

# RENEWING MICHIGAN'S ENVIRONMENT

## FUNDING TO CLEAN UP THOUSANDS OF CONTAMINATED SITES STATEWIDE

The nearly depleted 1998 CMI bond funded **\$675 million** of contaminated site remediation and environmental activities

The current CMI bond leaves our kids with debt while burdening taxpayers with a **50% markup** totaling over **\$1 billion in costs** for the bond

The cost of the legislative proposal would be about **\$4.44 per household, per year**

There are **15 confirmed sites** in Michigan with emerging PFAS contaminant issues

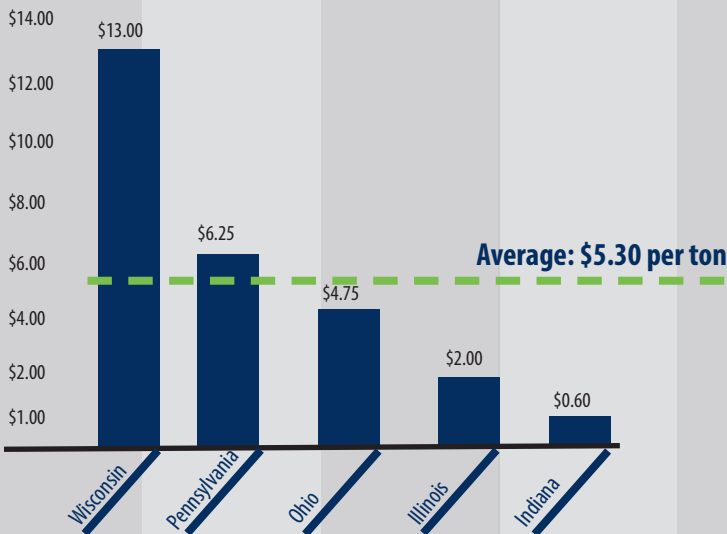

**17 million tons of trash** are disposed each year in Michigan

Michigan's **15% recycling rate** is one of the lowest in the nation

### EXISTING SOLID WASTE TIPPING FEES

**3,000** contaminated, abandoned sites throughout Michigan need remediation

**25.5% of Michigan's trash** is imported from other states/countries in part due to low tipping fees

**RAISING MICHIGAN'S EXTREMELY LOW \$0.36/TON LANDFILL FEE TO \$4.44 WILL GENERATE \$74 MILLION PER YEAR**

# MICHIGAN'S ENVIRONMENTAL NEEDS

**\$74 MILLION ANNUALLY IS NEEDED TO ENSURE A SAFER, CLEANER ENVIRONMENT**

## CATEGORY

## ANNUAL AMOUNT

### 1. REMEDIATE AND REDEVELOP EXISTING AND FUTURE CONTAMINATED SITES

**\$45 million**

- Clean up 300 sites annually, in all 83 counties
- Address emerging contaminants

### 2. SOLID WASTE MANAGEMENT

**\$9 million**

- Enhance solid waste planning for local governments
- Increase asbestos removal oversight for blighted communities

### 3. RECYCLING GRANTS TO TRIPLE MICHIGAN'S RECYCLING RATE

**\$15 million**

- Provide recycling grants to local entities for recycling infrastructure, market development and education

### 4. WATER QUALITY MONITORING GRANTS

**\$5 million**

- Monitor beaches to keep them clean
- Reduce phosphorus in Lake Erie
- Remove contamination in rivers, lakes and streams

**TOTAL: \$74 MILLION**
