

The Education Entity Master and Points of Pride: How to edit PoP fields for buildings in your district

PoP Overview

PoP are re-developed metrics being used for the Parent Dashboard. Eighteen new PoP fields will display on the Parent Dashboard – thirteen of which will be collected in the EEM. The purpose of PoP is to showcase the programs and activities that make each school in your district great. PoP data is not tied to a specific school year and is collected in the EEM in an on-going basis. PoP is viewable to the public in the EEM and on the Parent Dashboard year-round. PoP fields will update immediately in the EEM and three times per year on the Parent Dashboard.

What PoP are currently available in the EEM?

Although eighteen PoP fields will display on the Parent Dashboard, only thirteen of these fields will be collected in the EEM. These thirteen fields include:

1. Does your school offer a Student Mentorship program?
2. Does your school offer students access to recess?
3. What is your school's percentage of students in National Honor Society?
4. What music classes does your school offer?
5. What arts classes does your school offer?
6. What clubs are offered at your school?
7. What school-sponsored sports are offered at your school?
8. What Comprehensive Support Services does the school offer?
9. Does your school partner with other agencies to share data in support of student issues?
10. What surveys are used at your school?
11. What Early Learning and Development opportunities are offered by the district?
12. What Out-of-School Time (Before and After School Programming) Learning opportunities are offered by the district?
13. What world languages does your school offer?

Which entities have PoP?

PoP are optionally reported fields for all schools and unique education providers in LEA, PSA, State and ISD districts. Currently, PoP data is not aggregated by building to the district level. Each individual school or UEP will have its own PoP values.

When can PoP fields be edited?

PoP can be edited for any school or UEP at any time of the year. Because PoP is not school year-specific, it can be updated whenever PoP-applicable programs or resources have changed at one of your schools.

How are PoP fields edited?

Only Entity Authorized Users can edit PoP. To edit PoP for a school or UEP in your district, log in to the EEM using [MILogin for Third Party](#). Once you are in the EEM as an Entity Authorized User, please follow these steps:

1. Click "List of Entities" under the "My Entities..." drop-down menu to view a list of all schools and UEPs in your district.

Welcome to the Educational Entity Master (EEM)

The EEM application serves as the directory for identifying and linking educational entities with other data collection applications in the State of Michigan. Please note the location of the application user guide and glossary of terms located in the links at the top right of this message. These tools will help you acclimate to the various search features, reports, mapping capabilities and data sets within the EEM. If you need additional guidance for using the EEM, we suggest you go to the following URL to view resources available on the Center for Educational Performance and Information (CEPI) EEM Web page. If you have any questions about the EEM, security forms or other CEPI data collections, please contact CEPI Customer Support at 517-335-0505 x3 or CEPI@michigan.gov. [EEM Web Page](#)

2. Click on the name of an entity to open its page

Entity Name	Entity Code	Type	Status	Action
Everett High School	01166	LEA School	Open-Active	<input type="button" value="Close"/>
