Employers with 5 or Fewer Employees Now Required to File UIA Quarterly Tax Reports Online

Beginning with the first quarter 2015, all employers, regardless of the number of employees, are required to file their quarterly wage and tax reports with the UIA electronically. This means the paper Form UIA 1028, Employer's Quarterly Tax/Payroll Report, will no longer be accepted by the UIA and will no longer be available by mail or online. If an employer sends in a quarterly report in paper form, it will not be recognized by the Agency. The report will not be processed, nor will it be returned to the employer. As

a result, financial penalties will begin to accrue as appropriate. If a payment was received with the tax report, it will be deposited and applied as a 'loose' payment to the employers account. A 'loose' payment will post to the oldest open debt on the employers account.

This electronic filing requirement came with the amendments that were made to the Michigan Employment Security Act in 2011 (P.A. 269). The ability to file electronically has been in place since 2013 and has proven to be significantly more convenient and efficient for employers. This service is part of the Agency's on-going efforts to improve service and create efficiencies for both claimants and employers, including paperwork reduction and more timely and convenient interaction with the UIA for account management.

Filing reports online is simple and convenient and can only be done through the UIA's Michigan Web Account Manager (MiWAM). MiWAM also offers many other convenient and helpful features for managing your UIA tax account such as scheduling or making payments, responding to fact finding inquiries, filing UIA tax protests, viewing notices and letters from the Agency and more.
