Janice,

I spoke with Ben, Governor Granholm's speech writer, and shared the following with him:

Arnold Dahlgren (906) 474-9847 – Former Lakeside Machine worker. Lakeside Machine list jobs to a foreign country. We provided assistance with training funding for Arnie to become an Automotive Technician. Arnie is working fulltime at TKL Automotive.

Daniel Demay (906) 428-2179 – Former Lakeside Machine worker. Daniel attended Bay College with Trade funding and received his Associates Degree. An Associate Degree is a minimum requirement to work for New Page, a local paper mill. He is now working at New Page (hired in April 2006), as a Mill Trainee, at \$24.00 per hour.

25-052106-02

Jack Belinger (906) 346-7459 – Empire Mine worker laid off due to steel imports. He attended Bay College through the Trade program and became a Registered Nurse. He is now working at Marquette General Hospital. (Jack helped us in our RSA recruitment of non-traditional students in the nursing field, and was our 2005 Alumni of the Year recipient.)
