

IFTA is going paperless!

Beginning with the Fourth Quarter 2014 reporting period (due January 31, 2015), you will be required to electronically file your International Fuel Tax Agreement (IFTA) returns using Michigan's new electronic IFTA tax return processing system.

Advantages of Electronic Filing (e-file)

- It's Free
 - IFTA e-file is a free service that allows Michigan-based IFTA carriers to quickly and accurately file their quarterly IFTA return using a computer that has an Internet connection.
 - There's no need for you to purchase software, postage or mailing envelopes.
- It's Fast and Convenient
 - IFTA e-file performs all required computations and checks for common errors —SO YOU DON'T HAVE TO!
 - You receive immediate confirmation that we received your IFTA return.
 - You have the ability to amend returns (up to 4 years) through the e-file system.
 - You have the ability to access account information 24/7 – 365 days a year.
- It's Secure
 - Your information is protected through Secured Socket Layer (SSL) protection which encrypts the information transferred between computers.
 - You have 3 payment options: EFT Debit, EFT Credit (must register beforehand), or bank check.
