INDEPENDENT AUDITORS' REPORT

Honorable Board of Trustees:

We have audited the accompanying financial statements of the North Oakland County Fire Authority as of and for the year ended June 30, 2007. These financial statements are the responsibility of the Authority Board. Our responsibility is to express an opinion on these financial statements based on the audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the government activities of the North Oakland County Fire Authority, as of June 30, 2007, and the respective changes in financial position and cash flows, where applicable, thereof for the year end in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and other required supplementary information on pages 6 - 9 and pages 28 and 29 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the North Oakland County Fire Authority's basic financial statements. The accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information, such as the combining statements and individual fund statements, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management Discussion and Analysis
June 30, 2007

Within this section of the North Oakland County Fire Authority's annual financial report, the Authority's management is providing a narrative discussion and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2007. This narrative discusses and analyzes the activity within the context of the accompanying financial statements and disclosures following this section. The discussion focuses on the Authority's primary government and, unless otherwise noted, component units reported separately from the primary government are not included.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the Authority's basic financial statements. The basic financial statements include government-wide financial statements, fund financial statements, and notes to the financial statements. The Authority also includes in this report additional information to supplement the basic financial statements.

Government-Wide Financial Statements

The Authority's annual reports include two government-wide financial statements. These statements provide both long-term and short-term information about the Authority's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the Statement of Net Assets. This is the Authority-wide statement of position presenting information that includes all the Authority's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority as a whole is improving or deteriorating. Evaluation of the overall health of the Authority may extend to various non-financial factors as well.

The second government-wide statement is the Statement of Activities which reports how the Authority's net assets changed during the current fiscal year. The design of this statement is intended to show the financial reliance of the Authority's distinct activities or functions on the revenues generated by the Authority.

Both government-wide financial statements distinguish governmental activities of the Authority that are intended to recover all or a significant portion of their costs through user fees and charges or by taxes collected. The Authority's financial reporting includes all the funds of the Authority and, additionally, organizations for which the Authority is accountable.

Fund Financial Statements

A fund is an accountable unit used to maintain control over resources segregated for specific activities or objectives. The Authority uses funds to ensure and demonstrate compliance with finance-related laws and regulations.

The Authority has one type of fund, governmental fund. *Governmental funds* are reported in the financial statements and encompass essentially the same functions as governmental activities in the government-wide financial statements except with a different focus on the financial activity. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of these resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term. Since the focus of the government-wide financial statements includes a long-term view, a reconciliation of these fund balances has been completed to detail its relation to net assets.

Notes to the financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of both the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Other supplementary information includes detail by fund for receivables, payables, transfers, and payments within the reporting entity.

Financial Analysis of the Authority as a Whole

The Authority's net assets at the end of the fiscal year were \$1,615,336. This is a \$243,086 increase from the prior fiscal year.

The following tables provide a summary of the Authority's financial activities and changes in net assets:

Changes in Financial Status and Analysis of Authority's Funds

The Authority increased its fund balance in its two governmental funds by \$169,627. These two major funds, General Fund and Capital Replacement Fund, account for all the fire protection services of the Authority. The substantial increase in the fund balance for the current year is consistent with the prior year's activity. The member Townships increased contributions in order to fund future capital replacement of the Authority.

Budgetary Highlights

The Authority's budget was adopted prior to the commencement of the fiscal year. During the year, the Authority made amendments to this budget to account for the federal grant funds received/spent during the fiscal year, and transfers made to the Capital Replacement Fund.

Capital Asset and Debt Administration

The Authority acquired \$144,744 of new assets during the fiscal year. These new assets purchased include a new utility truck and various firefighting equipment over its \$5,000 capitalization threshold. The Authority issued \$39,226 of capital lease debt to purchase the new truck, financing it over a three year period. Much of the capital asset purchases were due to its participation in a FEMA grant.

A total of \$66,080 of principal was paid to reduce the Authority's capital lease debt to \$139,235 at June 30, 2007.

Economic Conditions and Future Activities

Future operations will be primarily funded by taxes and special assessments. Rose Township levies a separate fire millage and Holly Township levies a fire special assessment of real property only. Each Township collects its related taxes and assessments and makes contributions to the Authority as budgeted. This process is expected to continue into the next fiscal period.

Contacting the Authority's Financial Management

This report is designed to provide a general overview of the Authority's financial position and comply with finance related regulations. If you have any further questions about this report or request additional information please contact the North Oakland County Fire Authority at P.O. Box 129, Holly, MI 48442.

NOTES
TO
FINANCIAL
STATEMENTS

NORTH OAKLAND COUNTY FIRE AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The North Oakland County Fire Authority was organized under Public Act 33, of the Public Acts of 1951, as amended. The Authority approved a fiscal year-end date of June 30. The purpose of the Authority is to provide fire protection and other emergency health and safety services. The governing board of the Authority is made up of five board members. Four of those board members come from the following incorporating municipalities:

- Rose Township
- Holly Township

The fifth board member is a citizen at large agreed upon by both incorporating municipalities.

