

Auditing Procedures Report

Issued under Public Act 2 of 1968, as amended .

Unit Name	County	Type	MuniCode
Opinion Date	Audit Submitted	Fiscal Year	

If a local unit of government (authorities & commissions included) is operating within the boundaries of the audited entity and is NOT included in this or any other audit report, nor do they obtain a stand-alone audit, enclose the name(s), address(es), and a description(s) of the authority and/or commission.

Place a check next to each "Yes" or non-applicable question below. Questions left unmarked should be those you wish to answer "No".

<input type="checkbox"/>	1. Are all required component units/funds/agencies of the local unit included in the financial statements and/or disclosed in the reporting entity notes to the financial statements?
<input type="checkbox"/>	2. Does the local unit have a positive fund balance in all of its unreserved fund balances/unrestricted net assets?
<input type="checkbox"/>	3. Were the local unit's actual expenditures within the amounts authorized in the budget?
<input type="checkbox"/>	4. Is this unit in compliance with the Uniform Chart of Accounts issued by the Department of Treasury?
<input type="checkbox"/>	5. Did the local unit adopt a budget for all required funds?
<input type="checkbox"/>	6. Was a public hearing on the budget held in accordance with State statute?
<input type="checkbox"/>	7. Is the local unit in compliance with the Revised Municipal Finance Act, an order issued under the Emergency Municipal Loan Act, and other guidance as issued by the Local Audit and Finance Division?
<input type="checkbox"/>	8. Has the local unit distributed tax revenues, that were collected for another taxing unit, timely as required by the general property tax act?
<input type="checkbox"/>	9. Do all deposits/investments comply with statutory requirements including the adoption of an investment policy?
<input type="checkbox"/>	10. Is the local unit free of illegal or unauthorized expenditures that came to your attention as defined in the Bulletin for Audits of Local Units of Government in Michigan, as revised (see Appendix H of Bulletin.)
<input type="checkbox"/>	11. Is the unit free of any indications of fraud or illegal acts that came to your attention during the course of audit that have not been previously communicated to the Local Audit and Finance Division? (If there is such activity, please submit a separate report under separate cover.)
<input type="checkbox"/>	12. Is the local unit free of repeated reported deficiencies from previous years?
<input type="checkbox"/>	13. Is the audit opinion unqualified? 14. If not, what type of opinion is it? <input type="text"/>
<input type="checkbox"/>	15. Has the local unit complied with GASB 34 and other generally accepted accounting principles (GAAP)?
<input type="checkbox"/>	16. Has the board or council approved all disbursements prior to payment as required by charter or statute?
<input type="checkbox"/>	17. To your knowledge, were the bank reconciliations that were reviewed performed timely?
<input type="checkbox"/>	18. Are there reported deficiencies? <input type="checkbox"/> 19. If so, was it attached to the audit report?

INTRODUCTORY SECTION

OFFICE OF THE CITY MANAGER

241 W. South Street
Kalamazoo, MI 49007-4796
Phone: (269) 337-8047
Fax: (269) 337-8182
www.kalamazoo.org

June 30, 2008

To the Honorable Mayor, City Commission, and Citizens of the City of Kalamazoo:

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill the City of Kalamazoo's requirement for the fiscal year ended December 31, 2007.

This financial report consists of management's representations concerning the finances of the City of Kalamazoo. Therefore, management assumes full responsibility for the completeness and reliability of the information contained in this report. To provide a reasonable basis for making these representations, City management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Kalamazoo's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material aspects.

Rehmann Robson, Certified Public Accounts, have issued an unqualified opinion on the City of Kalamazoo's financial statements for the year ended December 31, 2007. The independent auditor's report is located at the front of the financial sections of this report.

The independent audit of the financial statements of the City was part of a broader, federally-mandated "Single Audit" in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the separately issued City's Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Kalamazoo, incorporated in 1884, is located between Chicago and Detroit in the southwest corner of Michigan and encompasses an area of approximately 26 square miles. The current population of the City is approximately 77,145. The City, also the county seat, is home to Western Michigan University, a state-designated Research I university, as well as Kalamazoo College, a private liberal arts college, and Kalamazoo Valley Community College. As a municipality of the State of Michigan, the City of Kalamazoo is empowered to levy a property tax on both real and personal property located within its boundaries.

The City of Kalamazoo has operated under the commission-manager form of government since 1918. As required by the City Charter, the seven member commission is elected at-large on a non-partisan basis to serve two-year terms of office. Policymaking and legislative authority are vested in an elected commission consisting of seven members, all serving part-time. The Commission member, who receives the highest number of votes becomes the Mayor, serves as the executive head of the Commission. The Commission member receiving the second highest number of votes becomes the Vice Mayor and performs the duties of the Mayor in his or her absence. The City Manager is the Chief Administrative Office of the City and is appointed by the Commission to serve at its pleasure. With the exception of the City's Assessor, Attorney, Clerk and Internal Auditor who are also appointed by the Commission, the City Manager is responsible for administering the policies and ordinances of the City Commission, for appointing the department heads of the City's various departments and overseeing day-to-day operations of the City.

City Services

The City of Kalamazoo provides a full range of traditional government services, including police and fire protection; economic and community development activities; recreational and cultural activities and the construction and maintenance of streets and other infrastructure. Unique for a City of its size, the City operates its police and fire services under the public safety concept, in which members of the department are cross-trained to perform both police and fire services. In addition, the City of Kalamazoo operates water and wastewater systems. Both systems are regional in character, serving a large portion of the county outside of the City of Kalamazoo's corporate limits, and both are financially self-supporting. Both Utilities have significant excess capacity compared to current usage.

The City has three tax-increment-financed districts within its boundaries: a Downtown Development Authority for its downtown area, a Brownfield Redevelopment Authority to redevelop blighted properties within its boundaries, and a Local Development Financing Authority for a business and technology research park. A tax-increment financing ("TIF") district captures incremental increases in property tax revenues and reinvests them within that district. In addition to these TIF districts, a portion of the City has been designated as a Renaissance Zone by the State of Michigan, which allows residents and businesses within that zone to enjoy exemption from property taxes and certain state taxes. These districts are discretely presented component units of the City.

Citizens are also served by the City's Metro Transit System, a discretely presented component unit of the City of Kalamazoo, which provides mass-transportation services throughout the City, including Western Michigan University, and into outlying areas.

In addition, the City of Kalamazoo has four other legally separate component units, the Economic Development Corporation, Hospital Finance Authority, Kalamazoo Municipal Golf Association and the Kalamazoo Building Authority, entities for which the government is considered to be financially accountable. Additional information on all seven of these legally separate entities can be found in the notes to the financial statements.

Budgeting Control

The annual budget serves as the foundation for the City of Kalamazoo's financial planning and control. The City Charter requires that the City Manager submit to the City Commission an estimate of revenues and contemplated expenditures for the following fiscal year by December 1. An interim appropriation resolution is passed by January 1 to continue normal operations and by February 1 of each year the City Commission passes an annual appropriation resolution approving the estimated expenditures. The budget is adopted at the departmental level; Department heads may transfer resources within a department as they see fit. Transfers between departments, however, need special approval from the commission. Legislative actions by the City Commission to issue bonds, accept grants and authorize special assessment projects are considered authority to expend funds for those purposes. Unexpended capital project appropriations automatically carry forward to the next fiscal year. All other appropriations lapse at year-end, except for those specifically approved to be carried forward by the City Commission.

The City Commission adopts budgets for the General Fund and all special revenue funds, as required by Michigan statute. The Commission also adopts budgets for capital projects, enterprise funds, and the administrative portion of the pension fund, although not required by the State of Michigan.

The budget has been approved in accordance with GAAP for all governmental funds with the exception of property taxes, as the State of Michigan property tax calendar (which begins July 1) differs from the City's fiscal year (which begins January 1). The City Charter allows property taxpayers to pay their taxes in twelve (12) monthly installments. Property taxes are budgeted in the year levied, even though they are not fully available to finance operations in the current year. Because GAAP requires the recognition of only those property tax collections made during the fiscal year with a sixty-day accrual period, the City prepares dual statements for its General and Solid Waste funds, one in conformity with GAAP, and one on a "Non-GAAP, budgetary basis". Further discussion on this difference and its implication is provided in the Management's Discussion and Analysis and the note disclosures.

Cash Management Policies and Practices

The City's investments, managed by the City Treasurer, are guided by an investment policy adopted by the City Commission in compliance with statutory requirements for municipal investments. Due to their long-term nature, funds for the City's pension fund and Cemetery Perpetual Care fund maintain separate investment portfolios, as allowed by State law, and are managed by an Investment Committee appointed by the City Commission.

Risk Management

The City is predominantly self-insured for general liability, workers' compensation, life and health insurance. The City's policy is to recognize the cost of these claims at the time the liability is incurred in the Insurance and Benefits Fund. The estimated uninsured claim liability (both reported and incurred but not reported) has been recorded as a liability in the Insurance and Benefits Fund. Additional information on risk management can be found in the note disclosures.

Pension and Other Post-employment Benefits

The City sponsors a single-employer defined benefit pension plan for its employees. A five-member Board of Trustees is empowered to administer the system. A six-member Investment Committee appointed by the City Commission is responsible for the investment of the system's assets.

As of December 31, 2007, the City of Kalamazoo Employee Retirement System had 1,550 members. Each year, an independent actuary calculates the amount of the annual contribution that the City must make to ensure that the plan will be able to fully meet its obligations to retirees and beneficiaries on a timely basis. Due to the Plan's over-funded status, no contribution was required of the City for fiscal year 2007. The funded status, defined as the percentage of actuarial assets to actuarial liabilities, increased from 148.4% in 2006 to 153.0% as of December 31, 2007, due to favorable asset experience.

The City also provides post-employment health care benefits for certain retirees and their beneficiaries. These benefits are financed on a pay-as-you go basis. Current GAAP does not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits. Additional information on the City's pension arrangements and post-employment benefits can be found in the notes to the financial statements.

SEC Disclosure under Rule 15c2-12

Securities and Exchange Commission (SEC) Rule 15c2-12 requires that issuers of municipal securities undertake to provide certain annual financial information to various information repositories. In recognition that a CAFR is an appropriate disclosure document for providing information useful to existing and potential investors in the secondary market, and in order to meet our obligation to provide periodic disclosure for the secondary market, as required by Rule 15c2-12, the City of Kalamazoo has elected to include in this CAFR tables providing quantitative data on those activities which require such disclosure. Those tables can be found in the statistical section of the CAFR.

Local Economy

Kalamazoo has a diverse regional economy, anchored by major employers in the pharmaceutical (Pfizer), health care product (Stryker Corp.), health services (Bronson and Borgess regional hospitals), banking (National City), and higher education (Western Michigan University, Kalamazoo College, and Kalamazoo Valley Community College) industries. Kalamazoo's workforce is as diverse as its economy, ranging from those skilled in manufacturing to research scientists. At the same time, enrollment in local universities and colleges exceeds 45,000 students, creating a base of potential employees that is highly attractive to business and industry.

A long-time cultural and commercial center for the region, Kalamazoo has made tremendous strides over the past decade to revitalize its central business district, and downtown Kalamazoo has now become a dining and entertainment hub, with much of the new activity occurring in restored historic buildings. Within the last several years, the Radisson Plaza Hotel, located in the heart of downtown, celebrated the completion of its \$33 million renovation, including a new façade, the addition of 71 rooms (including suites and long-term stay rooms), a new restaurant, and several upscale shops. Other recently completed projects include the \$4.6 million renovation of the United Electric Building; the public-private \$27 million multi-screen movie theater, parking ramp and retail/residential project at 141 East South Street; continued progress on Bronson Healthcare Group's campus master plan and several smaller projects resulting in preservation of historic structures and creation of residential loft space. The Arcadia Commons project, the new \$180 million Bronson Hospital campus, improvements to the downtown mall, the \$33 million expansion of the Kalamazoo Gazette, the \$3.3 million project to renovate 2 buildings in the downtown into new entertainment and restaurant venues and projects discussed above account for more than \$450 million in total new investment downtown over the past 10 years.

In 2005, a group of anonymous citizens interested in the economic strength and quality of life in the City of Kalamazoo made a tremendous contribution on behalf of Kalamazoo Public School System students. All students who graduate from Kalamazoo Public Schools, are residing in the district, and have been students four years or more will be given funding for college tuition and mandatory fees. The amount of available dollars depends on years of residency and the number of grades attended in KPS, up to 100% of tuition and mandatory fees. The funds will be available to use at any public university or community college in the State of Michigan. The scholarships that now await graduates of Kalamazoo Public Schools go a long way toward making the school-improvement goal a done deal and in the process, could launch an unprecedented boon to business and economic development.

The City has completed plans for redevelopment along the Kalamazoo River on the eastern edge of downtown using \$2.9 million in state grant money for land acquisition and site preparation work leading to higher and better land uses, such as townhouses, unique commercial venues, and public amenities designed to draw people to the waterfront.

Western Michigan University's \$72.5 million College of Engineering opened its doors in 2003, and the adjoining Business, Technology and Research Park (BTR) saw new investment from life science, advanced engineering, and high technology companies. In its first five years of existence, 33 private-sector businesses have been attracted to the BTR Park: 18 life-science companies, 7 advanced engineering firms and 1 information technology company. Currently, 20 these businesses have laboratory and office space in the Southwest Michigan Innovation Center (SMIC). In addition, 103 acres of the 137-acre BTR site have been developed, are under construction, or are under option.

Pfizer, the area's largest employer, has announced plans to consolidate approximately 450 staff from the region and also from Sandwich, England, to its research facilities in the City and company officials. In addition, approximately \$50 million in new investment in same building is planned to accommodate this growth.

Pfizer, MPI Research, and the City have announced plans for a plan which would result in the second of Pfizer's downtown buildings being deeded to the City of Kalamazoo, which will in turn lease the facility to MPI Research. MPI will then locate more than 400 employees in this facility. Another 2,900 employees are planned to be added in MPI's Mattawan facility, which is located approximately 15 miles west of Kalamazoo, with a total investment over the next 5 years of over \$330 million in the region.

