**Workers' Compensation Agency**

# 2012 WEEKLY BENEFIT TABLES

(Based on 80% of after-tax average weekly wage)

The following tables are provided in accordance with Section 418.313(2) of the Worker's Disability Compensation Act, which states that the director shall publish tables of the average weekly wage and 80% after-tax average weekly wage. These tables shall be considered conclusive for the purposes of determining the 2012 weekly compensation rates and the 80% after-tax amount of benefits subject to coordination under Section 418.354.

The 2012 maximum weekly compensation rate is \$ 775.00 based on a State Average Weekly Wage of \$ 860.34.

## DIRECTIONS

1. Find the employee's average gross weekly wage in either the right or left column.
2. Determine the employee's tax filing status. There are four statuses provided: single; married filing jointly; single head of household; and married filing separately. Determination of the correct filing status shall be based on the employee's status **on the date of injury** and the eligibility criteria for filing status used for federal income tax purposes. Because the election of filing status is discretionary to the taxpayer, care must be taken in applying the married separate filing status. A carrier should have sufficient evidence of the appropriateness of this determination or prior agreement of the injured employee. It is recommended that only the single and married filing jointly statuses be applied unilaterally by the carrier.
3. Determine the employee's number of dependents. NOTE: Deduct one dependent for death cases. Example: A decedent with three dependents would be represented in the "two" dependency column.
4. Match the appropriate average weekly wage and filing status with the appropriate number of dependents.
5. The figure shown is the weekly compensation rate and represents 80% of after-tax average weekly wage.
6. To compute partial compensation benefits for dates of injury on or after January 1, 1982, apply the following tables to the average weekly wage before and after the injury. The difference is the partial compensation rate. (See Section 418.361 of the Worker's Disability Compensation Act.)
7. These tables include deductions for FICA and state income tax. The WCA calculation program can be used to calculate benefits subject to coordination pursuant to Section 354 of the Worker's Disability Compensation Act that are not subject to those taxes.

**NOTE: The 2012 maximum weekly compensation rate is \$ 775.00. All weekly compensation rates indicated in the table are subject to this maximum.**
