	\$3,000	08 — Summer Spread Wages	1240 — Teaching
Coaching wages	\$1,500	11 — Coaching Wages	1560 — Coaches — Recreational

Example 2 shows compensation for a pay period during the summer. In this pay period, Member B did not receive longevity or merit pay, which are lump-sum payments. The summer spread wage code (08) is used in place of a regular wage code. Also note the coaching wages shown above. This member receives \$3,000 in regular wages (spread over the summer months) but in addition has a summer coaching position. Wages for the two class codes are reported separately as shown above, with hours reported only for the coaching wages.

Reporting process

Creating and submitting payroll reports is the primary task of the Employer Reporting role. Reports must be submitted according to a schedule that corresponds to the pay periods at your RU. Late reports incur fees, so it is important to understand your RU's payroll calendar for reports. See the RIM section [7.00.01 Payroll calendars and due dates](#) for more information.

Reports are made up of basic information, such as the RU number, pay period begin and end dates, and a set of detail records containing the data you are reporting.

Payroll reporting has five basic steps:

1. Submit a report by uploading, copying forward, or manually entering data into a payroll report on the Employer Reporting website. The employer reporting system will verify the data submitted overnight through a process known as Edits and Validations. Records in the report that do not pass this verification process will be flagged or suspended. These records must be reviewed and corrected. ORS will send a payroll status report email indicating the number of flagged, suspended, and posted records. At this point the report is considered unposted.
2. Work on the report to make all records valid. Using tools on the Employer Reporting website, such as the Download Detail (described below) verify report totals and check that the number of employees, gross wages, retiree wages, DB and DC employer contributions, DB and DC member contributions, and tax-deferred payments are correct. The report may need to run through the overnight verification process more than once before all the records are in valid status.
3. Accept the payroll report after you have verified your information and are confident it is accurate. Valid data will now post to the member accounts, and the report is considered posted. Once you accept a report, *it cannot be deleted* if even one record has posted. In addition, posted records cannot be deleted. Corrections to posted records must be made by using adjustment codes in detail records included in a later report.
4. Reconcile your employer statements, payments, and financial records to ensure accurate reporting.

The Download Detail screen

The Download Detail link on the View Report Totals page on the Employer Reporting website allows you to view the details on submitted reports in spreadsheet form. You can view a download detail for your entire report, posted records only, unposted records only, or adjustment records only. Use the download detail to help you identify unposted records with errors to be corrected or posted records that require adjustments.

The download detail spreadsheet can be especially helpful when looking for discrepancies in DB member and employer contribution amounts. The information on this spreadsheet can be used to reconcile your reports with your payroll system output.

The View DC Feedback File screen

The information on the link, provided by both Voya Financial and ORS, relays to you any recent DC and PHF contribution changes. The link should be checked on a regular basis, or at least each time you process payroll. Each record on the file contains the employee's name, their benefit structure, the last four digits of the SSN, the new contribution percentages, the date the change was received, and the report end date when the changes will be effective.

To keep the Feedback File screen up to date and easier to use, once you have updated your employee records with the deduction changes, place a check mark in the Read Record box and click *Save*. The record will drop down to the Read Feedback section of the page leaving only the unchanged records in the Unread section. These Read Records will remain on the screen only until the page is closed when they will be removed. If you need to recall any records at a later time, simply use the Search Criteria section provided on the Feedback File screen.

The View Election Status screen

New to MPSERS employees make their election through miAccount. The View Election Status screen will inform you of the status of their election process. It is divided into two sections: those who have not made their election and those who have made their election.

Under the New Members Yet to Make Election section, you can see how many days are left in each member's election window. Click on the blue link in the SSN column to see when and which election communications were sent from ORS.

Under the New Members Who Have Made Their Election section, you can see if they elected Pension Plus 2 or DC or if they defaulted into the Pension Plus 2 Plan. If they elected or defaulted into the Pension Plus 2 Plan, this link will tell you if adjustments to Detail 4 records are required. After adjustments have been made to the Detail 4 records, check the box in the DTL4 Adjustments Completed column to remove that member's information from that screen.

Note: New member's election information will be displayed on the View Election Status screen for 100 days from the first report end date.

The View Employee Information screen

A history of reported wages and hours and posted member and employer contributions for employees of your RU can be found on the View Employee Information screen on the Employer Reporting website. Data is available from October 2002 through present day for data reported by your RU.

Not only can you see exactly what posted to the employee account, the information is invaluable when you need to make adjustments to prior posted information.

Edits and validations for adjustment records require that record begin and end dates, wage codes, and class codes on an adjustment record be compatible with the originally posted data or the adjustment record could suspend.

The View Employee Info screen displays data by fiscal year, and each fiscal year is divided into three sections:

- Wage Record Details: Information reported on a Detail 2 (DTL2) – Wage and Service record.
- DC Contribution Record Details: Wage information reported, and contribution amounts posted from a Detail 4 (DTL4) – DC Contribution record.
- TDP Details: Information reported and posted from a Detail 3 (DTL3) – TDP Deductions record.