The City continues to make progress in the area of affordable housing. The City also developed a 10-point affordable housing strategy used as the foundation for a countywide initiative.

The City of Kalamazoo initiated the creation of the countywide transit authority, which marks the first efforts to improving the transportation system throughout the County. Additionally, we completed \$13 million of facility renovations in August of 2006 to rehabilitate the historical Intermodal Transportation Center (bus/train station) and construct new transfer station for Metro Transit and inter-city buses.

Long-term financial planning

The City of Kalamazoo believes long-term financial planning has been and will continue to be a vital component to ensure the City's fiscal health. The City Commission identified six strategic focus areas which focus on: Economic Vitality, Neighborhood Development, Environmental Stewardship, Community Building, Responsive and Responsible Government, and Fiscal Stewardship.

Fiscal year 2008 is expected to be another difficult year as state-shared revenues and other revenues continue to lag behind expenditures. This situation is not unique to our community. A number of Michigan cities – especially those in urban centers – have been reducing government services in recent years.

The City's tax growth is limited by Proposal A, which caps growth in taxable value. This capping tax base growth has a negative affect on most communities in Michigan, but is a particular hardship for central city communities like Kalamazoo due to the built out nature of our community. Combined with a slow-growing economy, Proposal A hinders the ability of local government to address new service needs in the community without impacting basic municipal services.

In 2006, the City developed a five-year Fiscal Plan (The Plan) utilizing a methodology designed to identify and embrace new realities, strategies, and opportunities. The Plan embodies achievement of balanced annual budgets, establishment and maintenance of strategic prudent reserve funds, responsible reinvestment in capital infrastructure, and efficient use of resources. Expenditures will be primarily reduced through comprehensive analysis for cost containment, establishment of reserves and use of alternative funding sources, and non-head count efficiency improvements. Revenue will be increased through new or alternative funding.

Awards and Acknowledgements

The Government Finance Officer's Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Kalamazoo for its comprehensive annual financial report for the fiscal year ended December 31, 2006. This was the twelfth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, a government had to publish an easily readable and efficiently organized comprehensive annual finance report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current report continues to meet the Certificate of Achievement Program's requirements and we are submitting in to the GFOA to determine its eligibility for another certificate.

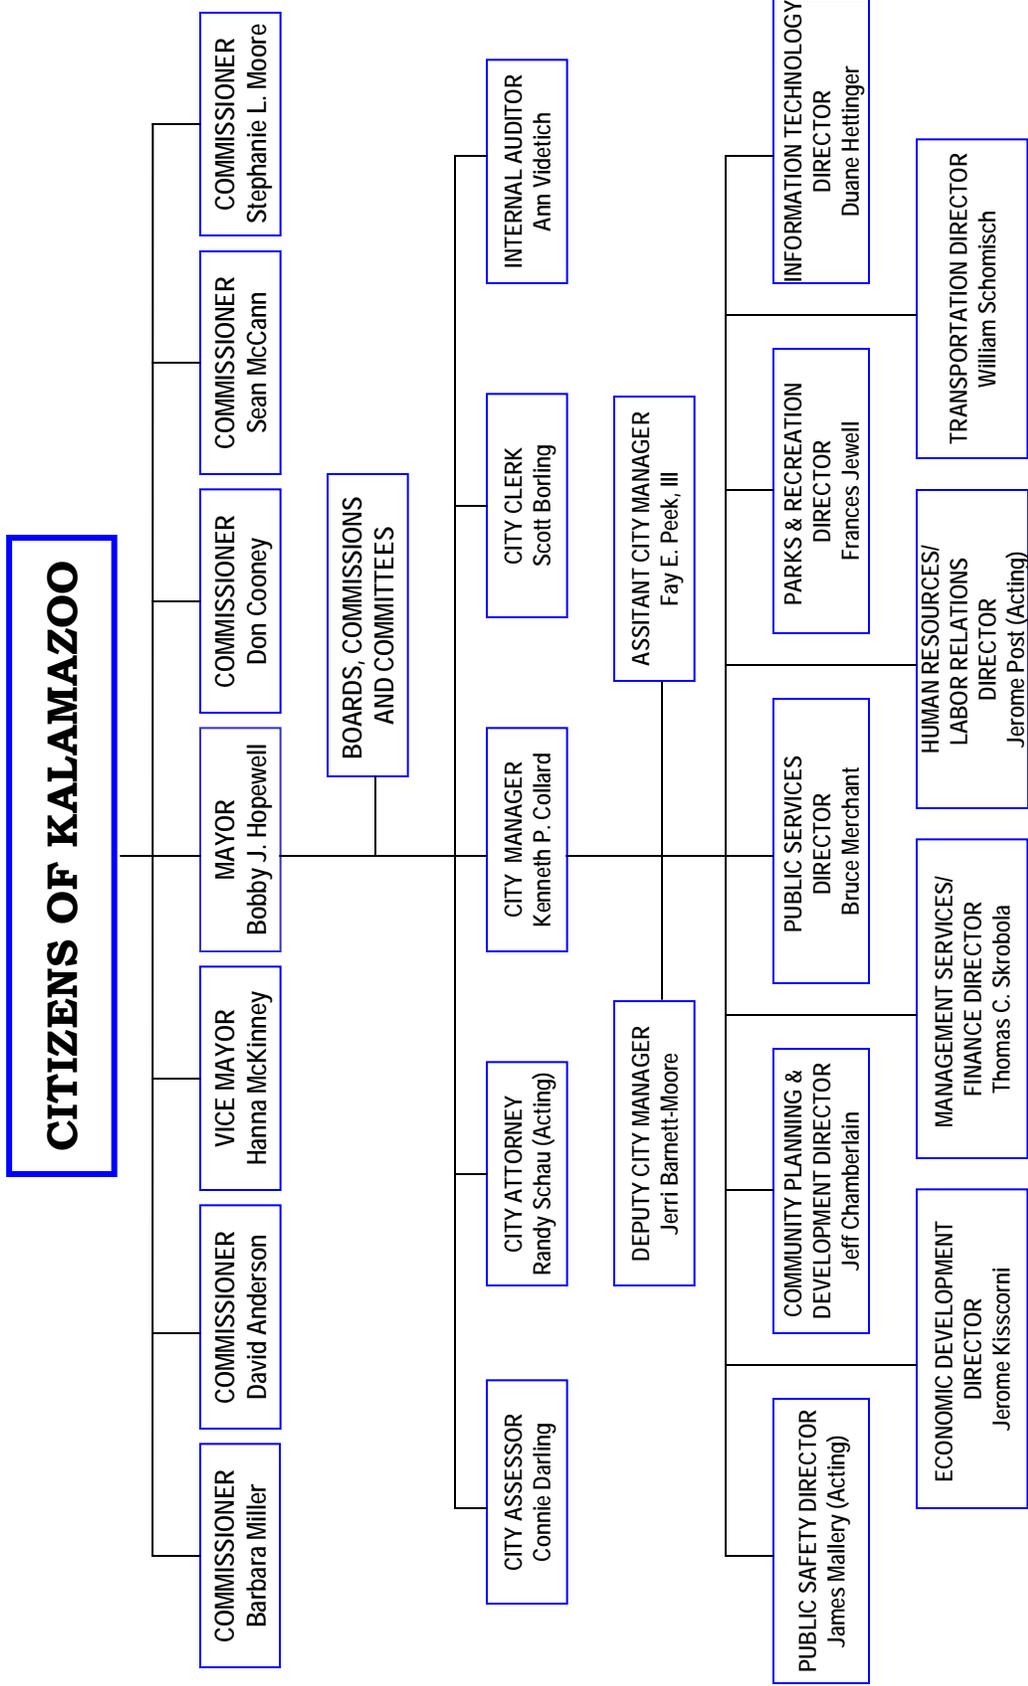

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the City of Kalamazoo. We want to thank all involved in the financial monitoring and reporting of City activities, especially the Budget & Accounting Division and specifically Ms. Pasty Moore, Deputy CFO and Interim Budget & Accounting Manager. Credit also must be given to the mayor and the governing commission for their unfailing support to maintaining the highest standards of professionalism in the management of the City of Kalamazoo's finances.

Respectfully submitted,

Kenneth P. Collard
City Manager

INDEPENDENT AUDITORS' REPORT

June 30, 2008

Honorable Mayor and
Members of the City Commission
City of Kalamazoo, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the *City of Kalamazoo, Michigan*, as of and for the year ended December 31, 2007, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Kalamazoo's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Downtown Development Authority and the Kalamazoo Municipal Golf Association, which represent 12.1% and 3.4% of the assets and 29.4% and 5.2% of the revenues of the aggregate discretely presented component units, respectively. Those financial statements were audited by other auditors whose reports were furnished to us, and our opinion, insofar as it relates to the amounts included for the Downtown Development Authority and the Kalamazoo Municipal Golf Association, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Kalamazoo Municipal Golf Association were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Kalamazoo, Michigan, as of December 31, 2007, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparisons for the General Fund and major special revenue funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2008, on our consideration of the City of Kalamazoo, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters, in a separately issued single audit report. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3-19 and the historical pension supplementary information for the Employees Retirement System listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit this information and do not express opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City of Kalamazoo's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink, appearing to read "Lehmann Johnson". The signature is written in a cursive, flowing style.

MANAGEMENT'S DISCUSSION and ANALYSIS

Management's Discussion and Analysis

As management of the City of Kalamazoo, Michigan, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2007. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-v of this report.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$336,032,290 (*net assets*). Of this amount, \$26,897,584 (*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$2,528,945 or 0.76%. This net increase was a combination of a \$4.28 million increase in governmental activities net assets and a \$1.74 million decrease in business-type activity net assets.
- The City's balance of bonded debt stayed level, increasing by \$255,000 during the current fiscal year. The City added \$6.6 million in bonded debt, including one General Obligation debt bond for \$855,000, and two revenue bonds: one Michigan Transportation Fund bond (\$3.86 million) and one Water System Supply Revenue bond (\$1.9 million). The City made scheduled bond payments totaling slightly more than \$6.6 million.
- As of the close of the current fiscal year, the City's *governmental funds* reported combined ending fund balances of \$28,987,494, a decrease of \$1,109,328 in comparison of the prior year. Approximately 53% of the combined fund balances, or \$15,378,650, was available for spending at the government's discretion ("*unreserved fund balance*"). However of that amount, \$10,761,021 was attributable to special revenue funds, debt service funds, capital projects funds and permanent funds. Fund balances in those funds must be used for their intended purposes.
- The General Fund *non-GAAP, budgetary* (see explanation under the General Fund financial analysis) unreserved, undesignated fund balance for the general fund was \$7,918,759, or 14.9% of total general fund revenues and other financing sources. For the purpose of the City's policy, amounts designated as budgeted for use in the next year, (\$1,238,283 for 2008) is added to the unreserved, undesignated fund balance, resulting in a fund balance of \$9,157,042, or 17.22%. The General Fund *GAAP* unreserved, undesignated fund balance for the general fund was \$2,186,752 or 4.1% of total general fund revenues and other financing sources.
- Combined business-type activities net assets decreased \$1,748,684 in 2007. This included \$2.4 million increase to net assets in the Water Fund, due mainly to \$3.9 million capital contributions received (revenues for extensions and system improvements from an outside party), and a \$4.1 million operating loss in the Wastewater fund.

Management's Discussion and Analysis

Overview and Analysis of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Kalamazoo's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation and sick leave)

Both the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, highways and streets, parks and recreation, economic development and community development. The business-type activities of the City include wastewater, water and other enterprise operations.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also legally separate entities for which the City is financially accountable. Financial information for these *component units* are reported separately from the financial information presented for the primary government itself. The Building Authority, although also legally separate, functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 20-21 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, use fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Management's Discussion and Analysis

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains twenty (20) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the City's general funds; solid waste, neighborhood and community development special revenue funds; and the Building authority debt service fund. Data from the other sixteen (16) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison statements have been provided herein to demonstrate compliance with those budgets.

The basic governmental fund financial statements can be found on pages 22-29 of this report.

Proprietary funds. The City maintains two different types of proprietary funds, *enterprise funds* and *internal service funds*. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its wastewater, water, and farmer's market. *Internal service funds* are an accounting device used to accumulate and allocate cost internally among the City's various functions. The City uses internal service funds to account for its equipment maintenance, self-insurance, engineering services, city-wide maintenance, and printing/mail services. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the wastewater and water systems, which are considered to be major funds of the City. Conversely, all of the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Management's Discussion and Analysis

The basic proprietary fund financial statements can be found on pages 30-35 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found of pages 36-37 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 40-74 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This is limited to a schedule concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 75 of this report.

The combining statements referred to earlier in connection with non major funds are presented immediately following the required supplementary information. Combining and individual fund financial statements and schedules can be found on pages 76-121 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Kalamazoo, assets exceeded liabilities by \$336,032,290 at the close of the most recent fiscal year.

