**INCOME, INCOME TAX, AND PROPERTY TAX CREDIT DATA  
BY SCHOOL DISTRICT  
1995**

This report presents data from 1995 Michigan income tax returns tabulated by school district. This tabulation is based on school district codes entered by taxpayers on individual income tax returns.

Table 1 combines the information in Tables 2 and 3 to provide summary statistics on income, income tax, and property tax credits. These summary statistics include average AGI, average tax paid both before and after credits, the ratio of property tax credits claimed (including farmland preservation credits) to income tax returns filed, and average property tax credit and average homestead property tax credit (excluding farmland credits) for those receiving these credits.

The basic income tax data are reported in Table 2, "1995 Income and Net Tax Paid by School District," and Table 3, "1995 Property Tax Credits by School District." Table 2 includes federal adjusted gross income (AGI), Michigan taxable income, after adjustments and minus personal exemptions), household income used for property tax credit computations, and net tax paid. Table 3 includes the several categories of property tax credits for each school district, the total number of income tax returns filed in the district, and the total amount of property tax credits for each school district.

The statistics in this report should be interpreted with some caution. Not all income tax returns are represented in this tabulation, since 18.8 percent of total returns and 19.3 percent of property tax claims listed no school district code or a nonexistent code. These returns were excluded. In addition, some taxpayers may have mistakenly listed an incorrect school district code. For example, the Bloomfield Township District is in Oakland County, while Bloomfield District #1 and Bloomfield Township Districts #4 and #7F are in Huron County. To the extent taxpayers miscategorized themselves, the data in those districts are incorrect.

Also, the average of any fiscal variable in the study for a district tells nothing about the distribution of that variable among taxpayers within the district.

Note that in Table 1 average income tax before and after credits is calculated using the number of returns with positive taxable income, and is thus not compatible with the county averages included in the 1995 income tax report.

### **Table 1**

After each fiscal variable, the district's ranking relative to all districts for the variable is given. A ranking of 1 is given the highest average or ratio.

For example, the Alcona School District had an average AGI of \$25,555 in 1995, with a ranking of 460 out of 574 school districts. The average tax after credits was \$857. The ratio of property tax credits to income tax returns filed was 26 percent, with an average property tax credit of \$334, with a ranking of 309 among the school districts. The average homestead property tax credit, excluding farmland credits, was \$328, ranking 279.

### **Table 2**

In the Alcona District, for example, 2,467 returns had AGI totaling \$63.0 million; 1,948 returns had taxable income (after adjustments and exemptions) totaling \$39.3 million; and 666 returns reported household income (used in computing homestead property tax credits) totaling \$10.9 million. The total net income tax paid after all credits was \$1,669,208.

### **Table 3**

In the Alcona District, for example, 230 returns filed by general taxpayers (i.e., taxpayers who are not senior citizens or disabled) claimed homestead property tax credits totaling \$54,749; 358 returns filed by senior citizens claimed homestead credits totaling \$145,107; 40 returns filed by eligible veterans and blind persons claimed homestead credits totaling \$3,044; 16 returns filed by paraplegics, quadriplegics, hemiplegics and totally and permanently disabled persons claimed homestead credits totaling \$4,408; and 1 Farmland Preservation Act (PA 116 of 1974) credit was claimed totaling \$4,005. Overall in the Alcona District, 2,575 income tax returns were filed, and property tax credits totaled \$215,323. To determine the total number of property tax credits claimed, it is necessary to add up the number of each type of credit; 645 for the Alcona schools. This method will double count persons who claim both a homestead property tax credit and a farmland credit.

If there are any questions or comments on this statistical information or its interpretation, please call Howard Heideman, Director for Tax Policy Analysis, Office of Revenue and Tax Analysis, Department of Treasury, (517) 373-2697.