The View Payroll Calendar screen

This page displays past and current payroll calendars for your RU. Much of ORS programming for employer statements and granting service credit is based on your payroll reporting frequency. Only ORS can make changes to current payroll calendars. Policy allows calendar modifications due to a change of payroll frequency, such as changing from a biweekly to a semimonthly frequency, or in the event of a fiscal year with 27 pay periods. It is important to note that adjustments made to your payroll calendar will result in changes to your report and payment due dates as well.

Your payroll calendar can contain biweekly, monthly, or semimonthly dates. Some employers use different pay periods for different types of employees, and as a result, will need multiple calendars.

To change your payroll calendar, contact ORS at ORS_Web_Reporting@Michigan.gov. View RIM section [7.00.01 Payroll calendars and due dates](#) for more information.

The Retirement Applicants screen

This link will provide a list of members who have filed a retirement application. This list is sorted into two columns; regular retirement, and initial pension. For each member listed, ORS records show that this member works or has worked at your RU, and you are required to complete the final payroll details (FPD) for each retiring employee. You can do this by clicking on the applicant's name to open the FPD screen and submitting the required information.

Please note that this should be checked regularly as the system does not prompt you for each new applicant. For step-by-step instructions on how to use this link, view RIM [Chapter 11: Final Payroll Details](#).

The View Employer Statement screen

This link allows you to view your organization's Pay Cycle Statement, Recent Activity, Employer Statement History, Verify Amount Due, Shortfall and Late Fee, and Shortfall Interest. The Employer Statement contains information for both DB and DC.

Use Recent Activity, which updates in real time, on days one through six of the pay cycle to find the balance due. On the seventh business day after your pay period end date, the balance displayed on the Pay Cycle Statement is due to ORS. If you would like to go back to look at a previous statement, you can visit the Employer Statement History link.

The Payments screen

This link is available only to those with Payment Processor access. Payment processors can click this link to go to the Payments page to make both DB and DC payments to ORS online. Payment Processors can also see transaction statuses of pending payments, previous payments, and the accounts used to make the previous payments.

For instructions on how to make a payment or for more information, view RIM section [8.03.02: How to make a payment.](#)

Employer newsletter

ORS sends a monthly newsletter, *MPERS Employer News*, to all MPERS RUs. The newsletter features important dates and reminders, helpful tips, and articles on relevant topics.

Visit the Employer Information website (Michigan.gov/PSRU) to see an archive of previous newsletters. If you are listed as a contact on the Employer Self Service website, you will be automatically subscribed to the Employer newsletter.

VI. ORS contact information

As you are becoming familiar with the tasks and responsibilities of reporting to ORS, we welcome calls and emails to clarify the information in this guide. ORS Employer Reporting is available for assistance during normal ORS business hours Monday through Friday except for State of Michigan holidays.

Contact	Phone	Email	Purpose
ORS Employer Reporting	800-381-5111	ORS_Web_Reporting@Michigan.gov	Answer any of your retirement reporting questions or needs.
ORS Member Customer Service	800-381-5111	N/A	Answer any of your personal member retirement account needs.

VII. Appendix: ORS Acronyms

ACH	Automated Clearing House (a type of electronic funds transfer)
ACFR	annual comprehensive financial report
CS	critical shortage OR core services (in context of retirees who return to work)
DB	defined benefit (may refer to the Basic Plan or a Member Investment Plan; or to the pension component of Pension Plus or Pension Plus 2 Plan)
DC	defined contribution (may refer to the Defined Contribution Plan, the savings component of Pension Plus or Pension Plus 2, or the Personal Healthcare Fund). ORS does not use the acronym DC to mean deferred compensation.
DTL1	Detail 1 – Member Demographics
DTL2	Detail 2 – Wages and Contributions
DTL3	Detail 3 – TDP Deductions
DTL4	Detail 4 – DC Contributions
ER	Employer Reporting, the section of ORS that supports RUs and ensures compliance with reporting statutes and guidelines.
FAC	final average compensation
FICA	Federal Insurance Contributions Act. Employers and employees pay a FICA tax to fund Social Security and Medicare.
FPD	final payroll details
FT	full time
FY	fiscal year
GASB	Governmental Accounting Standards Board
HCC	healthcare contribution, a contribution for members with the premium subsidy benefit.
ISD	intermediate school district
LTD	long-term disability
MIP	Member Investment Plan
MPERS	Michigan Public School Employees' Retirement System
NOL	net OPEB liability
NPL	net pension liability
OPEB	other post-employment benefits
ORG number	organization number (same as RU number, RU number, or RU#)
ORP	Optional Retirement Plan
PA	Public Act
PHF	Personal Healthcare Fund
PSA	public school academy
PSRU	public school RU – used in the URL for the Employer Information website
PT	part time
RIM	Reporting Instruction Manual
RU, RU#	RU, RU number
SC	service credit
SSN	Social Security number
STD	short-term disability
TDP	tax-deferred payment
TOL	total OPEB liability
TPL	total pension liability
UAAL or UAL	unfunded actuarial accrued liability
WWC	weekly workers' compensation
YOS	years of service