By far the largest portion of the City's net assets, \$267,862,241 or 79.7 percent, reflects its investment in capital assets (e.g. land, land improvements, buildings, equipment, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets, \$41,272,465 or 12.3 percent, represents resources that are subject to external restrictions on how they may be used. Restricted net assets include amounts set aside for endowments, debt service, debt-financed projects, long-term advances, and externally mandated commitments. The remaining balance of *unreserved net assets*, \$26,897,584 or 8.0 percent may be used to meet the government's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

City of Kalamazoo's Net Assets

	Governmental activities		Business-type activities		Total	
	2007	2006	2007	2006	2007	2006
Current and other assets	\$ 66,511,816	\$ 65,112,763	\$ 24,533,338	\$ 30,470,223	\$ 91,045,154	\$ 95,582,986

Governmental activities. Governmental activities increased the City's net assets \$4.2 million. Key elements of this increase are as follows:

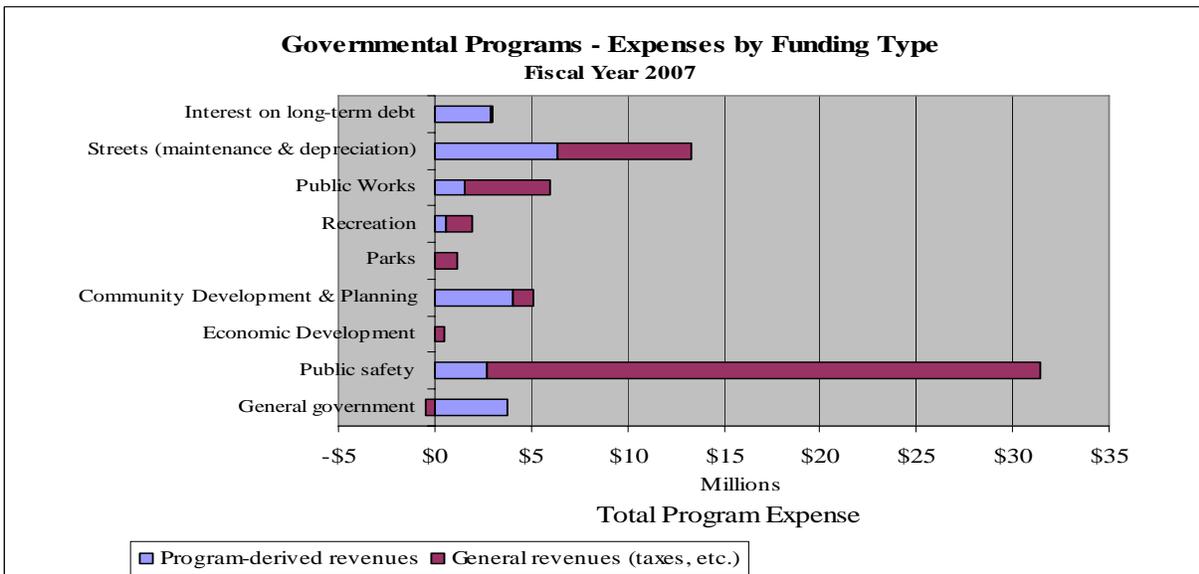

- Property taxes increased by \$799,576 or 2.5%, on a non-GAAP, budgetary basis from 2006, primarily as a result of personal property tax audits resulting in increased collections.
- Operating grants and contributions increased by \$2,246,112, primarily as a result of support for major capital projects by the State and other local governments.

Management's Discussion and Analysis

While some revenue for governmental activities is derived from charges specific to programs, the majority of programs are generally subsidized by tax revenues and/or by intergovernmental aid. In total, for fiscal year 2007, 69% of governmental program expenses were funded by a combination of property taxes, revenue sharing from the State of Michigan, unrestricted grants and contributions, interest earnings, and reserves as depicted on the following chart.

The following chart depicts the total expenses for each governmental program for the City of Kalamazoo and the degree to which they are self-supporting and/or subsidized.

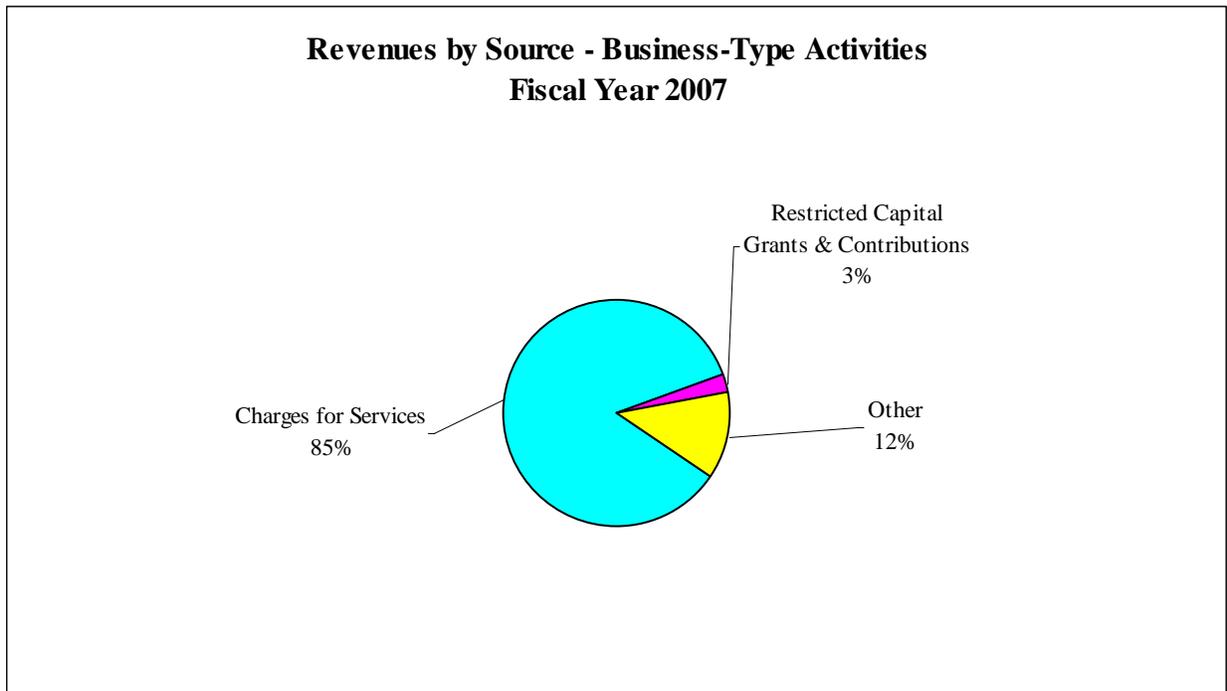

Management's Discussion and Analysis

Business-type activities. Business-type activities decreased the City's net assets by \$1.74 million. The key elements of this decrease are as follows:

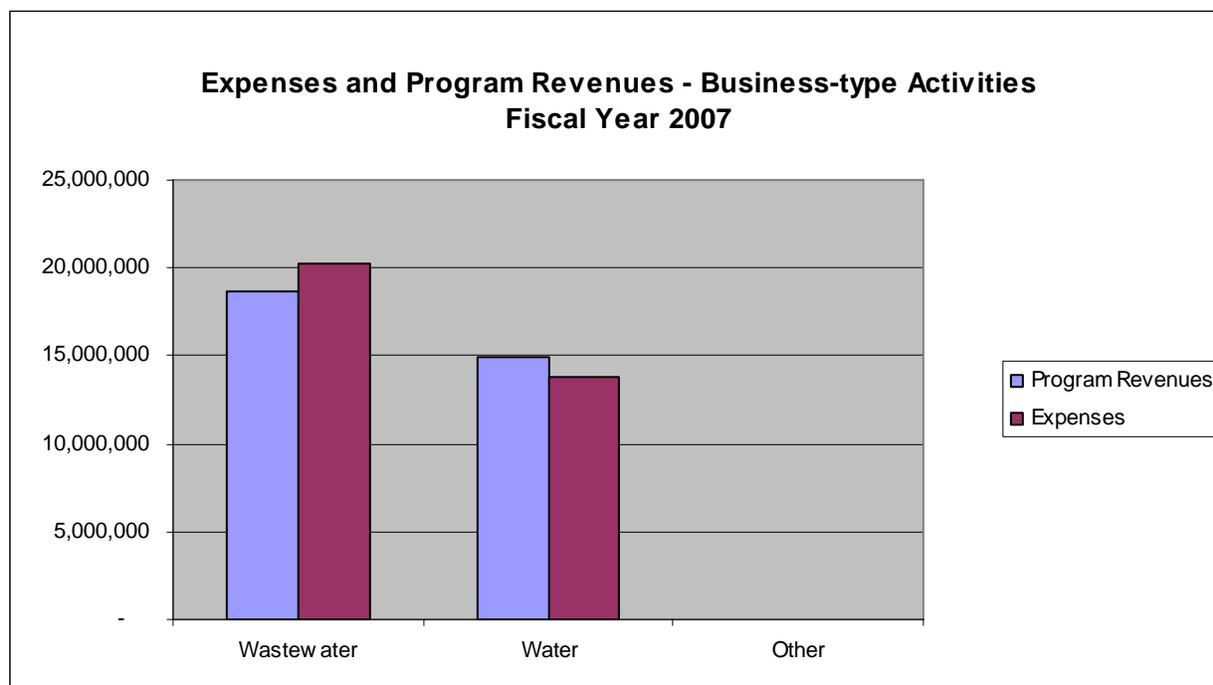

- There was a major decrease in operating revenue of \$2.06 million for the Wastewater System. This was primarily driven by drop in industrial production by Pfizer, Inc.'s Portage facility.
- Inflationary increases in expenditures.
- Capital contributions represented a major revenue source for the Water fund during the current fiscal year, producing \$3.9 million in revenue.

In contrast to governmental activities, business-type activities are funded through user fees and charges. Business-type activities of the City include wastewater, water, and a farmer's market. In 2007, 85% of business-type activity revenues were derived from charges for services, 3% were funded through capital grants and contributions, with the remaining 12% attributable to other revenue sources, as depicted in the following chart:

Management's Discussion and Analysis

The following chart depicts the total expenses for each business-type activity for the City of Kalamazoo and the degree to which they are self-supporting and/or subsidized.

Financial Analysis of the Government's Funds.

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the close of the current fiscal year, the City's *governmental funds* reported combined ending fund balances of \$28,987,494, a decrease of \$1,109,328 in comparison of the prior year. Approximately 53% of the combined fund balances, or \$15,378,650, was available for spending at the government's discretion ("*unreserved fund balance*"). However of that amount, \$10,761,021 was attributable to special revenue funds, debt service funds, capital projects funds and permanent funds. Fund balances in those funds must be used for their intended purposes.

The remainder of fund balance is *reserved or designated* to indicate that it is not available for new spending because it has already been committed 1) for encumbrances, inventories, and prepaid expenditures, 2) for advances to other funds and component units, 3) to generate income to pay for the municipal cemetery and future recreation programs, and 4) designated for use for next year's expenditures.

Management's Discussion and Analysis

General Fund. The general fund is the chief operating fund of the City of Kalamazoo. Because of the City's property tax installment payment option provided for in the City charter, some property tax collections, \$5,732,007 for 2007, are collected after the time period allowed for revenue recognition by Generally Accepted Accounting Principals (GAAP). As a result the City reports two fund balances in the fund financial statements, a "GAAP" fund balance and a "non-GAAP, budgetary basis" fund balance.

The General Fund *non-GAAP, budgetary* (see explanation under the General Fund financial analysis) unreserved, undesignated fund balance for the general fund was \$7,918,759, or 14.9% of total general fund revenues and other financing sources. For the purpose of the City's policy, amounts designated as budgeted for use in the next year, \$1,238,283 for 2008 is added to the unreserved, undesignated fund balance, resulting in a fund balance of \$9,157,042, or 17.22%.

The *GAAP* unreserved, undesignated fund balance for the general fund was \$2,186,752 or 4.1% of total general fund revenues and other financing sources. This was a \$584,553 decrease from 2006 and resulted from a combination of a planned decrease in the non-GAAP, budgetary fund balance; a \$148 thousand increase in property tax deferrals, which results in less property tax revenues being recognized; and a \$2.4 million designation of fund balance for operational uses in 2008.

The fund experienced a \$716,183 *non-GAAP, budgetary* fund balance decrease during 2007. However, the change actually reflected a favorable variance of \$2,685,397, since fund balance was budgeted to decrease by \$3.4 million in 2007.

Revenues and other financing sources came in \$688,196 more than the amended budget. Expenditures and other financing uses were \$1,977,201 below budget, resulting in the favorable variance. However, \$2,430,877 of the positive expenditure and other financing source variance is being carried forward for spending in 2008 (recorded as designations of fund balance on the balance sheet). The General fund experienced an overall positive variance of \$2,685,397 between final amended budgeted expenditures and actual final results on a *non-GAAP budgetary basis*.

Solid Waste Special Revenue Fund. The Solid Waste fund is used to account for funds provided by a special tax millage for the collection and removal of solid waste.

Like the General Fund, the Solid Waste fund balance is reported using two bases: the non-GAAP, budgetary basis and the GAAP basis. The fund's *non-GAAP, budgetary* unreserved, undesignated fund balance increased \$173,538 during the course of 2007 to \$1,568,861. The GAAP basis unreserved, undesignated fund balance is \$1,085,930 (the entire fund balance is being carried forward for use in 2008).

Neighborhood and Community Development Special Revenue Fund. This fund is used to account for a variety of federal award programs, most notably the City's Community Development Block, HOME, and Emergency Shelter Grants.

Management's Discussion and Analysis

During 2007, the fund balance increased from \$765,587 to \$844,489, which was mainly due to the change in classification of current properties held for resale.

Building Authority Debt Service Fund. This debt service fund is used to account for the debt service activity of the Kalamazoo Building Authority, a blended component unit. Resources consist of the collection of lease payments by the Downtown Development Authority, as well as transfers from other funds for Building Authority-related debt repayment. While this fund generally operates on a cash-in, cash-out basis, it is designated as a major fund because of the relative size of assets and liabilities as compared to other funds.

During the year, the fund balance decreased from \$89,319 to \$46,450. The fund balance is comprised of accumulated interest earnings and bond proceeds, which will be used to offset debt service payments in 2008.

Other (Non-major) Governmental Funds. During the year, the combined fund balance for the City's non-major governmental funds decreased from \$22,193,030 to \$21,719,950. The majority of the \$21.7 million fund balance was attributable to capital improvement projects funds (\$6.9 million), special revenue funds used for major and local streets (\$3.5 million), economic activities (\$3.7 million), and endowments held for the mayors riverfront park, recreational and cemetery perpetual care purposes (\$6.5 million). Because resources for these funds are, for the most part, restricted to specific purposes, their fund balances are not available for general government use.