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 39 "The Financial Reporting Entity", these financial statements present all activities of the Authority. There are no component units of the Authority using the criteria established by the GASB for determining the reporting entity.

B. BASIC FINANCIAL STATEMENTS

In accordance with GASB Statement No. 34 - *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, the basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (Statement of net Assets and Statement of Activities) report on the Authority as a whole. All activities are reported in the government-wide financial statements using the economic resources measurement focus and the accrual basis of accounting, which includes long-term assets and receivables as well as long-term debt and obligations. The government-wide financial statements focus more on the sustainability of the Authority as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

The government-wide Statement of Net Assets reports all financial and capital resources of the Authority. It is displayed in a format of assets less liabilities equals net assets, with the assets and liabilities shown in order of their relative liquidity.

NORTH OAKLAND COUNTY FIRE AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The government-wide Statement of Activities demonstrates the degree to which both direct and indirect expenses of the various functions and programs of the Authority are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity. Indirect expenses for administrative overhead are allocated among the functions and activities using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. Program revenues include: 1) charges to customers or users who purchase, use or directly benefit from goods, services or privileges provided by a particular function or program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes, unrestricted investment income and other revenues not identifiable with particular functions or programs are included as general revenues. The general revenues support the net costs of the functions and programs not covered by program revenues.

Included in the basic financial statements are fund financial statements for the governmental funds. The focus of the fund financial statements is major funds, as defined by GASB Statement No. 34. Although this reporting model sets forth minimum criteria for determination of major funds (a percentage of assets, liabilities, revenues, or expenditures of fund category and of the governmental funds combined), it also gives governments the option of displaying other funds as major funds. Other non-major funds are combined in a single column on the fund financial statements.

The Authority reports the following major governmental funds:

The General Fund is the Authority's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Capital Reserve Equipment Fund accounts for the activity associated with the acquisition of capital assets. This fund is supported by the General Fund transfers.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The governmental fund financial statements are prepared with a focus on current financial resources measurement using the modified accrual basis of accounting. To conform to the modified accrual basis of accounting, certain revisions are made to the accrual method. These modifications are outlined below:

1. Revenue is recorded when it becomes both measurable and available (received within 60 days after year-end). Revenue considered susceptible to accrual includes: property taxes, sales and use taxes, transient occupancy taxes, licenses, fees and permits, intergovernmental revenues (including motor vehicle license fees), charges for services, fines, forfeits and penalties, and interest.
2. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

NORTH OAKLAND COUNTY FIRE AUTHORITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3. Disbursement for the purchase of capital assets providing future benefits are considered expenditures. Any bond, loan, or capital lease proceeds are reported as another financing source.

With this measurement focus, operating statements present increases and decreases in net current assets and unreserved fund balance as a measure of available spendable resources.

This is the traditional basis of accounting used for governmental funds and is also the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to: 1) demonstrate legal and covenant compliance, 2) demonstrate the sources and uses of liquid resources, and 3) demonstrate how the Authority's actual revenues and expenditures conform to the annual budget. Since the governmental funds financial statements are presented on a different basis than the governmental activities column of the government-wide financial statements, a reconciliation is provided immediately following each fund statement. These reconciliations briefly explain the adjustments necessary to transform the fund financial statements into the governmental activities column of the government-wide financial statements.

D. CAPITAL ASSETS

Under GASB Statement No. 34, all capital assets are recorded and depreciated in the government-wide financial statements. No long-term capital assets or depreciation are shown in the governmental funds' financial statements.

Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life greater than one year. Capital assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

E. MANAGEMENT ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NORTH OAKLAND COUNTY FIRE AUTHORITY
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. BUDGETS

The General and Capital Reserve Funds annual operating budget was developed using the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America. The budget can be amended by approval from the Authority's Board and the member municipalities. The budget amounts shown in the financial statements are the final authorized amounts as revised during the year. All annual appropriations lapse at the fiscal year end. The Authority's actual expenditures for capital outlay and general operating expenditures exceeded appropriations.

G. RISK MANAGEMENT

The Authority is exposed to various risks of loss pertaining to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Authority has purchased commercial insurance for these claims. Settled claims related to the commercial insurance have not exceeded the amount of insurance coverage.

H. ACCRUED COMPENSATED ABSENCES

The Authority has not recorded a liability for compensated absences of the fire department. The policies regarding compensated absences are outlined in the Authority's "Rules of Employment".

NOTE 2 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2007 was as follows:

	<u>Balance at</u> <u>7-1-06</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance at</u> <u>6-30-07</u>
Equipment	\$ 85,772	\$ 65,087	\$	\$ 150,859

Capital assets, net	<u>\$ 954,402</u>	<u>\$ 46,605</u>	<u>\$ </u>	<u>\$1,001,007</u>

Depreciation expense is being recorded solely for fire protection services. The Authority utilizes the straight line method to depreciate capital assets over their estimated useful lives. Total depreciation was \$98,139 for the year ended June 30, 2007.

