

**State Tax Commission March 26, 2010 Tip**  
**Topic: Michigan Tax Tribunal Orders**

Dear STaCy;

I just finished approximately 50 corrected final opinions where the referees did not receive up to date property assessment/ taxable value information and the assessor's after receiving the final orders then request that the information be corrected. We are having a huge issue with the assessor's remembering that subsequent years are automatically added and including or updating the values so that we don't have the additional paperwork.

Is there something that can be done to remind the assessor's?

Sincerely,  
Overworked Tribunal Judge

Dear Overworked:

I think you just did!!! Very well stated.

Sincerely,  
STaCy
