Independent Auditors' Report

Board of Trustees
Greater Lapeer County Utilities Authority
County of Lapeer
State of Michigan

We have audited the statement of net assets of the Greater Lapeer County Utilities Authority as of June 30, 2007 and 2006 and the related statements of revenue, expenses and changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the Greater Lapeer County Utilities Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Greater Lapeer County Utilities Authority at June 30, 2007 and 2006, and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The Authority has not presented Management's Discussion and Analysis, which accounting principles generally accepted in the United States of America have determined is necessary to supplement, although not required to be part of, the basic financial statements.

Yeo & Yeo, P.C.

Greater Lapeer County Utilities Authority
Notes to Financial Statements
June 30, 2007

Note 1 – Description of the Entity

The Greater Lapeer County Utilities Authority was created to facilitate water services for municipalities in Lapeer County.

Note 2 – Summary of Significant Accounting Policies

The accounting policies of the Greater Lapeer Utilities Authority conform to accounting principles generally accepted in the United States of America applicable to state and local governmental units. As allowed by Government Accounting Standards Board (GASB) Statement No. 20, the Authority has not elected to apply FASB statements and interpretations issued after November 30, 1989 to its financial statements.

The following significant policies were applied in the preparation of the accompanying financial statements:

(a) The Reporting Entity

In accordance with the provision of GASB Statement 14, certain other governmental organizations are not considered to be part of the Utilities Authority entity for financial reporting purposes. The criteria established by GASB for determining the various governmental organizations to be included in the reporting entity's financial statements include oversight responsibility, scope of public service, and special financing relationships. On this basis, the financial statements of the various governmental organizations participating in the Authority are not included in the financial statements of the Utilities Authority.

(b) Basis of Presentation

The financial activities of the Authority are recorded within one fund, categorized and described as follows:

Proprietary Fund

Enterprise Fund – The enterprise fund reports operations that provide services, which are financed primarily by user charges.

The accrual basis of accounting is used to record transactions.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly actual results could differ from the estimates.

(c) Cash

For the purpose of the statement of cash flows, all highly liquid investments with a maturity of 90 days or less when purchased are considered to be cash.

Greater Lapeer County Utilities Authority
Notes to Financial Statements
June 30, 2007

(d) **Due from Other Governmental Units**

Due from other governmental units have been recognized for all significant amounts due to the Authority. Allowances for uncollectible accounts have not been provided because management does not consider collection doubtful, and feels that uncollected amounts would be immaterial.

Note 3 – Deposits

At year end, the Authority's deposits were reported in the basic financial statements in the following categories:

Business-type activities	<u>\$ 62,675</u>
--------------------------	------------------

Interest rate risk – In accordance with its investment policy, the Authority manages its exposure to declines in fair values by limiting the maturity of its investments within each investment category.

Credit risk – State statutes and the Authority's investment policy authorize the Authority to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have an office in Michigan; the Authority is allowed to invest in U.S. Treasury or Agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles.

Concentration of credit risk – The Authority's investment policy establishes limits on the amount of investment in any one issuer within each investment category as well as within the investment portfolio as a whole.

Custodial credit risk – deposits – In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority does not have a deposit policy for custodial credit risk. The carrying amount of the Authority's deposits with financial institutions as of June 30, 2007 was \$62,675 all of which was cash. The actual bank balances amounted to \$62,675 and was totally insured through the FDIC.