Proprietary Funds. The City's proprietary funds provide the same type of information found in the government wide financial statements, but in more detail.

Wastewater Fund. *Unrestricted* net assets (the amount available for future spending) of the City's Wastewater fund amounted to \$4,031,600 as of December 31, 2007. The fund had a decrease in total net assets for the year of \$4,094,928.

Contributing to the decrease in total net assets was an operating loss of \$4,113,112. The operating loss realized was greater than anticipated, however operational savings helped to offset the loss.

Overall revenues decreased by \$2.15 million. The industrial contract surcharge revenue decreased by \$883 thousand as a result of operational changes of some of our major users. Additionally, there was a combined revenue decrease of \$1.12 million from the various other customers.

The City has a financial policy, which targets minimum levels for certain reserves in the Wastewater Fund. The Operating Reserve (working capital) should be at least 90 days of budgeted operation & maintenance expense; the Emergency Capital Reserve should be at least equal to the prior year's depreciation expense; and the Environmental Clean-Up Reserve should be equal to the estimated present value cost of known, quantifiable and probable clean-up liabilities. As of December 31, 2007, the balances in these reserves were at or above the minimum levels.

Management's Discussion and Analysis

Water Fund. *Unrestricted* net assets (the amount available for future spending) of the City's Water fund amounted to \$3,488,639 as of December 31, 2007. The fund had an increase in total net assets for the year of \$2,421,701 and a decrease in unrestricted net assets of \$2,177,150.

The increase in net assets is primarily attributable to \$3.9 million of capital contributions (revenues received for extensions and improvements to the water distribution system that are paid for by an outside party, such as a homeowner or developer) received in 2007. Because that amount was used to purchase capital assets, it increased the amount of net assets reported as *Invested in capital assets, net of related debt*, thereby resulting in an increase by that amount in *unrestricted net assets*.

The Water Fund experienced an operating loss of \$913,516, due to inflationary increases in expenses.

The City has a financial policy, which targets minimum levels for certain reserves in the Water Fund. The Operating Reserve (working capital) should be at least 90 days of budgeted operation & maintenance expense. As of December 31, 2007, the Operating Reserves were at or above the minimum levels. The Emergency Capital Reserve is required to be at least equal to the prior year's depreciation expense. As of December 31, 2007, the balance was at the prior year's depreciation expense.

Other Enterprise Funds. During the year, the combined net assets for the City's non-major proprietary funds increased \$1,823 to \$134,799. The City Market (farmers' market) Fund represents the entire net asset balance, the unrestricted portion (not invested in fixed assets) being \$48,331.

General Fund Budgetary Highlights

During the year, there was a \$2,062,034 increase in appropriations between the original and final amended general fund budget adopted by the City Commission. Following are the main components of the increase:

- Unspent budget appropriations in the amount of \$1,061,034 from 2006 under the City's budgetary policies were re-appropriated in 2007.
- Various operating budget appropriations of \$841,132.

There was one revenue object that had a significant negative variance from the amended budget. In Intergovernmental Revenues, the City received less than anticipated revenues because a continued slowdown in the Michigan economy caused fewer state sales tax receipts. This resulted in a lower amount of shared revenue received by the City from the State of Michigan.

Management's Discussion and Analysis

There are two general expenditure activities that had significant negative variances of actual expenditures vs. the amended budget. The first was in Public Works Forestry, where a \$55,138 negative variance was caused by several late summer storms that caused major tree damage. The Public Works organization as a whole finished under budget by \$25,108. The second instance was in Non-Departmental Street Lighting, where \$988,071 of expenditures did not have an offsetting budget amount. A decision was made to break out Street Lighting from "Other" during the fiscal period. The Non-Departmental organization as a whole was under budget by \$515,913.

Capital Asset and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of December 31, 2007, totaled \$352.8 million (net of accumulated depreciation). This investment in capital assets includes land; land improvements; buildings; water, wastewater, and storm sewer systems; vehicles and equipment; park facilities; roads; highways; and bridges. Net capital assets for governmental activities increased \$4.17 million, or 2.5%, while net business-type activity net assets increased \$2.78 million, or 1.6%, for business-type activities.

Major capital asset events during the current fiscal year included the following:

- Construction of the Park Street Public Safety Station in the amount of \$2.58 million
- Other public safety capital purchases in the amount of \$845 thousand
- Construction, reconstruction, or widening of streets and sidewalks in the amount of \$6.09 million
- Construction or reconstruction of park improvements in the amount of \$184 thousand

Management's Discussion and Analysis

Additional information on the City's capital assets, including detailed changes from 2006, can be found in Note III C on pages 59-61 of this report.

Long-term debt. The City's balance of bonded debt stayed level, increasing by \$255,000 during the current fiscal year. The City added \$6.6 million in bonded debt, including one General Obligation debt bond for \$855,000, and two revenue bonds: one Michigan Transportation Fund bond (\$3.86 million) and one Water System Supply Revenue bond (\$1.9 million). The City made scheduled bond payments totaling slightly more than \$6.6 million.

General obligation bonds. The City issues direct obligations where the government pledges the full faith and credit of the City. These bonds are issued as serial bonds with varying amounts of principal maturing each year. The balance of outstanding general obligation bonds as of December 31, 2007 is \$48,070,000.

Revenue Bonds. The City also issues bonds where the government pledges income derived from the acquired or constructed assets to pay debt service. The balance of outstanding revenue bonds as of December 31, 2007 is \$12,480,000 for governmental activities and \$24,215,000 for business activities.

Special Assessment Debt. The City issues special assessment limited tax bonds to provide funds for certain downtown street improvement projects. The City intends to repay this debt through collections of special assessments. However, these bonds are backed by the full faith and credit of the City and, in the event that special assessment revenues are insufficient to cover debt service expenditures, the City is obligated to make up any shortfall. Management considers the likelihood of this occurring to be extremely remote. The balance of outstanding special assessment bonds as of December 31, 2007 is \$285,000.

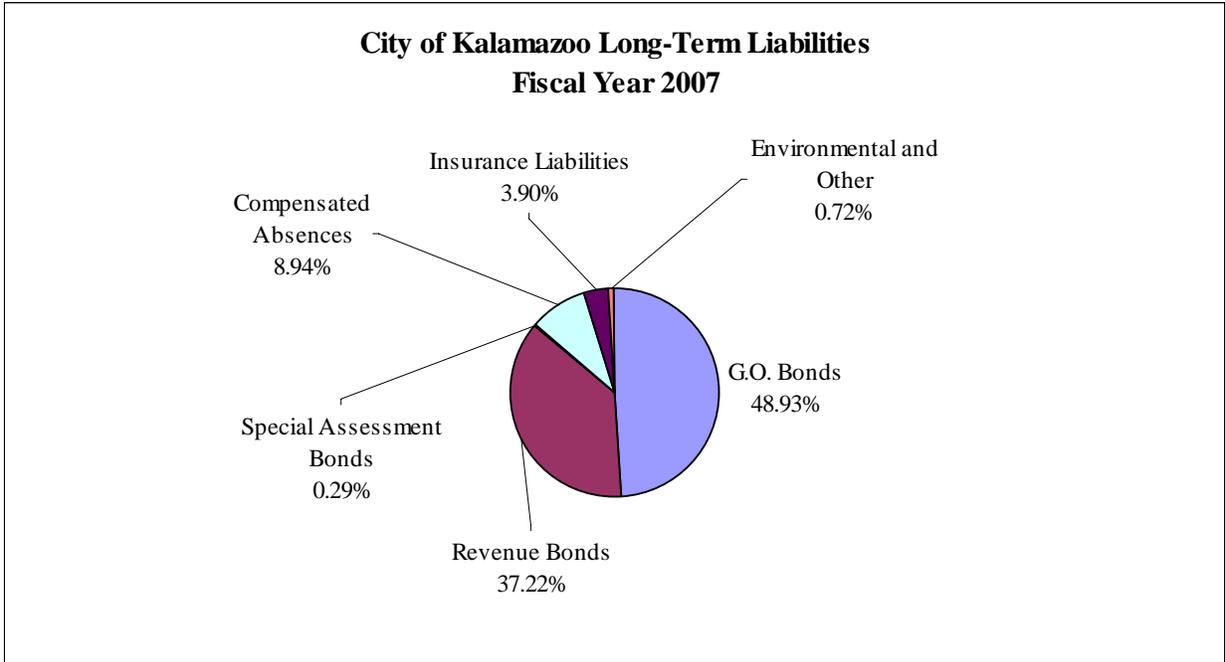

Installment Obligations. The City has entered into various long-term installment payment agreements which are similar in nature to bonds. The balance of outstanding installment obligations as of December 31, 2007 is \$167,000.

Compensated Absences. The City has accumulated a long-term liability for absences that have been earned by employees but not yet redeemed. The balance of compensated absences as of December 31, 2007 is \$8,373,426.

Insurance Claims and Environmental Matters. The City has estimated its liability for various legal issues that the City is aware of as of December 31, 2007. The estimated liability to the City is \$4,550,979.

Management's Discussion and Analysis

The major categories of long-term liabilities are depicted in the following graph:

Additional information on the City's long-term debt, including comparisons by category to 2006, can be found in note disclosures on pages 62-68.

Bond Ratings

The following chart depicts the City's credit rating for the various outstanding debt and the different rating agencies as of December 31, 2007.

	Fitch	S&P
Water and wastewater revenue bonds	AA	AA
General obligation limited tax bonds	AA	AA
General obligation unlimited tax bonds	AA	AA

Management's Discussion and Analysis

Economic Factors and Next Year's Budgets and Rates

The City of Kalamazoo is a mid-sized, urban Michigan municipality. Like many other urban communities, the City is "built-out", meaning its land, for the most part, is developed, and that other local units of government, which prohibits any boundary expansion, surround it. While proactive in its economic development policies (see the Transmittal Letter for a more in-depth description), the City faces challenges common of most aging urban communities.

The City is home to the main campuses of Western Michigan University, from which the City derives immense economic and intellectual benefits. However, because of the university's location, as well as being the County seat, 40% of the City's land is considered non-taxable. Furthermore, the voters to the State of Michigan have, over the years, enacted two property tax growth control measures, the "Headlee Amendment" and "Proposal A". These measures have the effect of limiting property tax revenue growth to rate of inflation, which has been unusually low the past several years.

Since 2002, the City and other Michigan local governments have experienced a significant reduction in state revenue sharing. As a result of above-mentioned factors, the City levies the maximum charter millage rate. Reductions in state revenue sharing, a cumulative amount of \$11.8 million since 2000, combined with the property tax limitation measures and the large amount of tax-exempt properties, have presented significant challenges to the City in maintaining service levels.

To address these fiscal challenges, the City has enacted a number of budgeting measures over the past several years, including reductions in staffing and certain support area service levels. Additionally, the City has developed a five-year fiscal plan "Blueprint for Action: A Sustainable Community", which details the foundation for a transformation from budgeting based on "allocation of resources" to an outcomes based approach. The 2008 budget continues the implementation of this new approach to budgeting, which will focus on positively impacting the quality of life for all citizens of the Kalamazoo community.

The fiscal plan includes updates to the formal City of Kalamazoo's General Fund Reserve Policy that guides the creation, maintenance and use of reserves. The fund balance of the General Operating Fund will be budgeted within the target range of 13 – 15 percent of budgeted annual operating revenues. As well, the City has created two formal reserve accounts to provide fiscal stability from year to year and provide emergency funds to replace unanticipated equipment failures or for unscheduled economic development initiatives.

The 2008 budget once again maintains basic services and infrastructure, economic growth, neighborhood and community development, affordable housing and expansion of the resource base. The 2008 fiscal year budget increases operational General Fund spending by 2% from fiscal year 2007 amended budget, despite contractual wage increases and the escalating cost of health care, while transferring a significant amount, \$3.8 million for capital project needs. Additionally, the City has set-aside \$600 thousand into two different fund reservation accounts for Capital Reserve funds and Budget Stabilization funds.

Management's Discussion and Analysis

For fiscal year 2008, the ending fund balance is budgeted to come in at 15% of revenues and other financing sources.

Property tax millage rates are budgeted to remain the same in fiscal year 2008.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Thomas C. Skrobola, the City's Management Services Director, at 241 W. South Street, Kalamazoo, Michigan 49007.

CITY OF KALAMAZOO, MICHIGAN
Reconciliation of Fund Balances on the Balance Sheet
for Governmental Funds to Net Assets
of Governmental Activities on the Statement of Net Assets
December 31, 2007

Fund balances - total governmental funds \$ 28,987,494

Amounts reported for *governmental activities* in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources, and therefore not reported in the funds.

Add: capital assets	289,109,910
Subtract: accumulated depreciation	(116,929,762)

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred revenues in the governmental funds, and thus are not included in fund balance.

Add: deferred property taxes	6,214,938
Add: other deferred revenues	16,212,491

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net assets.

Add: net assets of governmental activities accounted for in internal service funds	7,739,700
Subtract: net assets allocated to business-type activities from governmental-type activity internal service funds	(1,950,685)
Subtract: net assets allocated to component units from governmental-type activity internal service funds	(656,945)

Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the funds.

Subtract: bonds and installment purchase contracts payable	(61,002,000)
Subtract: accrued interest on long-term debt	(705,631)
Subtract: compensated absences	(6,260,752)
Subtract: environmental liabilities	(707,283)
Subtract: unamortized bond premium	(171,550)
Add: unamortized bond discount	19,271

Costs associated with the issuance of bonds are expended in the individual funds, but are capitalized and amortized over the life of the bonds in the statement of net assets.

Add: deferred charges for bond issuance costs	901,153
---	---------

Net assets of governmental activities	\$ 160,800,349
---------------------------------------	----------------

CITY OF KALAMAZOO, MICHIGAN
Reconciliation of the Statement of Revenue, Expenditures
and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2007

Net change in fund balances - total governmental funds \$ (1,109,328)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Add: capital outlay	10,394,163
Subtract: depreciation expense	(5,597,712)
Subtract: proceeds from the sale of capital assets	(274,136)
Subtract: loss on disposal of capital assets	(180,777)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred to the following fiscal year.

