Trade-In Sales Tax Credit Calculation Worksheet

Implementation of the sales tax trade-in credit requires new calculations on transactions with a trade-in.

The Department created a **2020 Trade-In Sales Tax Credit Calculation Worksheet** to help correctly calculate the trade-in sales tax credit. The website version of the 2020 worksheet calculates the correct trade-in sales tax credit but is **not submitted** with the RD-108 to the Secretary of State. This worksheet is available on the Department's Website under Licensed Dealer Forms and can be accessed using the following link:
