# ITEM NO 1 SPEC NO C03-2001CD-23 9 FOOT DUMP BODY WITH FOLD DOWN SIDES, ELECTRIC OVER HYDRAULIC SYSTEM MOUNTED ON A DUAL REAR WHEEL CAB & CHASSIS SUPPLIED BY MDOT

# Quote no DQO004394

## Install 9' Crysteel E-Tipper dump body including the following:

14" fold down sides, 20" quick drop tailgate

Both sides and tailgate include sigle lver control latch assembly

Western tubular understructure constructed of 10 ga hi tenside A1011 steel

Front and tailgate are constructed of 10 ga A1011 steel

Sides are constructed of 12 ga A1011 steel

Floor is constructed of7 ga A1011 steel

Body includes a ¼ cab shield

Crysteel LB510 under body hoist with 12 volt electric/ hydraulic pump

Install rubber bumper stops for fold down sides

Install proximity switch for body up light on dash

Install flaps behind rear tires

Paint body to match the cab

## Install custom lighting including the following

Install sound off EMPS20V38-P led amber/green flasher lights in rear pillar posts Install sound off led stt lights in rear pillars Install mounting brackets on each side of the tarp head for round flashers Install two sound off amber/ green led flashers part no emrbc003sq on top of the tarp head Sync all lights to mdot pattern Install led marker lights 2/4 hitch plate at the rear with reese type receiver including the following

## Install 3/4 hitch plate at the rear with reese type receiver including the following

Install 2.5" receiver tube

Hitch mounted at 17" to the bottom of the plate

Remount oem tail lights in rear hitch plate

Install ¾" d rings

Install 7 way round plug as per mdot specifications

Install eyelett for breakaway cable at rear hitch

Install ICC bumper

## Install go light on the roof of the cab

## Items included our proposal not included in the Specifications include the following:

Install conspicuity tape on the side of the cab and the side of the dump

Include conspicuity tape on the bottom of the tailgate

Include berg junction box at the rear of the chassis for wire termination and extensions.

Installed \$18,665.00

### 3286 Hanna Lake Ind. Park Dr. Dutton, Mi. 49316 Phone 616-698-8215, Fax 616-698-0972

### Options 1

## Note: This option will require a CA of 84" on the chassis

Install 84" long x 24" wide x 26 tall stainless steel cross back pack box between the front of the dump and the back of the cab.

Cross box includes swing open doors with gas shock hold opens on the doors

Doors include bulb type door seals

Doors include Rotary paddle handles with locks

A shelf is installed inside the box and is centered inside the tool box

Cross box is constructed of 14 ga. type 304 unpainted stainless steel

Doors are constructed of 13 ga type 304 unpainted stainless steel

## Add \$6,102.00

## Option 2

Install electronic brake controller in the cab and wire to the trailer plug at the rear Add \$255.00

Install PH20- 20 ton pintle hook Add \$ 78.00

# Item no 7 Spec no C04-OSDS-23 Quote no DQO004403,

Install Tesco model scissor lift model 8-14 including the following: 16,000 lbs lift capacity Front and rear articulating out riggers Controls for Outrigger on each side of the chassis Alarms on each outrigger 14 ft height at maximum elevation Controls mounted on both the ground level and ton the front of the flatbed bulkhead No dumping capability Install mudflaps at the rear- mount to the chassis Install backup alarm

Install 16 ft structural flatbed including the following 4" structural cross members on 12" centers 3/16" treadplate floor Tubular outside rail with exterior pockets 40" steel city stake sides painted orange Led marker lights Install inward swinging side gate on the curb side of the stake racks Install fold down ladder below the swing gate

Build custom cab shield including the following
2.5" perimeter square tubing framework
Expanded metal decking- Use 1.5" no 6 expanded metal
Cab guard extends on both the cab and the hood and includes a mounting bracket behind the cab
Front supports include a structural front bumper the supports installed at outside corners to facilitate opening of the hood while supporting the cab guard.
Cab guard includes marker light kit at the front corners
Cab guard is painted orange

Install central hydraulic system including the following : Install Bosch 1 section 1m4-12 control valve with 4 way section. Hot shifted pto with direct mounted piston pump pump model txv-92 Mount pto on the right side of the transmission System includes side of frame mounted hydraulic tank with a filter Hydraulic outrigger controls on each side of the flatbed Safety pto lockout wired to parking brake

Install custom lighting including the following : One sound off amber/green mini light bar mounted below the cab guard on each side of the chassis- wire

rear flashers so they are sequenced and programmed for mdot standard flash pattern-ENRMB000EN Install sound off 4" x 2" EMPS40V3A-P amber/green flashers mounted to the chassis on each side of the chassis at the rear.