Add: net change in deferred property tax revenues	129,636
Add: net change in other deferred revenue	41,635

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

Add: principal payments on long-term liabilities	5,206,300
Add: bond issuance costs capitalized	140,385
Subtract: bond proceeds received	(4,715,000)
Add: bond premium amortized	25,851
Add: bond discount received	20,235
Subtract: bond discount amortized	(964)
Subtract: bond issuance costs amortized	(55,131)

The reduction of the City's long-term liabilities did not provide current financial resources, and was consequently not reported in the funds.

Add: reduction of long-term liability for environmental remediation	2,728
---	-------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Subtract: increase in accrued interest on bonds	(25,191)
Subtract: increase in the accrual of compensated absences	(564,706)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

Add: interest revenue from governmental internal service funds	394,283
Add: gain/loss on disposal of capital assets in governmental internal service funds	46,471
Add: net operating gain from governmental activities accounted for in internal service funds	398,887

Change in net assets of governmental activities	\$ 4,277,629
---	--------------

The accompanying notes are an integral part of these financial statements.

CITY OF KALAMAZOO, MICHIGAN
Reconciliation of the Statement of Revenue, Expenses
and Changes in Fund Net Assets
of Proprietary Funds to the Statement of Activities
For the Year Ended December 31, 2007

Net change in net assets - total proprietary funds	\$ (1,671,404)
--	----------------

Amounts reported for business-type *activities* in the statement of activities are different because:

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The net revenue (expense) of certain internal service funds is reported with business-type activities.

Add: interest revenue from business-type activity internal service funds	39,716
Add: gain on disposal of capital assets in business-type internal service funds	50,597
Subtract: net operating loss from business-type activities accounted for in internal service funds	(256,157)
Add: net operating gain from business-type activities accounted for in governmental internal service funds	88,564
	88,564

Change in net assets of business-type activities	\$ (1,748,684)
--	----------------

The accompanying notes are an integral part of these financial statements.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Kalamazoo, Michigan (the “City”) conform to United States generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The City of Kalamazoo is a municipal corporation governed by an elected, seven-member City Commission. As required by generally accepted accounting principles, these financial statements present the City of Kalamazoo (the primary government) and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government’s operations and so data from these units are combined with data of the primary government. The discretely presented component units, on the other hand, are reported in a separate column on the statement of net assets to emphasize that they are legally separate from the government. Each blended and discretely presented component unit has a December 31 year end.

Blended Component Unit

Kalamazoo Building Authority – The Kalamazoo Building Authority has been blended into the City’s financial statements as debt service and capital project fund types. The Authority is governed by a three-member board consisting of the City Manager, City Attorney and Finance Director and is reported as if it were part of the primary government because its sole purpose is to finance and construct the City’s public buildings.

Discretely Presented Component Units

Except for the Kalamazoo Municipal Golf Association, the governing bodies of all of these component units are appointed by the Mayor of the City of Kalamazoo with approval of the City Commission.

Downtown Development Authority – The Downtown Development Authority was created as a tax-increment financing (TIF) district to correct and prevent deterioration in the downtown district, encourage historical preservation and to promote economic growth within the downtown district. The Authority’s budget is subject to approval by the City Commission.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Economic Development Corporation - The Economic Development Corporation was created to provide means and methods for the encouragement and assistance of industrial and commercial enterprises in relocating, purchasing, constructing, improving or expanding within the City so as to provide needed services and facilities to the residents of the City. In certain situations, members of the Board of Directors may be removed by a majority of the Kalamazoo City Commission.

Brownfield Redevelopment Authority - The Brownfield Redevelopment Authority was established pursuant to Act 381 of the Public Acts of 1996, as amended. The purpose of the Authority is to treat and revitalize environmentally distressed brownfield zones. The Authority is financed by tax increment financing and State grants, and has named the City of Kalamazoo as its fiscal agent. The Authority is governed by the Board of the Economic Development Corporation.

Hospital Finance Authority - The Hospital Finance Authority's purpose is to construct, acquire, reconstruct, remodel, improve, add to, enlarge, repair, own and lease hospital facilities for the use of any nonprofit hospital inside or outside the boundaries of the City of Kalamazoo, Michigan. The Authority's budget is subject to approval by the City Commission.

Local Development Finance Authority - The purpose of the LDFA is to finance improvements, through the use of tax increment financing, within the City's business and technology research park. The LDFA was established as a tax-increment financing (TIF) district in 2002 in accordance with Michigan Public Act 248 of 2000.

Metro Transit System - The Metro Transit System operates the public transportation system in the City of Kalamazoo and portions of the surrounding area. The System's budget is subject to approval by the City Commission.

Kalamazoo Municipal Golf Association - The Kalamazoo Municipal Golf Association operates the City's public golf courses. The Board of Governors consists of nine members elected from the general membership, two members elected from the Governing Board (to add diversity with respect to race and sex) and three voting ex-officio members from the City of Kalamazoo (the City Manager, Deputy City Manager, and Director of Finance). The Association is fiscally dependent on the City in that the City Commission approves the annual budget, greens fees and membership fees, and one of the three City ex-officio members must approve of any proposal to expend money for any purpose.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Complete financial statements of the individual component units, except for the Brownfield Redevelopment Authority, the Hospital Finance Authority, and Local Development Finance Authority, can be obtained from their respective administrative offices:

Kalamazoo, MI 49007

Economic Development Corporation

241 West South Street
Kalamazoo, MI 49007

Metro Transit System

530 South Rose
Kalamazoo, MI 49007

Kalamazoo Municipal Golf Association

4200 Lovers Lane
Kalamazoo, MI 49007

B. Government-wide and fund financial statements

Government-wide financial statements. The statements of net assets and activities report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Therefore, agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for reimbursement-based grants that use one year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest and special assessments associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

The *Solid Waste Fund* accounts for funds provided by a special tax millage for the collection and removal of solid waste. This fund was authorized by a vote of the people authorizing a tax levy and is classified as a special revenue fund due to the limited usage of the assets.

The *Neighborhood and Community Development Fund* accounts for a variety of federal awards programs, including Community Development Block Grant, housing development, rental assistance and several other programs.

The *Building Authority Debt Service Fund* accounts for the debt service activity of the Kalamazoo Building Authority, which consists of the collection of lease payments from the Downtown Development Authority and from the general public for facilities improvements and the subsequent debt service expenditures related to the outstanding Building Authority debt issues.

The City reports the following major enterprise funds:

The *Wastewater Fund* accounts for the operation and maintenance of the sewage disposal system, capital additions and improvements to the system and retirement of revenue bonds. Financing is provided by user charges, Environmental Protection Agency grants for wastewater treatment plant expansion, state grants, and contributions from other municipalities and customers. This fund is classified as an enterprise fund because it is funded primarily through user charges.

The *Water Fund* accounts for the operation and maintenance of the water supply system, capital additions and improvements to the system and retirement of revenue bonds. Financing is provided by user charges, state grants, and contributions from other municipalities and customers. This fund is classified as an enterprise fund because it is funded primarily through user charges.

Additionally, the City reports the following fund types:

Special revenue funds. These funds account for revenue sources that are legally restricted to expenditures for specific purposes not including capital projects or permanent funds.

Debt service funds. These funds account for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Capital projects funds. These funds account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Permanent funds. These funds account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support specified government programs.

Enterprise funds. These funds account for those operations that are financed and operated in a manner similar to private business or where the City has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Internal service funds. These funds account for operations that provide services to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis. This includes machinery, equipment and building space management services; liability, auto, and workers' compensation self-insurance; information technology services; and printing, mailing and reproduction services.

Pension trust fund. This fund accounts for the activities of the Employees' Retirement System, a defined-benefit pension plan, which accumulates resources for retirement benefit payments to qualified employees.

Private purpose trust. This fund primarily accounts for the Rabbi Trust deferred compensation program and other assets of non-profit organizations held for outside parties in a trustee capacity for purposes other than those that support the government's programs.

Agency fund. This fund accounts for taxes collected and distributed to other governments in an agency capacity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the government's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments.

Investments are stated at fair value.

2. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the long-term portion of interfund loans).

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles, as applicable.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

3. Inventories and Prepaid Items

Inventories are valued at cost using the average cost method, which approximates fair value. The costs of governmental fund-type inventories are recorded as expenditures when purchased, and are immaterial at year end.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. Restricted Assets

Certain revenues and resources of the City are classified as restricted assets on the balance sheet and statement of net assets because their use is limited. Proprietary fund restricted assets are held subject to bond covenants and reserved for future capital expenditures.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The government defines capital assets as: assets with initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. In accordance with the provisions of GASB Statement No. 34, the government has only capitalized infrastructure assets acquired or constructed since 1980.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	5-50
Buildings and building improvements	50
Water and wastewater system infrastructure	25-50
Vehicles	7-10
Office equipment	6-10
Machinery and equipment	3-10
Public infrastructure	50

6. *Compensated Absences*

Amounts of vested or accumulated vacation leave are accrued in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as “termination leave” prior to retirement.

7. *Long-term Obligations*

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

8. *Fund Equity*

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. **Budgetary Information**

The City adopts a formal budget for the general and special revenue funds. The City Charter requires that the City Manager submit to the City Commission an estimate of revenues and contemplated expenditures for the following calendar year by December 1. An interim appropriation resolution is passed by January 1 to continue normal operations and by February 1 of each year the City Commission passes an annual appropriation resolution approving the estimated expenditures. The City Manager is authorized to transfer budgeted amounts between expenditure control accounts within a department as long as the budgeted excess of revenues and other sources over (under) expenditures and other uses stays constant. Capital outlay expenditures in excess of the greater of \$10,000 or in amounts greater than 10 percent of any project cost, interdepartmental transfers, use of contingency funds and position classification changes require prior City Commission approval.

Formal budgetary integration is employed as a management control device during the year. Supplemental appropriations were approved by the City Commission in the form of budget amendment resolutions or as part of special authorizing motions for grants, bonds or notes, the total of which was not significant in relation to the original budget appropriation valuations. Appropriations lapse at each year end, except for those approved for carry forward by the City Commission.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in all governmental funds. Encumbrances outstanding at year end are reported as reservations of fund balance for governmental funds since they do not constitute expenditures or liabilities.

The budget has been prepared in accordance with U.S. generally accepted accounting principles (GAAP), with the exception that property tax revenues have been recognized in the year levied, even though they would not be fully available to finance operations of the current year (*see Note IV.B. for a further discussion*).

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

B. Budget/GAAP Reconciliation

The Statements of Revenue, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual are presented on the same basis of accounting used in preparing the adopted budget. The following schedule reconciles the amounts on those schedules to the Statement of Revenue, Expenditures and Changes in Fund Balances – Governmental Funds.

	Budgetary Basis	Accounting Basis Difference	GAAP Basis
General Fund:			
Deferred revenue	\$ 2,504,006	\$ 5,732,007	\$ 8,236,013
Property tax revenue	32,769,752	(148,665)	32,621,087
Fund balance, beginning of year	11,738,865	(5,583,342)	6,155,523
Fund balance, end of year	11,022,682	(5,732,007)	5,290,675
Solid Waste Special Revenue Fund:			
Deferred revenue	-	482,931	482,931
Property tax revenue	2,507,951	19,029	2,526,980
Fund balance, beginning of year	1,395,323	(501,960)	893,363
Fund balance, end of year	1,568,861	(482,931)	1,085,930

C. Excess of Expenditures Over Appropriations

P.A. 621 of 1978, as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. The approved budgets of the City were adopted on a department level basis in the General Fund, and at the fund level for other governmental funds, which is the legal level of control.

Expenditures in the combining and individual fund financial statements have been presented at a level of detail greater than the level of legal budgetary control.

During the year ended December 31, 2007, the Economic Development Program fund was not budgeted for the year.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

D. Deficit Fund Equity

The Public Works Equipment internal service fund had a deficit in unrestricted net assets of \$854,387 as of December 31, 2007, although its total net assets (including amounts invested in capital assets) amounted to a positive \$581,384.

The Downtown Development Authority, the Local Development Finance Authority and the Kalamazoo Municipal Golf Association component units had deficits in unrestricted net assets at December 31, 2007, of \$2,656,840, \$1,548,859 and \$88,840, respectively. For the DDA and the LDFA, these deficits existed as a result of presenting the financial statements for these component units on the full accrual basis, in accordance with GAAP. On a modified accrual fund basis, only the LDFA has a deficit fund balance, which was a planned deficit, as eligible expenditures were incurred in advance of tax increment financing revenues. The City plans to eliminate the deficit of the LDFA through future tax increment financing collections.

III. DETAILED NOTES ON ALL FUNDS

A-1. Deposits and Investments – Pooled Cash and Investments

Following is a reconciliation of deposit and investment balances (including pooled cash and investments as well as pension trust fund balances; see Note A-2) as of December 31, 2007:

	<u>Primary Government</u>	<u>Component Units</u>	<u>Totals</u>
Statement of Net Assets			
Cash and cash equivalents	\$ 30,049,564	\$ 7,050,071	\$ 37,099,635
Investments	4,416,370	-	4,416,370
Restricted cash	4,990,238	1,381,672	6,371,910
Restricted investments	10,091,012	1,132,909	11,223,921
Investments with agent	2,122,921	-	2,122,921
Statement of Fiduciary Net Assets			
Cash and cash equivalents	12,991,502	-	12,991,502
Investments	516,121,381	-	516,121,381
Investments with agent	<u>500</u>	<u>-</u>	<u>500</u>
	<u>\$ 580,783,488</u>	<u>\$ 9,564,652</u>	<u>\$ 590,348,140</u>

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Deposits and Investments

Cash on hand	\$	7,150
Bank deposits (checking accounts, savings accounts and CDs)		36,482,521
Investments with agent (Kalamazoo Community Foundation)		2,123,421
Investments in securities, mutual funds and similar vehicles - pool		34,111,464
Investments in securities, mutual funds and similar vehicles - pension		<u>517,623,584</u>
		<u>\$ 590,348,140</u>

Custodial Credit Risk - Deposits. For deposits, custodial credit risk is the risk, that in the event of a bank failure, the City's deposits may not be returned to the government. As of December 31, 2007, \$35,983,491 of the City's total bank balance of \$36,183,491 (total book balance was \$36,482,521) was exposed to custodial credit risk as it was uninsured and uncollateralized.

