Footnotes to include on report:

¹ Includes WIA, PATH, TAA, and Food Assistance data.

² Measured in weeks; calculated from the date training began to when training ended. This column only captures individuals who exited the program during the reporting period.

³ There may be a duplication in counts as participants move between programs or institutions.

⁴ The wage amount is captured at the time a participant exits the program.

⁵ Includes WIA and TAA data only.

⁶ The MWA total average is weighted by the number of participants included in the calculation for each MWA; it is not a simple average.

⁷ The statewide average is derived by taking the number of participants in each MWA multiplied by the wage earned by each participant.
