Michigan Independent Citizens Redistricting Commission Application

Why do you want to serve on the Michigan Independent Citizens Redistricting Commission?

I believe that voters want their vote to count. Congressional districts that are drawn based on Census data can ensure that each district has about the same number of people and that districts are reflective and representative of the electorate. No party should be given an unfair advantage in elections by strategic drawing of district lines. I have a background in mathematics (MS, Virginia Tech, 1994). While common sense may be the strongest qualification for a commissioner's role, mathematical ideas can be used to assist in drawing maps that allow for fair elections. This is an exciting opportunity to engage in our democracy and be a part of this important initiative for the people of Michigan.

Describe why or how you affiliate with either the Democratic Party, Republican Party, or why you don't affiliate with either.

My party preference at this time is the Democratic Party as it aligns better with my core values. There is a need to work together, and both parties have been guilty of standing in the way of this happening. Still, I'm optimistic and believe that both parties see a need to have elected officials who best represent the people of their district.