The City's banking and investment policy does not specifically address this risk, although the City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the City evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk – Investments with Agent. As permitted by State statutes, the City has placed monies for investment with the Kalamazoo Community Foundation (KCF). These monies, amounting to \$2,123,421 as of December 31, 2007, are pooled with other KCF funds and invested at the discretion of KCF, which for purposes of the City essentially functions as an external investment pool. Investments in external investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Custodial Credit Risk - Investments. Following is a summary of investments as of December 31, 2007:

U.S. agencies	\$ 18,425,535
Commercial paper	5,421,402
Equity mutual funds	4,416,370
Money market	<u>5,848,157</u>
Total	<u>\$ 34,111,464</u>

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that investment securities be held in third-party safekeeping by a designated institution and that the safekeeping agent follow the procedure of delivery *vs.* payment. As of December 31, 2007, none of the City's investments, excluding the mutual funds and money market accounts which are not subject to custodial credit risk, were exposed to risk since the securities are held in the City's name by the counterparty.

Credit Risk. As of December 31, 2007, all of the City's investments in securities of U.S. agencies and commercial paper were rated AAA and A1+ by Standard & Poor's, respectively. The City also held investments in equity mutual funds and money market accounts, which are not rated. The City's investment policy requires that commercial paper held to be rated within the three highest classifications by at least two standard rating services. All of the City's investments comply with its policy regarding the types of investments it may hold.

Concentration of Credit Risk. At December 31, 2007, the investment portfolio was concentrated as follows:

<u>Investment Type</u>	<u>Issuer</u>	<u>% of Portfolio</u>
U.S. agencies	Federal Home Loan Bank	33.73%
	Federal Home Loan Mortgage Association	17.41%

Among other provisions, the City's investment policy permits the entire portfolio to be invested in obligations of U.S. agencies with the limitation that no more than 35% may be placed with a single institution. In addition, the investment policy limits commercial paper to 10% of the total portfolio. The policy neither provides for nor prohibits the placement of funds with community foundations.

Interest Rate Risk. As of December 31, 2007, \$19,819,227 of U.S. agencies and commercial paper securities were due within one year; the remaining balance of \$4,027,710 was due within two years. The City's policy provides that the maximum weighted average maturity will be limited to 18 months.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

A-2. Deposits and Investments – Pension Trust Fund

Cash and Short-term Investments – The Pension Trust Fund (or the “System”) does not maintain any checking or other demand/time deposit accounts. Amounts reported as cash and short-term investments in the statement of plan net assets include cash and money market accounts held by the System’s investment managers. These accounts are insured by the Securities Investors Protection Act for up to \$500,000 each. The carrying amount of these accounts as of December 31, 2007 was \$1,502,203, of which \$502,194 was uninsured and uncollateralized.

Investments - The System is authorized by the State’s Pension Investment Act, as amended, to invest in common stocks, real estate, and various other obligations, subject to certain limitations. The System’s Investment Committee is responsible for recommending to the City Commission the investment policies and strategies, and retaining/monitoring the various investment managers, trustees, advisors, actuaries and other fiduciaries utilized by the System. The City Commission is responsible for approving the recommendations of the Investment Committee.

The System’s investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have established market values are reported at estimated fair value.

The System’s investments are held in 10 portfolios administered by five investment managers. Following is a summary of the System’s investments as of December 31, 2007:

U.S. treasuries	\$ 47,842,799
U.S. agencies	29,457,032
Corporate debt securities	54,864,290
Equity mutual funds	358,419,628
Real estate mutual funds	25,537,632
Cash and short-term investments	<u>1,502,203</u>
	<u>\$517,623,584</u>

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Credit Risk. The System's investment policy provides that its investments in bonds must be rated in the top four major grades as determined by two nationally recognized statistical rating organizations. As of December 31, 2007, the System's investments in fixed income securities were rated by Standard & Poor's and Moody's as follows:

	<u>U.S. agencies</u>	<u>Corporate debt securities</u>
Standard & Poor's		
AAA	\$ 29,457,032	\$ 22,356,152
AA	-	12,658,347
A	-	9,868,605
BBB	-	3,918,706
Not rated	-	6,062,480
	<u><u>\$ 29,457,032</u></u>	<u><u>\$ 54,864,290</u></u>
Moody's		
AAA	\$ 29,457,032	\$ 24,181,945
AA	-	12,541,219
A	-	12,140,484
BAA	-	4,381,608

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The System's investment policy does not address custodial credit risk. Although uninsured and unregistered, the System's investments are not exposed to custodial credit risk since the securities are held by the counterparty in the System's name. Investments in mutual funds and money market funds are not subject to custodial credit risk.

Concentration of Credit Risk. The System's investments are not exposed to concentration of credit risk relative to a single issuer (i.e., company or government agency) inasmuch as no holdings equal or exceed 5% or more of total investments.

The System's investment policy and State statutes provide that no more than 70% of the total investments may be in equity holdings and no more than 5% in real estate. As of December 31, 2007, the System's equity holdings accounted for 69.4% of the total investment portfolio; the System's holdings in real estate were 4.95% at December 31, 2007.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Interest Rate Risk. As of December 31, 2007, maturities of the System's debt securities were as follows:

<u>2007</u>	<u>Fair Value</u>	<u>Investment Maturities (fair value by years)</u>			
		<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>More Than 10</u>
U.S. treasuries	\$ 47,842,799	\$ -	\$ -	\$ 764,598	\$ 47,078,201
U.S. agencies	29,457,032	387,712	3,887,648	3,187,047	21,994,625
Corporate debt	54,864,290	-	21,035,091	7,052,991	26,776,208
Total debt securities	<u>\$ 132,164,121</u>	<u>\$ 387,712</u>	<u>\$ 24,922,739</u>	<u>\$ 11,004,636</u>	<u>\$ 95,849,034</u>

The System's investment policy does not address interest rate risk.

Derivatives. The System's investment policy permits the prudent use of derivatives to reduce portfolio risk and enhance investment return. Under the terms of the investment agreements, portfolio managers are required to report all derivative holdings on a quarterly basis. The Investment Committee monitors these reports to evaluate the System's exposure to credit, market and legal risk.

The portfolios managed by Jennison Associates utilize U.S. currency futures contracts, a type of derivative, to reduce overall portfolio volatility caused by interest rate risk. At December 31, 2007, the System had receivable futures contracts with a fair value of \$29,621,563 and payable futures contracts with a fair value of \$8,435,031. A cumulative gain on futures contracts amounting to \$194,048 has been recognized by the System through December 31, 2007. As of that date, a net receivable balance of \$79,067 has been reported in interest and dividends receivable.

Notes To Financial Statements

B. Receivables and Deferred Revenue

Receivables in the primary government are as follows:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Accounts	\$ 2,700,720	\$ -
Customer accounts	-	4,544,379
Taxes	8,940,629	-
Special assessments	113,726	105,012
Interest	74,237	8,496
Due from other governments	1,829,080	-
Notes	7,135,273	-
Due from component units	6,881,261	1,011
Advances to component units	<u>3,644,460</u>	<u>223,925</u>
	<u>\$ 31,319,386</u>	<u>\$ 4,882,823</u>
Amount not expected to be collected in one year	<u>\$ 10,779,733</u>	<u>\$ 223,925</u>

Customer accounts receivable of the Wastewater and Water Enterprise Funds are reported net of allowances for uncollectible accounts of \$8,900 and \$49,000, respectively.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in governmental activities were as follows:

	<u>Unavailable</u>	<u>Unearned</u>	<u>Total</u>
Governmental funds			
Property taxes receivable	\$ 6,214,938	\$ -	\$ 6,214,938
Grants and contracts received in advance of meeting all eligibility requirements	-	397,011	397,011

Depreciation expense was charged to functions/programs of the primary government as follows:

General government	\$ 454,009
Public safety (combined police & fire)	1,240,704
Community Development & Planning	16,455
Parks	268,549
Recreation	19,986
Public Works	9,417
Streets	3,588,592
Capital assets held by the government's internal service funds are charged to the various functions based on their usage of the assets	642,096
	\$ 6,239,808

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Depreciation of business-type activities by function:

Wastewater	\$ 4,165,281
Water	2,777,033
Other	3,959
Capital assets held by the government's internal service funds are charged to the various functions based on their usage of the assets	436,037
	\$ 7,382,310

D. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses in the primary government are as follows:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Accounts payable	\$ 2,184,543	\$ 786,964
Accrued and other liabilities	2,819,753	352,572
Due to component units	673,738	200
Due to other governments	474,090	95,586
Deposits payable	1,049,212	762,180
	\$ 7,201,336	\$ 1,997,502

E. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of December 31, 2007, was as follows:

	<u>Receivables</u>	<u>Payables</u>
Due to/from other funds:		
General Fund	\$ 674,427	\$ 1,645,752
Solid Waste	1,150	95,868
Neighborhood and Community Development	719	308,971
Building Authority Debt Service	-	1,052
Nonmajor governmental funds	1,458,591	2,483,409
Wastewater	725,359	1,177,528
Water	668,930	850,306
Nonmajor enterprise funds	-	574
Internal service funds	5,152,903	2,118,619
	\$ 8,682,079	\$ 8,682,079

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

	<u>Receivables</u>	<u>Payables</u>
Advances to/from other funds:		
General Fund	\$ 340,000	\$ -
Nonmajor governmental funds	7,017	7,017
Internal service funds	-	340,000
	<u>\$ 347,017</u>	<u>\$ 347,017</u>

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. In addition, certain amounts are reported as internal balances in the statement of net assets relative to the elimination of the internal service funds.

	<u>Transfers In</u>	<u>Transfers Out</u>
Interfund transfers:		
General Fund	\$ -	\$ 4,768,997
Neighborhood and Community Development	100,000	-
Building Authority Debt Service	1,588,010	-
Nonmajor governmental funds	9,786,267	6,272,793
Wastewater	-	432,487
	<u>\$ 11,474,277</u>	<u>\$ 11,474,277</u>

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

E. Long-Term Debt

General Obligation Bonds. The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary activities. These bonds are reported in the proprietary funds if they are expected to be repaid from proprietary fund revenues. In addition, general obligation bonds have been issued to refund both general obligation and revenue bonds.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. These bonds are issued as serial bonds with varying amounts of principal maturing each year. The original amount of the general obligation bonds issued was \$89,890,000. General obligation bonds currently outstanding are as follows:

Total	\$ 12,480,000	\$ 2,825,708	\$ 24,215,000	\$ 9,703,302

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Special Assessment Debt. The City issues special assessment limited tax bonds to provide funds for certain downtown street improvement projects. The City intends to repay this debt through collections of special assessments. However, these bonds are backed by the full faith and credit of the City and, in the event that special assessment revenues are insufficient to cover debt service expenditures, the City is obligated to make up any shortfall. Management considers the likelihood of this occurring to be extremely remote. The original amount of special assessment bonds was \$680,000. Special assessment bonds outstanding at year end are as follows:

Special Assessment Bonds	Issuance Date	Interest Rates	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<i>Governmental Activities:</i> 1999 Special Assessment Limited Tax Bonds	09/01/1999	4.40%-7.00%	\$ 335,000	\$ -	\$ 50,000	\$ 285,000	\$ 50,000

Annual debt service requirements to maturity for special assessment bonds are as follows:

Years Ending December 31	Governmental Activities	
	Principal	Interest
2008	\$ 50,000	\$ 14,380
2009	50,000	11,980
2010	45,000	9,530
2011	45,000	7,280
2012	50,000	4,985
2013	45,000	2,385
Total	\$ 285,000	\$ 50,540

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Installment Obligations. The City has entered into various long-term installment payment agreements which are similar in nature to bonds. The original amount of installment obligations issued was \$5,357,055 for governmental activities. Installment obligations outstanding at December 31, 2007, are as follows:

Installment Purchase Contracts	Issuance Date	Interest Rates	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<i>Governmental Activities:</i>							
1997 Fire Equipment	06/16/1997	5.60%	\$ 136,300	\$ -	\$ 136,300	-	-
2000 Cable Access	07/24/2000	5.38%	98,000	-	66,000	32,000	21,000
2005 KMGA	04/25/2005	3.85%	199,000	-	64,000	135,000	66,000
<i>Total Governmental Activities</i>			<u>\$ 433,300</u>	<u>\$ -</u>	<u>\$ 266,300</u>	<u>\$ 167,000</u>	<u>\$ 87,000</u>

Annual debt service requirements to maturity for installment obligations are as follows:

Years Ending December 31	Governmental Activities	
	Principal	Interest
2008	\$ 87,000	\$ 5,374
2009	80,000	1,623
Total	<u>\$ 167,000</u>	<u>\$ 6,997</u>

Other Debt. The City has also recorded liabilities related to certain environmental matters, accumulated compensated absences and a tax tribunal payable.

Environmental matters represent the City's share of estimated costs associated with the cleanup of certain sites with soil contamination for which the City is named as a potentially responsible party.

The accumulated compensated absences represent the estimated liability to be paid to governmental fund type employees under the City's sick and vacation pay policy. Under the City's policy, employees earn sick and vacation time based on time of service with the government. For the governmental activities, compensated absences, the uninsured claim liability, and death benefits payable are generally liquidated by the insurance and benefits internal service fund. Other sundry long-term liabilities are generally liquidated by the General Fund.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Advance and Current Refundings. In prior years, the City defeased certain bonds by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds.

