SECTION II. PERSONAL PROPERTY STATEMENT

(A) Personal Property Listing Multiplier Tables

You must report in these sections all tangible personal property located in the State of Michigan which is owned by you or is leased and engaged by you in the business of providing telephone/telegraph service. Property must be listed at its **full original cost new, in the year that it was new.** The "Costs Reported Prior Year", "Losses", "Additions", and "True Cash Value" columns are for Assessment and Certification Division (ACD) use only. To view the values and calculations entered by the Assessment and Certification Division, complete form 4435 to obtain a Personal Identification Number (PIN) for access to the online reporting form available at www.michigan.gov/stateassessedproperty (see "How to submit this report" section above for additional information). Tentative Values will be electronically posted on or about May 15th, and Final Values will be electronically posted on or about June 15th.

The valuation multipliers that will be used to value the property disclosed by the taxpayer in this report are intended to be applied to the original cost of new, not used, property. Original cost new includes freight, installation, and sales tax. If the original cost new of an asset is known, or can be reasonably ascertained through investigation, you must report that cost on the line that represents the year that it was new, even if you have adjusted the cost in your accounting records to reflect revaluation of the asset using a "purchase", "fresh start", "push down", or similar accounting methodology, or even if your booked cost reflects a "used" purchase, lease "buy-out" price or a "trade-in" credit. The cost of all property must be included in this report even if the asset is fully depreciated for federal income tax or financial accounting purposes, and even if the property has been expensed, rather than capitalized in your accounting system.

Inventory is exempt from assessment. Inventory does not include personal property under lease or principally intended for lease or rental, rather than sale. Property allowed a cost recovery allowance or depreciation under the Internal Revenue Code is not inventory. Non-registered motor vehicles and equipment attached to motor vehicles which are not used while the vehicle travels on the highway are assessable, but vehicles registered with the Michigan Secretary of State on December 31st are exempt. Computer software, if the purchase was evidenced by a separate invoice amount and if the software is commonly sold separately, is exempt.

Table A: Furniture and Fixtures

Examples of the assets to be reported in this section include, but are not limited to: decorations, seating, office furniture, shelving and racks, lockers, modular office components, cabinets, counters, rent-to-own furnishings, bookcases, displays, mobile office trailers, tables, filing systems, slat walls, non-freestanding signs, window treatments, uniforms and linens.

Table B: Machinery and Equipment

The assets to be reported in this section include all assets that are not designated for disclosure in another section. Some examples of such assets include, but are not limited to the following types of machinery and equipment: air compressors, boiler, furnace, unlicensed vehicular, vehicle mounted equipment, conveyor, incinerators, maintenance and janitorial, waste containers, computer controlled lighting, hand tools of mechanics and trades, freestanding and other safes not assessed as real property, fork lift trucks.

Note: Motor Vehicles and Attached Equipment

If the taxpayer owns or leases motor vehicles used in Michigan and the vehicles are properly registered with the Michigan Secretary of State, the registered vehicles are exempt from assessment, but any attached equipment which is not designed for operation while the vehicle is moving on the highway, is not exempt.

Table D: Office Electronic, Video and Testing Equipment

Examples of assets to be reported in this section include, but are not limited to: office machines, non-computerized cash registers, copiers (including digital copiers/document processing devices), faxes, mailing and binding equipment, photography and developing equipment, shredders, projectors, telephone and switchboard systems, audio and video equipment, amplifiers, CD, cassette and disc players, speakers, cable television local origination equipment, electronic scales, surveillance equipment, electronic diagnostic and testing equipment, satellite dishes, electronic testing or laboratory equipment, cellular transmitter site equipment (except towers and land improvements and items reported under other sections of this form – see State Tax Commission Bulletin 3 of 2000, as amended), cellular telephones, security systems, 2-way and mobile land radio equipment, pay-per-view systems, wooden and plastic pallets and shipping containers, and distributive control systems (see Bulletin 3 of 2000, as amended). Other assets may be included at another time.

Table F: Computer Equipment

Examples of assets to be reported in this section include, but are not limited to: assessable software, personal and midrange and mainframe computer and peripheral equipment, including servers, data storage devices, CPUs, input devices, output devices, monitors, networking equipment, computerized point of sale terminals, global positioning system equipment, pager instruments, and cable television converters. Do not report digital copiers in this section even if the equipment can also be used as a computer peripheral. (report those in table D)

(B) Leased Personal Property

This section is provided for the limited purpose of reporting any leased property which is not listed in section A due to the inability of the taxpayer to ascertain the original cost new. If the cost new is not ascertainable, provide as much information as possible about the lease/rental agreement terms. Include any indefeasible rights to use personal property that are used by you in the business of providing telephone/telegraph service. Personal Property listed in this section will be reviewed and valued by the Assessment and Certification Division.

(C) Personal Property Construction in Progress

Construction in progress is defined as property and network systems which are located in Michigan and which are either under construction or have not been placed in service on or before December 31st. Report all costs that have been incurred including overheads, installation costs incurred, sales tax and freight. Reporting of costs should be separated by project. Property which is placed in service on or before December 31st is considered placed in service that year and should be entirely reported on the line which represents the year that it was considered placed in service. Similarly, the cost of all assets must be reported as acquired in the year that they were placed in service, rather than the year of purchase, if those years differ.

Section III. Real Property

A. Previous Year Assessed Real Property

Indicate whether there have been any changes to your real property as compared to the prior year's information and provide information about any changes in B and C. If you would like to view your previous year reported Real Property for comparison, you may request an individual secure Personal Identification Number (PIN) by completing Treasury Form 4435. This PIN allows you to view your secure online account which will have the previous year information, as well as the calculations worksheets, and tax notices for the current year, once all the processing has been completed by the Assessment and Certification Division.

B. Losses to Real Property

Losses means the decrease in value which has not been reflected in the assessment unit's immediately preceding year's assessment roll. Losses include removal or destruction of real property, newly exempt property, or newly contaminated property.

C. Additions to Real Property

Additions means an increase in value which has not been reflected on the assessment unit's immediately preceding years assessment roll. Additions include omitted property, new or replacement construction, and increases in value due to new public services and/or contamination remediation.