Rear Flashers are ounted on the side of the frame in a poly light box Wire rear flashers so they are sequenced and programmed for standard mdot flash pattern . Install amber marker light on the front uprights of the cab guard

Install 3/4 hitch plate at the rear with 2-1/2" reese type receiver Hitch is multi drilled Hitch mounted at 17" to the bottom of the tube Remount OEM tail lights on outside of the frame Install d rings for safety chains Install 7 way round plug as per mdot specifications Install conspicuity tape on the side of the cab and the side of the flatbed install ICC bumper at the rear

Items included in out bid that are not included in the specifications

### Items included our proposal not included in the Specifications include the following:

Install conspicuity tape on the side of the cab and the side of the dump Include conspicuity tape on the bottom of the tailgate Include berg junction box at the rear of the chassis for wire termination and extensions. Engine start/Stop on the platform

Installed \$138,862.00

## **Option 1**

Install Boss model 8060 UBI rotary screw compressor including the following : Output capacity is 160 cfm Hot shifted pto Remote control mounted on the flatbed for compressor on/off Run air to the platform and equip with a ball valve shut off and a Chicago style coupler Install ground level air supply with ball valve shut off and chicago style coupler Compressor cooler will be mounted behind the rear axle Add \$23,730.00

# **Option 2**

Install inward swinging side gate on the curb side of the stake racks Install fold down ladder below the swing gate Add \$ 893.00

## Option 3

Install electronic brake controller in the cab and wire to the trailer plug at the rear Add \$255.00

3286 Hanna Lake Ind. Park Dr. Dutton, Mi. 49316 Phone 616-698-8215, Fax 616-698-0972

Option 4 Install PH20- 20 ton pintle hook Add \$ 78.00

Option 5 Install Hydraulic tool circuit at the ground and also on the elevating flatbed Includes hydraulic couplers Flow is valve adjustable from5-12 GPM Add \$1,857.00

Supply Vanair model Air N Arc 330D including the following: Note: This is a single generating system- not a 2 generator system. Single phase power only. Not 3 phase. 24.8 Kubota D902 diesel enigne Tier4 compliant High idle is 3600 RPM, low idle is 1700 RPM Includes 120 volt block heater 10 gal fuel reservoir Battery included Control panel includes the following: LCD display Dual 120V GFCI recpticles Single 240V, 50A receptacle -50A Ignition Switch Welder includes the following Lincoln Multi process DC Electric Welder w chopper technology CC (constant current) for Stick, gouging and Tig welding 35-330 amps CV (constant voltage) for Mig and FCAW 14-40 volts Generator includes the following: Lincoln Electric AC generator including the following 10,000 Watt continuous, 120/240 volts, 60HZ Single phase power Battery Boost includes the following: 330 amp, 12/24 volt DC boost 50 amp, 12 volt charge Air compressor includes the following: Vanair rotary screw compressor Output is 60CFM @100 PSI and 40 CFM @ 150 PSI Receiver tank included

## Base price for unit \$30,431.00

Options

Supply welder cable kit. Kit includes 1/0, X 25 ft cables with twist connections and the control panel Add \$ 388.00

Supply Battery jumper cables kit. Kit includes 2 ga , X 25 ft cables with quick connect ends Add \$ 284.00

Supply 200 hr service kit for the engine KIT1154-01, including air filter, oil filter, oil, fuel filter for both suction and supply lines, and 50 hr. air compressor kit model KIT1505. Add \$ 299.00

Supply Cover for Air N Arc 330D Add \$ 169.00

Install unit into a Utility body, pickup, or a van body including the following: Remote control panel Plumb fuel supply into a chassis supplied port on the fuel tank

## Installation \$2,658.00

**Warranty** -When following the prescribed maintenance schedule, the rotary screw compressor unit is warranted by Vanair<sup>®</sup> for the lifetime of the air end with adherence to the prescribed maintenance schedule, and all other major components are warranted for three (3) years. (NOTE: Engines are warranted separately by the engine manufacturer.) Batteries are warranted for one (1) year. Consumable products such as filters and electrodes are not covered. This warranty does not cover damage caused by accident, misuse or negligence. If the unit is disassembled the warranty is void.

#### FEATURES

- Direct Coupled Generator and Heavy Duty Belt Drive System for Compressor
- Machine Mounted or Remote Mount Control Panel for the Ultimate in User Convenience
- · Fuel System Integrated with the Chassis
- Latched Access Hood Panels with Lift-off Hinges
- Designed for Easy Maintenance
- 2-Point Lift Bail
- Will Mount on Side Pack, Behind Cab, or Under Box
- Powder Coated Galvannealed Steel Sheet Metal
- Brushless Electric Cooling Fan
- Vanair<sup>®</sup> High Brightness LCD Display
- Electronic Inlet Control for Smooth and Accurate Pressure
- Regulation
- Multiple Exhaust Configurations; Top and Rear

#### DIMENSIONS AND WEIGHT

- 47.5 L x 21.4 W x 25.6 H (in.) Footprint
- 48.2 L x 21.9 W x 27 H (in.) With Fittings
- 750 lbs. Dry Weight

#### AIR COMPRESSOR

- Vanair® Rotary Screw Compressor for Air-On-Demand
- 60 CFM @ 100 PSI (40 CFM @ 150 PSI), Up to 175 PSI
- Separate Receiver Tank Assembly
- Made in the USA

#### WELDER

- Lincoln Electric<sup>®</sup> Welder
- DC Multi-Process Arc Welder with Chopper Technology®

   CC (Stick, Gouging, and TIG) 35-330 Amps
   CV (MIG & FCAW) 14-40 Volts

#### GENERATOR

- Lincoln Electric® AC Generator
- 10,000W Continuous Output, 120/240V, 60Hz
- Single Phase
- AC, Brushed Generator
- Smooth Output for Minimal Distortion

#### BATTERY BOOST / CHARGER

- 330 AMP, 12V/24V Boost
- 50 AMP, 12V Charge

#### CHARGE BACK TO CHASSIS MODE

Up to 150 Amps

#### CONTROL PANEL

- Machine Mounted or Remote Mounted
- 4.3" Electronic LCD Display with Pushbuttons
- Bright Light Visibility
- Dual 120V, GFCI Receptacles
- Single 240V, 50A Receptacle
- Selector Knob for Easy Menu Navigation and Setting Adjustment, and Mode Selection
- Ignition Switch

#### COLD WEATHER PACKAGE

- Integrated 12V Weather Package
- 120V Engine Block Heater (Optional)

#### ENGINE

- 24.8HP Kubota® D902, 3 Cylinder Water Cooled Diesel Engine: - High Idle: 3600
  - Low Idle: 1700
  - Electronic Variable Speed
- Tier 4F Emission Compliant

#### **OPTIONS / ACCESSORIES**

- Welding Cables 25', 50'
- · Welding Helmet with Auto Darkening Lens
- Battery Booster Cables
- Cable Extensions
- Remote Fuel Tank
- Remote Air Tank
- Remote Condensation Drain
- Maintenance Kits
- Welding Rods
- 240V GFCI Kit Available
- 120V Engine Block Heater
- 1.5kW/3kW Inverter

# Summary of Utility Trailer Types

#### Small Utility Trailers

These are single axle trailers with big trailer features. They are designed for the homeowner who wants a commercial grade trailer in a small package. All of our small trailers include the same features and benefits of our larger trailers, as standard equipment. From tie downs to radial tires, quick lube axles to shrink tube wiring connections, there is no sacrifice with a small utility trailer from Integrity.

#### Car Hauler

These trailers are classic in design but with many of the features and benefits of other Integrity trailers. From hidden, stow-away ramps, to our paint matching system, these trailers will satisfy the most discriminating customer.

#### Standard Frame Landscape

These trailers are designed for the individual who has lighter equipment that is larger in size. For example, motorcycles, zero-turn mowers or four wheeled ATVs. These trailers offer many of the same features of our larger trailers, but in a lighter package.

#### **HD Commercial Landscape**

Our most popular line of trailers. They are designed for commercial landscapers and heavy equipment users. These trailers can be built for multiple applications, with GVW ratings up to 24,000 lbs. Because the trailer deck is between the tires, the maximum deck width is 84".

#### HD Deckover Landscape

Due to their unique 'deckover' design, these trailers offer the added benefit of deck widths up to 102". They're perfect for wide equipment, such as golf course fairway mowers, or tractors with wide implements. GVW ratings are available up to 24,000 lbs.

#### HD Tractor/Skid Steer

This open trailer is perfect for those hauling tractors, implements, and skid steers. Designed specifically for the grueling environments where the equipment is needed, these trailers have a low profile for easy loading, and full oak hardwood decking for long term durability. GVW ratings range from 9,900 lbs to 24,000 lbs.

#### Equipment Hauler

These heavy-duty trailers are designed for easier and safer loading of low profile equipment such as "Scissor" or "Man-Lifts." They are low to the ground with drop axles and knife blade ramps. Because the weight of the equipment is concentrated on small wheels, we build the trailers with heavy-duty, oak decking and additional frame supports. Finally, we install heavy-duty D-Ring tie downs to secure the equipment. Our standard size for this style trailer is 6' x 12'. Larger custom sizes are also available. GWW ratings are available up to 24,000 lbs.

# Robust and reliable with unique features for enhanced performance

- High-output light fixtures
- Telescoping tower rotates nearly 360 degrees
- Multiple low-speed engine options
- Heavy gauge all-steel body
- Unobstructed engine accessibility

Not just another light tower, Wanco Laydown Light Towers use state-of-the-art technology for superior illumination, shining a uniform light pattern across the entire job site and exceeding government regulations for worksite illumination.

For fast job-site setup and less downtime, each light fixture can be aimed independently without the use of tools—and the fixtures stay in place once positioned. Choose either LED or metal halide lights when specifying your light tower. Wanco's proprietary LED fixtures are the brightest available on any portable light tower, and Wanco's metal halide fixtures feature high-intensity parabolic reflectors that increase illumination. Balloon lights are also available.

The telescoping tower stows securely in a travel cradle when it is horizontal, then extends vertically to 30 feet when deployed. While upright, the tower rotates nearly 360 degrees and the lights operate at any height, eliminating the need to move the trailer frequently. Two winches raise and extend the tower easily. Manual winches are standard and power winches are optional.

A choice of industrial diesel engines and four-pole generators ensure reliable performance. The high-efficiency engine and 30-gallon fuel tank provide extended run times between refuelings—up to 120 hours with Wanco's exclusive LED light fixtures. Performance enhancing options include an automated dusk-to-dawn start/stop system and cold-weather start package.

For system maintenance, Wanco's exclusive hinged top panel provides unimpeded access to the engine, generator and electrical components. The equipment bay is a rugged all-steel cabinet with gull-wing doors that can be locked closed to protect against unauthorized access.

Wanco Laydown Light Towers boast trouble-free performance and exceptional longevity—hallmarks of the Wanco brand.

# ITEM NO 3 Spec. No. C03-2001SP-23 SNOW PLOW, 9' 2" V TYPE MOUNTED ON A ¾ OR 1 TON PICKUP SUPPLIED BY MDOT

# Quote no DQO004420 and DQO004421

### Install 9'2" Boss DXT poly V plow including the following

Dual Trip, cutting edge and moldboard trip design

Poly moldboard

Smart Hitch 2 - Flip, plug, click. The three-step attachment process makes it easy to switch between plows.

Smar tLight 3 L.E.D with Ice Shield Technology shines brighter and farther than traditional halogen systems with best-in-class 100% L.E.D. lighting.

Smart Touch 2 Dual-Trip Design - for enhanced plow protection when striking hidden obstacles in any position.

1/2" X 6" Base Angle - built using HARDOX® to provide extended wear resistance and comes with built-in curb guards and snow catcher which acts as a cutting edge until worn.

Flared Wings - with enhanced curl to throw snow with maximum efficiency.

Snow Catcher - in the center section is designed to catch snow at the plow's pivot point-so no snow lines are left behind.

Reinforced Moldboard - increases blade rigidity for increased durability.

Heavy-Duty Push Frame And Center Section - for additional strength and reliability.

High-Performance Hydraulic Package - delivers reliability and speed.

SmartLock Cylinders - keeps blades straight when backdragging.

Enclosed Hydraulics - protects against corrosion and hydraulic freeze-up.

Chainless Hydraulic Cylinder Lifting System - greatly reduces bounce during transport and provides full float capability.

Two-Year Limited Warranty - protects against material defects.

Includes 1 set of shoes

Includes deflector on top of moldboard

### Installed FOB Lansing \$10,238.00

Item No. 6 Sec No. C03-3001CAP-23 DQO004435 Pickup Cap for 6.5' or 8' box, Fiberglass Ranch Fiberglass – Sierra Topper

#### Supply and install Ranch Sierra Fiberglass topper including the following:

Sierra model toppers to fit GM, Dodge, and Ford pickups with 6.5', 8' long boxes

(other box sizes that may be available will apply)

"Unibody" molded and rolled fiberglass base rails

Tri-Cel honey comb reinforced roof

Topper roofline not to exceed cab roof

Full width rear window, hinged at the top

Side "windoors" with solid glass, hinged on top side, with daul t-handle style latches

All T-Handle locks on side "windoors" and rear window to be keyed the same

Hinged front picture style window, so it can be folded down to clean front side of window

Third brake light mounted top side, rear portion of cap

12V Led interior dome light- With on/off switch wired hot at all times

Cap to be painted to match pickup truck (Excludes Tri-Coat colors)

Includes rubber bulb seal and fasteners to bolt cap to vehicle

#### Lighting and Elevtrical Include:

Install SoundOff 17" amber/green LED mini bar strobe #ENRMB00EN mounted on roof of cab Two (2) SoundOff amber/green LED strobe lights #EMPS20V38-P mounted on cap posts

Lights to be mounted at top of the rear window height:

Wiring that is passed through holes in wearing surfaces will be protected by rubber grommets Wires shall be zip tied to prevent loosening

All connections will be enclosed in heat shrink (no scotch locks)

#### Above Installed Price: \$4,059.00 ea.

# US and international radar-speed signs for neighborhoods and work zones

- Extra-large full-matrix display
- Selectable speed setting
- Streamlined see-through design
- Regulatory speed-limit sign
- Battery powered & solar charging

The Wanco radar-speed trailer features the largest portable speed sign available today. Visible over a standard Jersey barrier traffic divider, the giant display shows motorists' speed in 26-inch characters, which flash when a vehicle exceeds the user-set speed limit.

The selectable overspeed message flashes slow power or a any of several preconfigured graphical symbols, together with optional red and blue flashing lights. The display can show motorists' speed in mph (one or two digits) or km/h (up to three digits).

A regulatory sign above the display features changeable speed-limit numbers for easy setup in any speed zone. The electronic display rotates to face traffic and includes visors and shades for superior visibility. The trailer's see-through design puts pedestrians in view, improving their safety-particularly in high-risk areas. The automated solar charging system provides long run times.

For more information, call 800.972.0755 or visit wanco.com.

What is CA Proposition 65?	
In November 1986, California voters approved a ballot initiative to address concerns about exposures to toxic chemicals. That initiative became The Safe Drinking Water and Toxic Enforcement Act of 1986, better known by its original name, Proposition 65.	
Our posted warning is as follows:	
WARNING: Chemicals known to the state of California to cause cancer, or birth defects, or other reproductive harm may be present in products sold by SoundOff Signal®.

### Warranty Summary

#### (FULL AND CURRENT TEXT AVAILABLE AT TOWMASTER.COM)

This warranty effective on trailers manufactured after 01/01/2009.

Monroe Towmaster, LLC. (herein referred to as Towmaster) offers this extensive warranty to the original purchaser of our trailers. Warranty starts from the date of sale as long we receive the filled-out warranty card. If we do not receive the warranty card, warranty starts from the ship date of the unit. LIMITED LIFETIME FRAME WARRANTY

On our premium trailers (T, TC series) Towmaster warranties the trailer main frame (frame, crossmembers, gussets, beavertail, and tongue or gooseneck) for the lifetime of the trailer to the original licensed owner to be free from defects in material and workmanship. This LIFETIME WARRANTY does not cover the hitch (ball, pintle, and gooseneck fifth wheel), tires, wheels, axles, suspension, hoists, ramps, lights, wiring, paint, wood, d-rings or any other features or options outside the scope of the trailer main frame weldment. Limited Lifetime is determined by the following criteria: The life expectancy of the trailer which is determined to be 10-YEARS on tag trailers 50,000 lb. capacity and lower, or 5-YEARS on king-pin trailers 50,000 lb. capacity and up, or 5-YEARS on dump trailers, to the original owner and is non-transferrable, limited to the first accident or overloading. This warranty also does not cover:

- 1. Products which have been operated in excess of rated capacities
- 2. Misuse, abuse or accidents

3. Vehicles which have been altered, modified or repaired in any manner not authorized by our company

FIVE-YEAR LIMITED FRAME WARRANTY

Some economy models (TE series) carry a 5-YEAR Limited Frame Warranty with the same exclusions as stated above. Some economy models (TE series) carry our standard 1-YEAR Warranty stated below.

AXLE / SUSPENSION WARRANTY

Each Dexter Torflex Axle carries a limited 10-YEAR WARRANTY on the suspension to be free from defect in material and workmanship. Warranty is limited to Dexter warranty policy. Other types or brands of suspensions may carry either a 5-YEAR or a 2-YEAR warranty by its manufacturer. PAINT WARRANTY

Towmaster warrants its paint and process against peeling or delamination of topcoat and/or other layers of paint, cracking due to failure of the product, and excessive hazing for a period of 3-YEARS from the date of manufacture. This warranty is limited to original paint from the factory and excludes paint that has been chipped, scuffed, scratched, or otherwise damaged in normal use, inclement weather, improper care, or paint on trailers that have been abused or in an accident. Towmaster's liability is limited to the repair of the affected area and covers labor and materials only, at an authorized repair service.

#### FULL ONE-YEAR WARRANTY

Towmaster warranties each new product manufactured by us to be free from defects in material and workmanship for a period of one year from date of delivery to the original purchaser except as noted below.

This one-year warranty covers the entire trailer against material and workmanship except as noted:

1. New products which have been operated in excess of rated capacities

- 2. Misuse, abuse or accidents
- 3. Items that have been pinched (air or hydraulic hose)
- 4. Vehicles which have been altered, modified or repaired in any manner not authorized by our company
- 5. Second-hand or used vehicles
- 6. Wear items such as tires, battery, suspension, bearings, parking jacks
- 7. Products that have not been properly maintained (by the dealer or consumer)

In no way shall the manufacturer be held liable for consequential damages such as rentals of substitute vehicles, loss of profits, downtime, or other commercial losses. This warranty does not cover shipment of trailer or parts to dealer or manufacturer, or return shipment of trailer or parts to dealer or consumer from factory.

TIRE / BATTERY WARRANTY

New vehicle tires are warranted by their respective manufacturers and are prorated. Battery is warranted by Towmaster and is prorated. TOWMASTER'S OBLIGATION

Our obligation under this warranty is to repair or replace, at no cost to the end user, any warrantable part proven defective within the time limit of this warranty at our factory or at an Authorized Towmaster Dealer. Towmaster will handle disposition of warranties on all other purchased components such as axles, suspensions, wheels, batteries, parking jacks and other purchased parts in conjunction with their respective manufacturers, and under the terms of their respective warranty policies.

We must receive immediate notification of a defect and no allowance will be made for repairs without our prior consent or approval. Manufacturer does not pre-authorize any dealership for warranty work. The dealer must call our warranty service department to receive an authorization number. If the work performed is not preauthorized with a claim number, it may be deemed void. Defective parts must be returned within twenty days of receipt of replacement parts or credit may not be given for the replacement parts and an invoice may be issued.

This warranty is in lieu of all other warranties, expressed or implied by law or otherwise, and there is no warranty of merchantability or fitness of purpose. Federal regulations require motor vehicle manufacturers to maintain a record of original owners of their equipment. Our warranty registration fulfills this requirement. Please make every

effort to complete the warranty card document and send it in. This warranty written under the laws of Minnesota, USA and some provisions in this warranty may be adjusted according to your local state, province or country's laws. Complete warranty details and changes can be read on our web site, www.towmaster.com.

#### CUSTOMER REGISTRATION REQUIRED

Federal regulations require motor vehicle manufacturers to maintain a record of original owners of their equipment. Our warranty registration fulfills this requirement. Please make every effort to complete this document and send it in.

Manufacturer reserves the right to modify, without notice, specific designs and specifications as deemed advisable on the trailers described herein without obligation in regards to trailers previously manufactured. The manufacturer also reserves the right to discontinue models without obligation in regards to trailers previously sold. Written warranty covers each trailer. No other warranty expressed or implied is made.

### **Payload Ratings**

Towmaster determines the GAWR and GVWR ratings of its trailers using the following determinations:

GAWR

GAWR is determined by using the weakest link between the axle capacity rating and the combined wheel and tire rating.

GVWR

GVWR is determined by taking a fleet average weight, plus payload capacity rating (as determined by the manufacturer).

Payload Capacity Payload is determined by one of the following calculations:

If your state recognizes weight transfer to the tow vehicle transfer, then calculate payload with this formula:

GVWR - Trailer Weight = Payload Capacity

If your state ONLY recognizes GAWR or trailer capacity rating and does NOT recognize weight transfer to the tow vehicle to transfer load, then calculate using this formula:

GAWR OR Trailer capacity - Trailer Weight = Payload Capacity

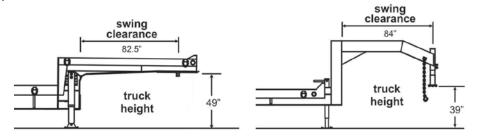

Trailer weight can fluctuate depending upon dryness of the wood deck, options installed and deck length. The best way to get the actual weight of the trailer is to scale it. Our published weights and capacities are for reference only.

### **Gooseneck Swing Clearance**

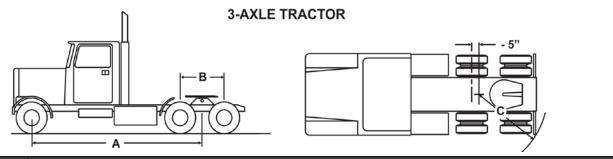

(A-Frame / Rigid Gooseneck / Hydraulic Tail)

These are the standard swing clearance dimensions on our goosenecks. Please specify swing clearance and truck height when ordering if you require a different clearance dimension.

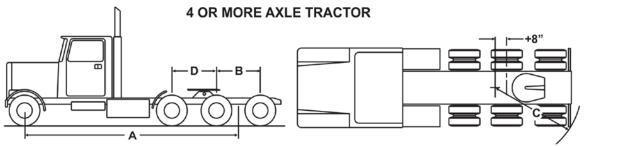

**Detachable Gooseneck Swing Clearance** 

Use the chart below to determine the proper gooseneck length to fit your tractor. Detachable gooseneck trailers come in a variety of gooseneck length options. These dimensions will help determine the swing clearance needed. If you have any questions, please call the factory for clarification.

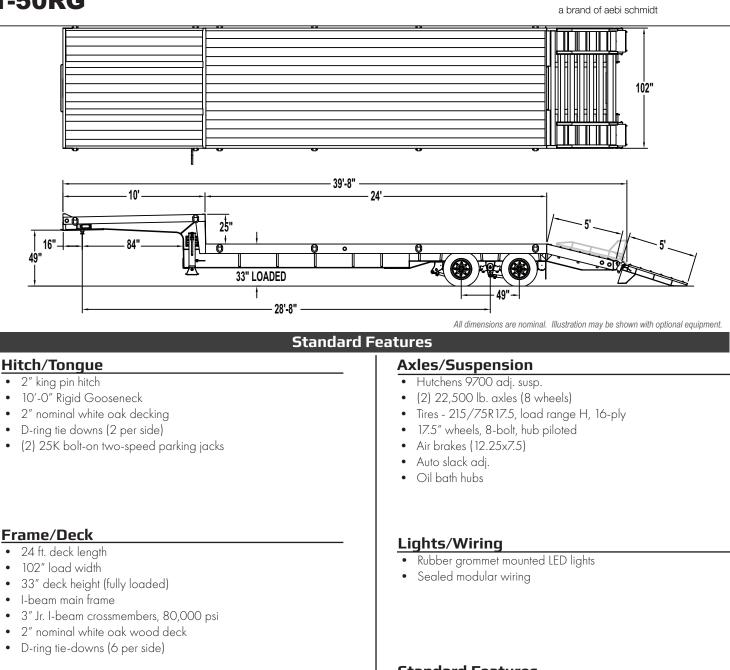

DIMENSION	DESCRIPTION
А	Wheel Base
В	Drive Axle Spacing
С	Center of forward drive axle, minus (-) 5" to outer edge of rear tire or mud flap

#### Ramps/Tail

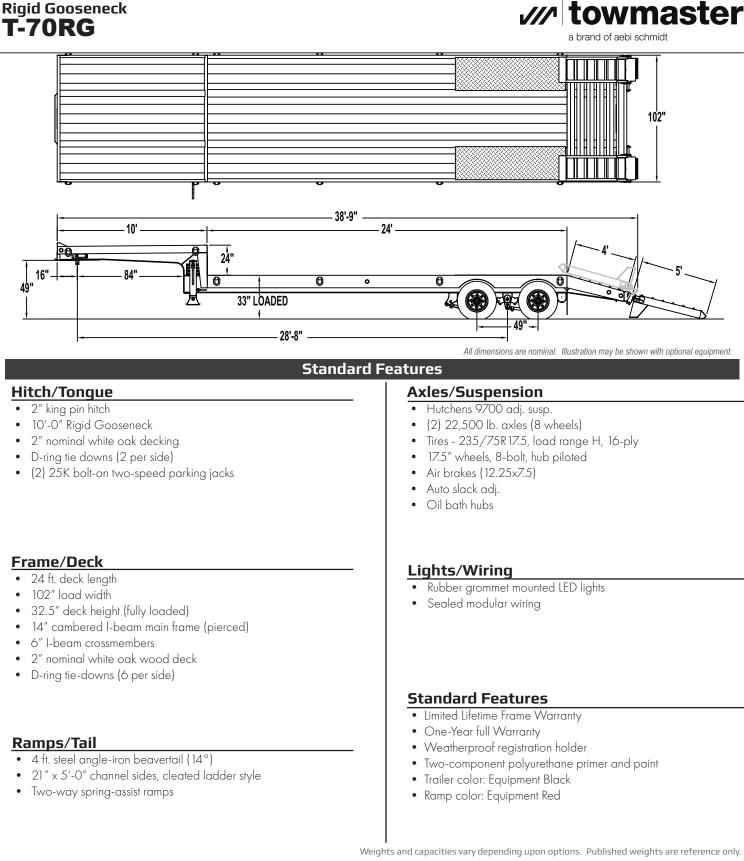

- 5 ft. steel angle-iron beavertail (14°)
- Wood protectors
- 21" x 5'-0" channel sides, cleated ladder style
- Two-way spring-assist ramps

#### Standard Features

- Limited Lifetime Frame Warranty
- One-Year full Warranty
- Weatherproof registration holder
- Two-component polyurethane primer and paint
- Trailer color: Equipment Black
- Ramp color: Equipment Red

### **Detachable Gooseneck** T-70DTG

## /// towmaster

- 2" king pin, 16" king pin setting
- 50" fifth-wheel height (loaded) ٠
- 10'-11" Gooseneck

50'

- 84" swing clearance
- Wet line hydraulic system
- 5-position load blocks
- Goosneck support arm (hydraulic)

### Frame/Deck

- 22 ft. main deck length, 102" load width
- 24" loaded deck height
- 16" fabricated steel main frame 100,000/80,000 psi •
- 10" I-beam crossmembers
- Raised 2" oak wood deck (track only)
- 10 D-ring tie-downs (5/side)
- Std-duty swing-out and HDfront double outriggers, w/oak planks .
- 31" front ramps (steel) flip

### Ramps/Tail

- Half-bolster approach
- Bolsters between wheels
- Open boom well
- 49" axle spread
- Flag holders at front ramp and wheel area

#### Axles/Suspension

- Air ride suspension
- (2) 25,000 lb. axles •
- Tires 255/70R22.5, load range H
- 22.5" wheels, 10-bolt, hub piloted
- Air brakes (sensor on 1 axle, 2S/1M) w/ABS
- Brake size (16.5x7), Park brakes on all axles •
- Automatic slack adjusters
- Oil bath hubs