Accordingly, the trust account assets and the liability for the defeased bonds are not included in the financial statements. At December 31, 2007, \$10,181,149 of bonds outstanding from prior year refundings are considered defeased.

No Commitment Debt. Excluded from the statement of net assets are bonds issued under the Industrial Development Revenue Bond Act of 1963, as amended, which authorizes municipalities to acquire and lease industrial sites, buildings and equipment. Also excluded are revenue bonds issued by the Economic Development Corporation and Hospital Finance Authority to acquire and lease property to third parties. The revenue bonds issued are payable solely from the net revenue derived from the respective leases and are not a general obligation of the City. After these bonds are issued, all financial activity is taken over by the paying agent. The bonds and related lease contracts, amounting to \$309,650,000, are not reflected in the City's financial statements. Information regarding the status of each bond issue, including possible default, must be obtained from the paying agent or other knowledgeable sources.

Changes in Long-Term Debt. Long-term liability activity for the year ended December 31, 2007, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Primary Government					
Governmental Activities					
General obligation bonds	\$ 50,920,000	\$ 855,000	\$ 3,705,000	\$ 48,070,000	\$ 3,470,000

G. Short-Term Debt

The City issued and repaid \$6,000,000 of tax revenue anticipation notes during the year ended December 31, 2007. The purpose of this short-term debt is to provide liquidity for governmental operations financed by property taxes, which are collected throughout the year.

IV. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to property loss, torts, errors and omissions and employee injuries (i.e., workers' compensation), as well as medical and death benefits provided to employees. The City has purchased commercial insurance for excess claims for workers' compensation, medical claims, general and auto liability, auto physical damage and property loss claims. The City is primarily self-insured for workers' compensation, medical claims, general liability and property damage claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years. The City estimates the liability for its self-insured coverages and includes both those claims that have been reported as well as those that have not yet been reported. These estimates are prepared with the assistance of the City's third-party administrators for claims management and are recorded in the Insurance and Benefits internal service fund. The long-term portion of the workers' compensation liability has been discounted at a 6 percent present value factor. Changes in the estimated liability are as follows:

	<u>2007</u>	<u>2006</u>
Estimated liability, beginning of year	\$ 4,164,149	\$ 3,716,050
Estimated claims incurred, including changes in estimates	17,449,435	17,400,081
Claim payments	<u>(17,505,215)</u>	<u>(16,951,982)</u>
Estimated liability, end of year	<u>\$ 4,108,369</u>	<u>\$ 4,164,149</u>

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

B. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1 and are levied on July 1. The City bills and collects its own property taxes for general governmental services, solid waste collection and downtown development and also collects taxes for the Metro Transit System, Kalamazoo County, Kalamazoo Valley Community College, the District Library and various school districts. Collections of property taxes and remittances of them to the appropriate authorities are accounted for in the Tax Collector's Agency Fund.

The City is permitted by State law to levy taxes up to \$20.00 per \$1,000 of assessed valuation of property for general governmental services other than the payment of principal and interest on long-term debt. The authority to tax the residents for the payment of principal and interest on long-term debt is obtained when the debt is approved by a vote of the people. The City's current year tax rate was the maximum \$19.2705 per \$1,000 of assessed valuation for general operations (after applying the Headlee constitutional rollback adjustment).

The City is currently levying \$1.55 per \$1,000 of assessed valuation for solid waste collection. State laws allow an additional nonvoted solid waste levy of \$1.65 per \$1,000 of assessed valuation.

The Metro Transit System is permitted by P.A. 55 of the Public Acts of 1963, as amended, to levy a tax to assist in the operation of the transit system. During the current year, the System levied a voted millage of \$1.00 per \$1,000 of assessed valuation.

The Downtown Development Authority is permitted by P.A. 197 of Michigan to levy taxes up to \$2.00 per \$1,000 of assessed valuation of property in the downtown district. The Authority's current year tax rate was the maximum \$2.00 per \$1,000 of assessed valuation.

Taxpayers may elect to pay their tax bills in 12 equal monthly installments beginning on July 1 and on the first day of each of the next 11 months. As a result, for those taxpayers electing the installment payment plan, up to one-half of their property tax levy is collected after the fiscal year end. Because a portion of those taxes are due and collected more than 60 days after year end, they are not susceptible to accrual. Accordingly, those amounts are recorded as deferred revenue as of December 31 and then recognized as revenue in the subsequent year.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

For budgeting purposes, the taxes levied in the current year are intended to finance the operations of the current year. Therefore, the Schedules of Revenue, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Budgetary Basis) and Actual include the full amount of the current year tax levy as revenue of the current year, to be consistent with the budget presentation.

C. Contingent Liabilities

Lawsuits

The City is a defendant in various legal actions arising in the normal course of its activities including certain discrimination cases on file with the Equal Employment Opportunity Commission and the Michigan Department of Civil Rights. In the opinion of the City Attorney and management, the potential uninsured liability that may result from these actions should not exceed amounts either reserved in the Insurance and Benefits Fund (an internal service fund) or included in funds maintained by the City's claims administrators.

Environmental

The City of Kalamazoo has identified a number of sites within its boundaries that are in need of environmental remediation. Some are privately-held properties, and some are owned by the County and/or the City of Kalamazoo. The City of Kalamazoo has been named as a Potentially-Responsible Party (PRP) by the U.S. Environmental Protection Agency (EPA) in two such sites: the Cork Street Landfill and the Auto Ion site. The City has also entered into cleanup agreements, although not named as a PRP, for two other sites. Based on currently-available information, the City has recorded liabilities for the net present value of estimated response costs for these sites in the amount of \$707,283 in the government-wide statements. The City has set aside \$ 662,611 in its Cork Street Landfill construction fund to cover the estimated net present value of costs associated with that site. The landfills do not accept municipal waste as defined by the EPA; therefore, the Government Accounting Standard Board rules on closure and post-closure care costs do not apply.

The City has entered into trust agreements for three of these sites. It acts as Executive Agent for the Cork Street Landfill Trust, the other two trusts being administered by other parties. The Cork Street Landfill Trust is recorded in the Cork Street Landfill Cap Construction Fund. In 2000, the City issued \$1.3 million in environmental bonds for a portion of its share of the costs for the Cork Street landfill. The proceeds of the bonds were placed in the trust; however, the City is solely responsible for the repayment of those bonds, the outstanding balance of which is recorded in the Statement of Net Assets.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

The City also has identified a number of additional environmental issues that need to be addressed in the next two to four years. In most of these environmental issues, the City has not been identified as a PRP and, in all of the issues, the City has not determined the ultimate exposure, if any, for these sites. Accordingly, no provision for any loss that may result from the resolution of these matters has been recorded in the financial statements.

Commitments

The City is obligated for construction contracts relating to various construction projects in the amount of \$8,696,871. These commitments are not susceptible to accrual. Accordingly, no liabilities have been recorded in the basic financial statements. However, \$4,188,873 of these commitments were made by governmental funds and are, therefore, included within the reservations of fund balance for encumbrances.

D. Postemployment Benefits

The City provides postretirement health care benefits to all full-time employees upon retirement, in accordance with its labor contracts. Currently, 596 retirees are eligible to receive these benefits. The City includes pre-Medicare retirees and their dependents in its self-insured health care plan. The City purchases Medicare supplemental insurance for retirees eligible for Medicare. Expenses for postemployment health care benefits are recognized in the Insurance and Benefits Internal Service Fund on a pay-as-you-go basis. During the year, this amounted to \$5,762,061 (net of \$397,256 of retiree contributions). Beginning with the fiscal year ending December 31, 2008, the City will be required to begin recognizing expenses for OPEB costs in the government wide and proprietary fund financial statements based on an actuarially determined annual required contribution (ARC).

The entry-age normal cost method, with a 30 year amortization of unfunded accrued liabilities was used to determine OPEB liabilities. The entry age method is a stable method that is consistent with a level percentage of payroll financing. The actuarial accrued liability assumes a healthcare cost trend rate of 9.2% to 3.2%.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

At December 31, 2006 (the date of the most recent actuarial valuation), the funded status and actuarial accrued liability were determined as follows:

Total actuarial accrued liability	\$ 115,049,925
Actuarial value of assets	<u>-</u>
Unfunded actuarial accrued liability	<u>\$ 115,049,925</u>
Funded ratio	0%
Covered payroll	\$ 42,489,213
UAAL as a percent of covered payroll	270.8%

E. Defined Benefit Pension Plan

Plan Description

The Employees' Retirement System is the administrator of a single-employer public employees defined benefit retirement system that covers all employees of the City. The Plan was originally established by City ordinance on February 5, 1952 and is maintained as a Pension Trust Fund in the accompanying financial statements. Plan benefit provisions were established and may be amended under the authority of City ordinances. The system provides retirement benefits, as well as death and disability benefits. The system issues a publicly available financial report that includes financial statements and required supplementary information, which may be obtained by writing to the City of Kalamazoo Employees' Retirement System, 241 W. South Street, Kalamazoo, MI 49007.

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

Summary of Significant Accounting Policies

The financial statements of the Employees' Retirement System are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values.

Funding Policy

The contribution requirements of plan members and the City are established and may be amended by the City Commission. Plan members are required to contribute at rates ranging from 1.0% to 6.5% of their annual covered salary, depending on union affiliation. The City is required to contribute at an actuarially determined rate; no employer contributions were required for 2007.

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation (NPO) for the current year were as follows:

Annual required contribution (ARC)	\$ -
Interest on net pension obligation	-
Adjustment to annual required contribution	<u>-</u>
Annual pension cost	-
Contributions made	<u>-</u>
Increase (decrease) in net pension obligation	-
Net pension obligation - Beginning of year	<u>-</u>
Net pension obligation - End of year	<u><u>\$ -</u></u>

CITY OF KALAMAZOO, MICHIGAN

Notes To Financial Statements

The annual required contributions for 2007 were determined as part of an actuarial valuation of the System as of December 31, 2006, using the individual attained age normal cost actuarial funding method. The actuarial assumptions included: (a) a nominal rate of return on investments, net of expenses, of 7.5% per year compounded annually; (b) projected salary increases of 4.0% per year compounded annually, attributable to inflation; (c) additional projected salary increases ranging from 0.0% to 8.0% per year, depending on age and service, attributable to seniority/merit; and (d) the assumption that pension benefits will increase after retirement from 1.0% to 2.0% per year depending on the bargaining unit, age, and the date of retirement. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at December 31, 2007, the date of the latest actuarial valuation, was ten years for the System.

The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the fair value of investments over a five-year period.

Three-Year Trend Information

<u>Years Ended December 31,</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage Contributed</u>	<u>Net Pension Obligation</u>
2005	\$ -	-%	\$ -

NONMAJOR SPECIAL REVENUE FUNDS

Major Streets - This fund accounts for the construction, maintenance and repairs of all major streets. Revenues received include state-shared gas and weight taxes, local contributions, etc. This is a special revenue fund because it is used to control the expenditures of motor fuel taxes, which are earmarked by law and the state constitution for street and highway purposes, and is required by Act 51 of the Public Acts of 1951, as amended.

Local Streets - This fund accounts for the construction, maintenance and repairs of all local streets. Financing is provided by state-shared gas and weight taxes, local contributions, etc. This is a special revenue fund because it is used to control the expenditures of motor fuel taxes, which are earmarked by law and the state constitution for street and highway purposes, and is required by Act 51 of the Public Acts of 1951, as amended.

Cemeteries - This fund is used to account for the earmarked revenues set aside for the purpose of operating the City's cemeteries. This fund is classified as a Special Revenue Fund because of the comparatively limited usage of the assets in this fund.

Grants and Donations - This fund is used to account for various programs funded by grants and/or donations that are not accounted for in the other special revenue funds.

Economic Development Programs - This fund is used to account for monies appropriated by the City Commission for economic development activities, such as business loans and loans to the Economic Development Corporation component unit.

Drug Enforcement - This fund is used to account for proceeds of forfeited property seized in connection with a violation of the controlled substance statutes, Public Act 135 of 1985 (MCLA 333,7521-7524). This fund is classified as a Special Revenue Fund because of the limited usage of its assets.

NONMAJOR DEBT SERVICE FUNDS

Special Assessments - This fund is used to account for the debt service activity of the Special Assessments bond issue. Financing is provided through the collection of special assessments from benefiting property owners.

Michigan Transportation Fund - This fund is used to account for the debt service activity of the Michigan Transportation Fund bond issues. Financing is provided by transfers from the Major and Local Streets Special Revenue Funds.

Installment Purchase Contracts - This fund is used to account for the debt service activity of the City's installment obligations. Financing is provided through transfers from other funds and facility rentals.

Mayors' Riverfront Park - This fund is used to account for debt service activity, both public and private, for the debt issued for the City's Mayors' Riverfront Park.

NONMAJOR CAPITAL PROJECTS FUNDS

Cork Street Landfill Cap Construction - This fund accounts for earmarked revenue set aside for post closure care and monitoring costs associated with the Cork Street Landfill. Revenue sources from prior years included transfers from other funds and contributions from outside parties identified as potentially responsible parties.

Capital Improvements Projects - This fund accounts for earmarked revenue set aside for public improvements of a major nature. Revenue sources include General Fund transfers, grants from other units of government, private contributions and bond proceeds.

Building Authority Justice Facilities - This fund accounts for earmarked revenue set aside for public improvements associated with justice facilities.

INTERNAL SERVICE FUNDS

Engineering Fund - This fund is used to account for the operations of the City's Engineering Department. Financing is provided through user charges.

Printing Services Fund - This fund is used to record the operations of printing and mailing services. Financing is provided by reimbursements from operating funds for materials and services rendered.

City-Wide Maintenance Fund – This fund is used to account for buildings and grounds maintenance operations for the City's various properties. User fees are charged to various funds and departments.

Management Information Systems Fund - This fund is used to record the operations of the management information systems department, which includes procurement and maintenance of equipment and computing support for informational needs of the City. Financing is provided by reimbursement from user service charges.

