# Upgraded Fee Calculators

By popular demand, we have upgraded our fee calculators to allow for more accurate MSRPs and fees. To utilize these upgraded calculators, you must login to your dealer account. View the Dealer Account Manager guide for instructions on how to add additional users.

The upgraded fee calculators allow dealers to input a VIN and a MSRP will be retrieved for you.

Once logged into your CARS e-Services account, you can select either the **Plate Transfer Fee Calculator** or the **Registration Fee Calculator** hyperlinks.
