## **Legislative Report: State Contracting with Businesses Owned by Persons with Disabilities, FY 2020**

The Business Opportunity Act for Persons with Disabilities (1988 PA 112 as amended) sets a goal of awarding 3 percent of state expenditures to persons-with-disabilities-owned business enterprises (PWDBEs).

In FY 2020, contract dollars awarded to all businesses owned by people with disabilities as a percentage of expenditures for construction, goods, and services totaled 2.27%. The goal to “award each year to businesses owned by persons with disabilities not less than 150 percent of the actual expenditures it awarded to businesses owned by persons with disabilities in the preceding year” was not achieved.

- Actual value of contract awards totaled \$67,667,188
- Payments against contract awards totaled \$69,328,188
- 36 PWDBEs submitted bids and 40 entered into contracts

DTMB recommends that outreach efforts to the disability-owned business community identified in the Business Opportunity Act for Persons with Disabilities continue and that the goal remains the same.