Public Works Equipment Fund - This fund is used to account for the procurement and maintenance of equipment to be used on various public work projects. Revenues are provided through vehicle and equipment rental charges and maintenance service billings. This fund also accounts for the administration and engineering of streets, storm sewers, parks and sidewalks. User funds and departments are billed to recover costs.

Insurance and Benefits Fund - This fund is used to account for payment of approved insurance claims, public liability, hospitalization insurance, workers' compensation, pension contributions, postemployment benefits, etc. The City is primarily self-insured and finances its insurance payments through budgeted transfers from other funds.

Public Utilities Equipment Fund - This fund is used to account for the procurement and maintenance of equipment to be used by the Wastewater and Water Departments. Revenues are provided through vehicle and equipment rental charges and maintenance service billings.

CITY OF KALAMAZOO, MICHIGAN
Reconciliation of Fund Balance of the
Governmental Fund to Net Assets
Downtown Development Authority Component Unit
December 31, 2007

Fund balance - governmental fund	\$ 3,393,125
----------------------------------	--------------

Amounts reported in the statement of net assets are different because:

Capital assets are not financial resources, and therefore not reported in the governmental fund.

Add: capital assets, net	351,193
--------------------------	---------

Because the focus of the governmental fund is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred revenues in the governmental fund, and thus are not included in fund balance.

Add: deferred property taxes	405,592
------------------------------	---------

Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the governmental fund.

Subtract: long-term debt payable	(1,248,623)
----------------------------------	-------------

Subtract: accrued interest on long-term debt	(36,934)
--	----------

Subtract: long-term due to primary government	(5,170,000)
---	-------------

Net assets (deficit)	<u><u>\$ (2,305,647)</u></u>

CITY OF KALAMAZOO, MICHIGAN
Statement of Activities / Governmental Fund Revenue,
Expenditures, and Changes in Fund Balance
Downtown Development Authority Component Unit
For the Year Ended December 31, 2007

	General Fund	Adjustments	Statement of Activities
Expenditures / expenses	\$ 8,025,402	\$ 121,769	\$ 8,147,171
Program revenues			
Charges for services	2,702,726	-	2,702,726
Operating grants, contributions, and restricted interest	1,385,986	-	1,385,986
Capital grants and contributions	243,256	-	243,256
Total program revenues	4,331,968	-	4,331,968
Net program expense	(3,693,434)	(121,769)	(3,815,203)
General revenues			
Property taxes	3,454,955	(166,690)	3,288,265
Change in fund balance / net assets	(238,479)	(288,459)	(526,938)
Fund balances / net assets (deficit):			
Beginning of year	3,631,604	(5,410,313)	(1,778,709)
End of year	\$ 3,393,125	\$ (5,698,772)	\$ (2,305,647)

CITY OF KALAMAZOO, MICHIGAN
Reconciliation of Governmental Fund Revenue, Expenditures
and Changes in Fund Balances to Changes in Net Assets
Downtown Development Authority Component Unit
For the Year Ended December 31, 2007

Net change in fund balance - governmental fund \$ (238,479)

Amounts reported in the statement of activities are different because:

The governmental fund reports capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Add: capital outlay	138,966
Subtract: depreciation expense	(83,474)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental fund, but rather are deferred to the following fiscal year.

Subtract: net change in property tax revenues	(166,690)
---	-----------

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental fund, but the repayment reduces long-term liabilities in the statement of net assets.

Add: principal payments on long-term liabilities	542,855
Subtract: bond proceeds received	(723,442)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental fund.

Add: change in accrued interest	3,326
---------------------------------	-------

Change in net assets	\$ (526,938)

CITY OF KALAMAZOO, MICHIGAN
Reconciliation of Fund Net Assets of the
Enterprise Fund to Net Assets
Metro Transit System Component Unit
December 31, 2007

Fund net assets	\$ 24,117,529
-----------------	---------------

Amounts reported in the statement of net assets are different because:

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. A portion of the net revenue (expense) of certain internal service funds is allocated to the System and reported in the statement of activities.

Add: net operating gain from component unit activities accounted for in governmental internal service funds	<u>652,876</u>
---	----------------

Net assets	<u><u>\$ 24,770,405</u></u>

STATISTICAL SECTION

CITY OF KALAMAZOO, MICHIGAN

STATISTICAL SECTION INDEX

The statistical section of the City of Kalamazoo's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

TABLE NO. TABLE DESCRIPTION

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

- | | |
|---|--|
| 1 | Net Assets by Component |
| 2 | Changes in Net Assets |
| 3 | Fund Balances of Governmental Funds |
| 4 | Changes in Fund Balances of Governmental Funds |

Revenue Capacity

These schedules contain information to help the reader understand the City's financial most significant local revenue source, property tax.

- | | |
|---|---|
| 5 | Assessed Value and Estimated Actual Value of Taxable Property |
| 6 | Property Tax Rates - Direct and Overlapping Governments |
| 7 | Principal Property Taxpayers |
| 8 | Property Tax Levies and Collections |

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

- | | |
|-----|--|
| 9 | Ratios of Outstanding Debt by Type |
| 10 | Ratios of General Bonded Debt Outstanding |
| 11 | Direct and Overlapping Governmental Activities Debt |
| 12a | Legal Debt Margin Information - Computation of Legal Debt Margin |
| 12b | Legal Debt Margin Information - Historical |
| 13 | Pledged-Revenue Coverage |

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment with which the City's financial activities take place.

- | | |
|----|-------------------------------------|
| 14 | Demographic and Economic Statistics |
| 15 | Principal Employers |

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information the government's financial report relates to the services the government provides and the activities it performs.

- | | |
|----|--|
| 16 | Full-time Equivalent City Government Employees by Function |
| 17 | Operating Indicators by Function |
| 18 | Capital Asset Statistics by Function |

Supplementary Schedules

These schedules contain additional supplementary information.

- 19 Schedule of Revenues and Expenditures for Activities Related to the State of Michigan Construction Code Act
- 20 Pension Plan - Revenues by Source and Expense by Type

Security and Exchange Commission (SEC) Additional Disclosures

These schedules provide additional disclosures to comply with the SEC rule 15c2-12 for continuing disclosures. The information in these schedules provides additional data not included elsewhere in the comprehensive annual financial report or statistical data.

- 21 *Taxable Value:*
 - Total Taxable Value
 - Taxable Value by Use and Class
 - Percent of Taxable Value by Use and Class
- 22 *State Equalized Value (SEV):*
 - Total SEV
 - SEV by Use and Class
 - Percent of Total SEV by Use and Class
- 23 Maximum and Actual Tax Rates
- 24 Revenue Sharing from the State of Michigan
- 25 Receipts from Michigan Transportation Fund
- 26 Labor Contracts
- 27 Employment Statistics
- 28 Water Supply Franchises
- 29 Approximate Number of Water Supply Customers by Location and User Classification
Approximate Number of Water Customers by Location and Size of Meter or Fire Protection Line/Hydrant
- 30
- 31 Water Supply Ready-to-Serve Charges by Meter Location and Size
- 32 Water Supply Commodity Charges by Meter Location and Classification
- 33 History of Water System Rate Increases
- 34 Water Supply Volume as Pumped and Billed
- 35 Water Volume as Billed by Meter Location and Classification
- 36 Average and Peak Daily Water Supply Volume
- 37 Water Supply Revenue as Billed by Meter Location and Classification
- 38 Ten Largest Water Customers by Volume and Revenue
- 39 Wastewater Service Agreements
- 40 Approximate Number of Wastewater Customers by Location and User Classification
- 41 Number of Retail Customers by Meter Size
- 42 Wastewater Ready-to-Serve Charges by Water Meter Location and Size
- 43 Wastewater Treatment Charges by Customer Classification
- 44 Wastewater Treatment Volume as Billed by Customer and User Classification
- 45 Wastewater Volume as Treated and Billed
- 46 Average and Peak Daily Wastewater Treatment Volume
- 47 Ten Largest Wastewater Customers by Wastewater System Revenue and Volume as Billed
- 48 Wastewater Treatment Revenue as Billed by Meter Location and Classification
- 49 History of Wastewater System Rate Increases

Note: Unless otherwise noted, the information on these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: City of Kalamazoo, Management Services Department, Assessor Division

Note: Property in the city is reassessed annually. State statute requires all taxable property to be assessed at 50% of the market value, except certain facilities which are granted exemption certificates under Act 198, Public Acts of Michigan. This Act was designed to provide a stimulus in the form of tax incentives to industrial and commercial enterprises to renovate and expand aging facilities and to build new facilities. However, Proposal A limits the increase of the taxable value to 5% or the Consumer Price Index, whichever is lower. The rates are per \$1,000 of assessed value.

(A) Taxable values include adjustments to the final adopted assessment roll due to Tax Tribunal Judgments, Board of Review decisions and other adjustments affecting the assessment roll or the tax levy as of December 31, 2006. These values do not reflect adjustment for real estate taxes cancelled through foreclosure, or personal property taxes cancelled by the Circuit Court. These adjustments increased the 2006 roll by \$693,581.

Note: Overlapping rates are those of local and county governments that apply to property owners within the City of Kalamazoo. Not all overlapping rates apply to all City of Kalamazoo property owners (e.g., the rates for special districts apply only to the proportion of the city's property owners whose property is located within the geographic boundaries of the special district). Tax rates are expressed as a dollar for each \$1,000 of taxable property value.

- (A) The City's Downtown Development Authority levies an additional \$1.9638 for each \$1,000 of Taxable Value within the City's Downtown Development District
- (B) Kalamazoo Public Schools is the largest school district within the City. Portions of other school districts overlap the City's boundaries. Of those which do, the millage rates for the fiscal year ended December 31, 2007 ranged from \$20.7000 to 25.0000 for each \$1,000 of Taxable Value. The total tax rates for property owners in these other school districts would differ accordingly.
- (C) Homestead means a dwelling or unit in a multiple-unit dwelling subject to ad valorem property taxes that is owned and occupied as a principal residence by the owner of the dwelling or entity. Homestead also includes certain agricultural property, registered life care facilities, and property owned by a cooperative housing corporation and occupied as a Homestead.

Sources: City of Kalamazoo, Management Services Department, Accounting Division
Municipal Advisory Council of Michigan.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Kalamazoo. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden born by the residents and businesses should be taken into account. However, this does not imply that every tax payer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(A) Self-Supporting debt obligations are to be repaid through sources other than the City's general property tax revenues.

Debt Obligations of the Primary Government (B)	\$ 85,217,000
Less debt not subject to limitation:	
Water System and Wastewater System Revenue Bonds	(24,215,000)
Michigan Transportation Fund Bonds	(12,480,000)
Special Assessment Bonds	(285,000)
	<u>(36,980,000)</u>
Total Debt of the City Subject to Limitation	48,237,000
	<u>48,237,000</u>
LEGAL DEBT MARGIN	\$ 147,741,550
	<u>147,741,550</u>

Note: Under Michigan Home Rule Cities Act, the City of Kalamazoo's outstanding general obligation debt should not exceed 10 percent of total assessed value of all real and personal property in the city.

Significant exceptions to the debt limitation have been permitted by the Home Rule Cities Act for certain types of indebtedness which include: special assessment bonds and Michigan transportation fund bonds; revenue bonds payable from revenues only; bonds issued or contract obligations assessments incurred to comply with an order of the Water Resources Commission of the State of Michigan; obligations incurred for water supply, sewage, drainage, or refuse disposal or resource recover projects necessary to protect public health; bonds issued, assessments, or contract obligations incurred for the construction, improvement, or replacement of a combined sewer overflow abatement facility.

(A) State equalized assessed property values are assessed at December 31, 2005 for the basis of the year ending December 31, 2006 tax levy. See supplemental Schedule of State Equalized Value at Table 22 for property value data.

(B) See the Schedule of Ratios of Outstanding Debt by Type at Table 9 for the outstanding debt of the primary government.

Per Capita Total Taxable Value for the Fiscal Year Ending December 31, 2007 (3)						\$ 22,045.71

Note: The taxable values represent starting taxable property values rendered by the March Board of Review. The taxable values above do not reflect final adjustments of the Tax Tribunal Judgments, Board of Review decisions, or other adjustments.

(1) Does not include the value of property located within the City's Renaissance Zone which was created pursuant to the provisions of Act 376 of the Michigan Public Acts of 1996, as amended ("Act 376"). Act 376 was designed to stimulate private investment within the Zone through the abatement of certain property, income, and business taxes. For the fiscal year ending December 31, 2007, the Taxable Value of the property located in the Zone totaled \$4,567,307.

(2) Abated taxable value is the equivalent taxable value of property granted tax abatement under Act 198.

(3) Based on the City's 2000 census of 77,145

Source: City of Kalamazoo, Public Services Department, Water Division

- (1) Measured in Cubic Meters
- (2) Unaccounted water volume is due primarily to the flushing of lines, pressure releases during routine maintenance and, to a diminishing degree, line loss and slow meters. As part of its quality control efforts, the City routinely flushes transmission lines.
- (3) From 2000 to 2002 the number of main breaks averaged approximately 78 per year. In 2003, the number of main breaks totaled 103, an increase of 32.1% over the average. The unusually large number of breaks attributed to the higher percentage of unaccounted water for the year.

Source: City of Kalamazoo, Public Services Department, Wastewater Division

- (1) Per cubic meter
- (2) Since the City of Galesburg does not have a master meter, the wastewater treatment charge is adjusted for the cost of infiltration and inflow, which is water other than wastewater entering the System.
- (3) Rate change effective July 1, 2001.
- (4) Rate change effective April 30, 2004.
- (5) Rate change effective July 1, 2007.

Source: City of Kalamazoo, Public Services Department, Wastewater Division

(1) Measured in Cubic Meters.

(2) The difference between the wastewater volume as treated and billed is due, in part, to slow meters and infiltration and inflow which is water other than wastewater that enters the System.
