Fiscal Year 2016 Second Quarter Report
Certifications – UIA Web Account Manager System

The Department of Talent and Economic Development is required to report quarterly on the percentage of unemployment claimants that meet the certification requirements for receiving benefits by using the Internet Michigan web account manager system under section 1077 of Public Act 84 of 2015.

Highlighted below in yellow is the percentage of unemployment claimants that chose to apply through and became certified using the UIA’s web account manager system. This system is referred to as the Michigan Web Account Manager (MiWAM). The difference in percentage for each month represents those that chose to apply through and became certified using the interactive network telephone system (MARVIN) or other methods. The Agency and Department will continue to improve upon and promote the use of MiWAM.
