

Broadband Map Survey Instructions

PA 660 of 2018, commonly known as Assessing Reform states:

(a) If a city or township building within the assessing district is in an area with broadband internet access, [the local unit must] provide taxpayers online access to information regarding its assessment services, including, but not limited to, parcel information, land value studies and documentation, and economic condition factors. As used in this subdivision, “area with broadband internet access” means an area determined by the connect Michigan broadband service industry survey to be served by fixed terrestrial service with advertised speeds of at least 25 megabits per second downstream and 3 megabits per second upstream in the most recent survey available.

To identify the available broadband internet access speeds available to your local unit, please follow the steps below:

- Go to connectmi.org
- On “Residents” tab, go down to and click on “Broadband Coverage Maps”
- Scroll down to and click on “Interactive Map”
- Or use the link: [The Michigan Broadband Map \(connectednation.org\)](http://connectednation.org)
- Agree to terms
- In the Location box, enter the physical address of the assessing district’s main place of business used for municipal operations

Locate Provider(s) by Address (≥ 10M/1M)

Provider Details

Select a location below by inputting an address, using your current location, or dropping a pin on the map.

Incorrect information? [Let us know](#)

- The Location box now includes a scroll down list of providers. Any providers using the platforms of Satellite or Mobile do not count as they are not “fixed terrestrial service”. The “Voice” platform is for telecommunications and does not apply. The platforms of Cable, Fiber, DSL or Fixed Wireless are considered “fixed terrestrial service”.

- Any Cable, Fiber, DSL or Fixed Wireless platform provider showing a Max Download speed of at least 25 **and** a Max Upload speed of at least 3 falls under the requirement made in statute.