There was \$139,235 of capital lease debt associated with these assets.

 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JUNE 30, 2007

NOTE 3 - CAPITAL LEASES PAYABLE

The Authority has the following capital lease debt:

1. The Authority has entered into a capital lease with The State Bank to finance the purchase of a 2005 Crimson Pumper. The lease calls for annual payments of \$52,524 with an interest rate of 3.35%. The lease expires during the year ended June 30, 2009.
2. The Authority has entered into a capital lease with The State Bank to finance the purchase of a 2005 Ford F-250 Utility truck. The lease calls for annual payments of \$9,873 with an interest rate of 4.45%. The lease was paid off during the year ended June 30, 2007.
3. The Authority has entered into a capital lease with The State Bank to finance the purchase of a 2007 Chevrolet Utility Truck for the fire chief. The lease calls for annual payments of \$13,709 with an interest rate of 4.45%. The lease expires during the year ended June 30, 2010.

NOTE 4 - LEASE AGREEMENTS - (BUILDINGS) AND CONSTRUCTION OF NEW BUILDING

The Authority operates its fire protection services from three fire stations. Two of the three fire stations are owned individually by the members of the Authority, Rose and Holly Townships. The Authority leases the two fire stations for a \$1 per year per station. The third station is owned by the Village of Holly, a prior member. The Authority also leases this station for a \$1 per year from the Village. The three lease agreements expire October 31, 2009. Management believes the lease with the Village of Holly will not be renewed.

The Authority has begun planning for the purchase - construction of a new fire station to replace the station owned by the Village of Holly. Costs paid through June 30, 2007 toward the new fire hall amounted to \$23,451.

NOTE 5 - EMPLOYEE RETIREMENT PLAN

The Authority's fire chief participates in the Township of Holly's defined contribution plan. This is a single-employer plan with the fire chief being the only class of employee allowed to participate. The Authority is required to contribute 10% of the employee's gross salaried wages. Contribution information is as follows:

TOTAL CURRENT YEAR EMPLOYER CONTRIBUTIONS	<u>\$ 6.993</u>
---	-----------------

This balance reflects contributions for the period from July 1, 2006 to June 30, 2007.

NOTE 6 - DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the Authority to deposit and invest in the accounts of federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers; acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan. The Authority deposits are in accordance with statutory authority. The Authority maintains an imprest petty cash balance of \$100.

The Governmental Accounting Standards Board Statement No. 3 risk disclosures for the Authority's deposits are as follows:

NOTE 7 - DESIGNATED FUND BALANCE

As of June 30, 2007 there was a total of \$345,626 of fund balance that was designated for future capital improvements. This designated fund balance is recorded in the Capital Replacement Fund and has accumulated due to transfers made from the Authority's General Fund.

NOTE 8 - FEDERAL GRANT ACTIVITIES

The Authority has received two federal grants from the United States Department of Homeland Security. The total amount awarded was \$260,314. The Authority must match an additional \$13,016 as its required 5% match. Through June 30, 2007 the Authority spent the entire amount required for these two grant programs. The funds received from the United States Department of Homeland Security are subject to all federal grant audit requirements. There has been a federal audit on the funds through the report date of these financial statements, but are subject to future audit considerations.

NOTE 9 - INTERFUND TRANSFERS

The transfers from the General Fund to the Capital Replacement Fund represent the use of unrestricted resources to finance future capital asset acquisitions, in accordance with budgetary authorizations.

Board of Trustees
North Oakland County Fire Authority
P O Box 129
Holly, Michigan 48442

Honorable Board of Trustees:

In planning and performing our audit of the financial statements of North Oakland County Fire Authority for the year ended June 30, 2007, we came across some items which we are bringing to your attention for discussion at the audit presentation. Those items are as follows:

1. INSURANCE CERTIFICATES

We noticed while reviewing the insurance files that certificates from contractors working on the Authority's premises were not provided for workers compensation and (or) liability. In the future, certificates should be requested from all contractors that work on Authority premises to help with avoiding future liability issues.

2. PAID INVOICES

We noticed several paid invoices did not have a signature of the individual approving the receipt of goods or services. We suggest the chief sign all invoices he believes should be paid based on receipt of goods or services.

3. COMMUNICATION OF SIGNIFICANT DEFICIENCIES AND MATERIAL WEAKNESSES

In planning and performing our audit of the financial statements of the governmental activities of North Oakland County Fire Authority as of and for the year ended June 30, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered North Oakland County Fire Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the North Oakland County Fire Authority's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies or material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's or detected by the entity's internal control.

We consider the following to be a material weakness of the Authority:

- Journal entries were required during the audit to ensure the financial statement presentation was in conformity with generally accepted accounting principals. It should be noted that a number of these journal entries were related to transactions that were unusual and infrequent in nature. The entries also include those required for the full-accrual presentation of the government-wide statements.

We would like to thank the Authority's staff and management for the cooperation and assistance provided during the audit. If you should have any questions, comments or concerns please let us know.

Pfeffer, Hanniford & Palka, P.C.
