

# GOVERNOR GRETCHEN WHITMER

## BUILDING THE FUTURE OF MOBILITY

Governor Whitmer is ensuring Michigan lives up its legacy as the place that put the world on wheels by creating over 15,000 good-paying auto jobs, investing in the future of mobility and electrification, and cementing Michigan's status as a global manufacturing leader. Michigan continues to lead the world in the automotive space, receiving multiple awards for our manufacturing capabilities and potential. Michigan's Big Three automakers are following Governor Whitmer's vision to make Michigan a leader in the mobility and electrification space by making an industry-wide pivot to electric vehicles, constructing and revamping massive factories, and creating thousands of good-paying, high-skill jobs right here in Michigan. Governor Whitmer also created the Office of Future Mobility and Electrification to quarterback Michigan's strategic efforts to lead the next century of auto manufacturing.

### CREATED OVER 15,000 AUTO JOBS AND COUNTING

- Fiat Chrysler announced the first new assembly plant in Detroit in 30 years.
- Ford Motor Company announced production of the first-ever full electric F-150.
- GM announced a \$2.2 billion investment in the Detroit-Hamtramck Facility.
- 4,000 more jobs in automotive manufacturing, mobility, and electrification

*"In Michigan, where the health of our workers and our economy are directly tied to the health of our auto industry, we will continue this innovative work to secure our state's position as the automotive capital of the world. We will continue engaging in forward-looking policies to remain on the cutting edge of mobility and electrification growth in the state."*

- Governor Gretchen Whitmer

### ENSURED MICHIGAN CONTINUES TO BE A WORLD LEADER IN AUTO JOBS AND FUTURE MOBILITY

- Created the Office of Future Mobility and Electrification to coordinate all auto and mobility-related initiatives across state government, including economic development, workforce development, and infrastructure, to secure Michigan's status as a global leader in autonomous, connected, electric, and shared future mobility.
- Invested \$45 million in electric vehicle charging infrastructure to build up Michigan's charging infrastructure network to over 700 electric vehicle charging stations.
- Announced CAVNUE, a first-of-its-kind corridor for connected and autonomous vehicles designed to improve transportation for communities in Southeast Michigan.
- Announced Smart Parking Lab to help mobility, smart infrastructure pioneers, real-estate innovators, and startups to test parking-related mobility, logistics and electric vehicle charging technologies.
