This closure is expected to be permanent and will affect all employees in the production operations at the Associated Spring - Saline facility.

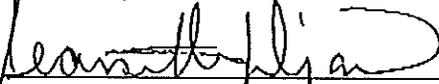

All affected employees have been notified of separation date and that their separation from employment will be permanent. Those employees are expected to be separated from employment on May 30, 2014 or within 14-days thereafter.

The attached is a list of the job titles of the affected positions and number of individuals who will be affected in each job classification, along with the expected date of the first job loss and anticipated schedule for job losses.
