Instructions for *Michigan Net Operating Loss Carryback Refund Request (Form 5603-CARES Act)*

Federal CARES Act of 2020

The federal CARES Act of 2020 amended the net operating loss (NOL) provisions in Internal Revenue Code (IRC) 172 for a carryback of any NOL arising in a taxable year beginning after December 31, 2017 and before January 1, 2021.

For tax years 2018 and 2019:

- NOL carrybacks are not limited to a farming loss
- NOLs can be carried back to the five preceding tax years
- NOL deductions are not limited to 80% of income subject to tax

Purpose

Form 5603-CARES Act is used to request a refund from a 2018 or 2019 NOL carryback. An NOL created in these years can be carried back to the five preceding tax years to offset income subject to tax. Include an additional Form 5603-CARES Act to carry the NOL back all five years.

If an election was made to forgo the entire carryback period, then do not file this form. Once the election is made, it is irrevocable. If you were statutorily prevented from carrying back the loss and carried your loss forward, the CARES Act now allows you to carry back the loss. You may carry back the loss by filing Form 5603-CARES Act and amending Form MI-1040 to account for the reduced NOL available in the carryforward year.

For more information on NOLs, see *Michigan Net Operating Loss Schedule* (Schedule MI-1045) instructions.

NOL Carryback

Form 5603-CARES Act must be filed to request a refund from an NOL carryback. This form must be supported by an MI-1045 for the loss year and all supporting documentation. An amended MI-1040 may not be filed in lieu of Form 5603-CARES Act to claim a refund from an NOL carryback.

To carry back a Michigan NOL to prior years, Form 5603-CARES Act must be filed within four years after the date set for filing the return for the year in which the NOL was incurred. For example, if the NOL is created in 2018, the 2018 return is due April 15, 2019. Form 5603-CARES Act must be filed by April 15, 2023 to carry back the 2018 Michigan NOL to a year that is otherwise outside the general four-year statute of limitations period to claim a refund. If Form 5603-CARES Act is filed after the four-year statutory period has expired, no refund is allowed for the carryback year. However, after absorbing the NOL in those carryback periods, a carryforward may still exist to offset income subject to tax in subsequent years.

After the loss is carried back to the earliest year allowed, the carryover must be reduced by any Michigan sourced excess capital loss and other modifications required under IRC 172 that were claimed in the carryback year(s). For example, if excess capital loss and domestic production activities deduction (DPAD) were in 2013 adjusted gross income (AGI), the NOL created in 2018 that is carried back to 2013 must be reduced to the extent the deductions reduced 2013 Michigan taxable income before the remainder may be carried to the next year. These modifications are required even if there is no income subject to tax.

After computing the carryover, the unused NOL is carried to the next carryback year. After the five-year carryback, any unused NOL may be carried forward indefinitely until absorbed.

Note: To carryback NOLs created in 2017 and prior, see 2017 Form MI-1045 and instructions.