### Lights/Wiring

- Rubber grommet mounted LED lights
- Sealed modular wiring

### **Standard Features**

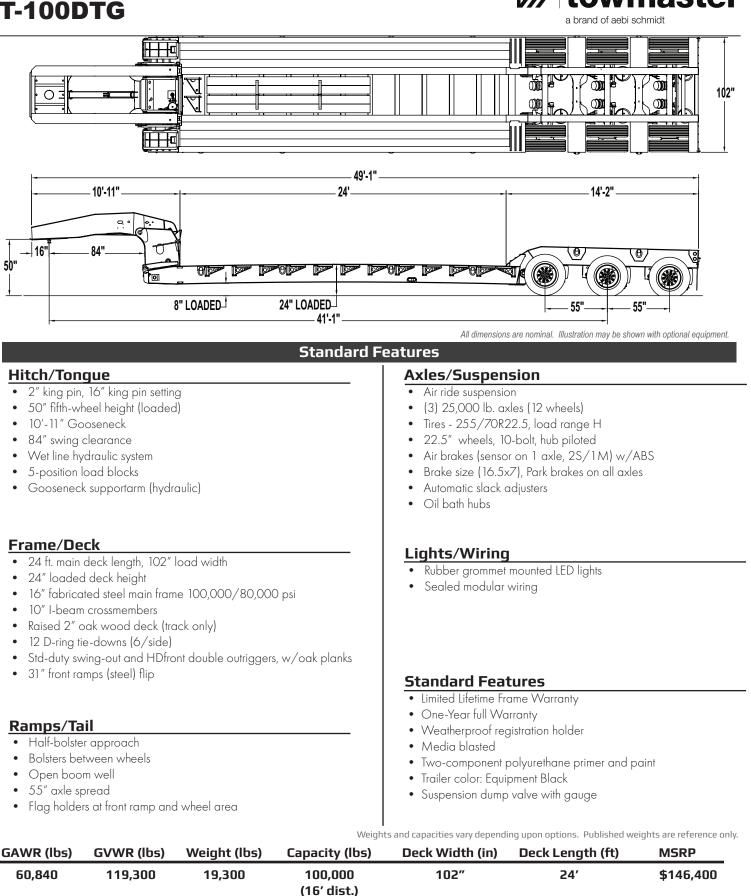

- Limited Lifetime Frame Warranty
- One-Year full Warranty
- Weatherproof registration holder
- Media blasted
- Two-component polyurethane primer and paint
- Trailer color: Equipment Black
- Suspension dump valve with gauge

### Warranty Summary

#### (FULL AND CURRENT TEXT AVAILABLE AT TOWMASTER.COM)

This warranty effective on trailers manufactured after 01/01/2009.

Monroe Towmaster, LLC. (herein referred to as Towmaster) offers this extensive warranty to the original purchaser of our trailers. Warranty starts from the date of sale as long we receive the filled-out warranty card. If we do not receive the warranty card, warranty starts from the ship date of the unit. LIMITED LIFETIME FRAME WARRANTY

On our premium trailers (T, TC series) Towmaster warranties the trailer main frame (frame, crossmembers, gussets, beavertail, and tongue or gooseneck) for the lifetime of the trailer to the original licensed owner to be free from defects in material and workmanship. This LIFETIME WARRANTY does not cover the hitch (ball, pintle, and gooseneck fifth wheel), tires, wheels, axles, suspension, hoists, ramps, lights, wiring, paint, wood, d-rings or any other features or options outside the scope of the trailer main frame weldment. Limited Lifetime is determined by the following criteria: The life expectancy of the trailer which is determined to be 10-YEARS on tag trailers 50,000 lb. capacity and lower, or 5-YEARS on king-pin trailers 50,000 lb. capacity and up, or 5-YEARS on dump trailers, to the original owner and is non-transferrable, limited to the first accident or overloading. This warranty also does not cover:

- 1. Products which have been operated in excess of rated capacities
- 2. Misuse, abuse or accidents

3. Vehicles which have been altered, modified or repaired in any manner not authorized by our company

FIVE-YEAR LIMITED FRAME WARRANTY

Some economy models (TE series) carry a 5-YEAR Limited Frame Warranty with the same exclusions as stated above. Some economy models (TE series) carry our standard 1-YEAR Warranty stated below.

AXLE / SUSPENSION WARRANTY

Each Dexter Torflex Axle carries a limited 10-YEAR WARRANTY on the suspension to be free from defect in material and workmanship. Warranty is limited to Dexter warranty policy. Other types or brands of suspensions may carry either a 5-YEAR or a 2-YEAR warranty by its manufacturer. PAINT WARRANTY

Towmaster warrants its paint and process against peeling or delamination of topcoat and/or other layers of paint, cracking due to failure of the product, and excessive hazing for a period of 3-YEARS from the date of manufacture. This warranty is limited to original paint from the factory and excludes paint that has been chipped, scuffed, scratched, or otherwise damaged in normal use, inclement weather, improper care, or paint on trailers that have been abused or in an accident. Towmaster's liability is limited to the repair of the affected area and covers labor and materials only, at an authorized repair service.

#### FULL ONE-YEAR WARRANTY

Towmaster warranties each new product manufactured by us to be free from defects in material and workmanship for a period of one year from date of delivery to the original purchaser except as noted below.

This one-year warranty covers the entire trailer against material and workmanship except as noted:

1. New products which have been operated in excess of rated capacities

- 2. Misuse, abuse or accidents
- 3. Items that have been pinched (air or hydraulic hose)
- 4. Vehicles which have been altered, modified or repaired in any manner not authorized by our company
- 5. Second-hand or used vehicles
- 6. Wear items such as tires, battery, suspension, bearings, parking jacks
- 7. Products that have not been properly maintained (by the dealer or consumer)

In no way shall the manufacturer be held liable for consequential damages such as rentals of substitute vehicles, loss of profits, downtime, or other commercial losses. This warranty does not cover shipment of trailer or parts to dealer or manufacturer, or return shipment of trailer or parts to dealer or consumer from factory.

TIRE / BATTERY WARRANTY

New vehicle tires are warranted by their respective manufacturers and are prorated. Battery is warranted by Towmaster and is prorated. TOWMASTER'S OBLIGATION

Our obligation under this warranty is to repair or replace, at no cost to the end user, any warrantable part proven defective within the time limit of this warranty at our factory or at an Authorized Towmaster Dealer. Towmaster will handle disposition of warranties on all other purchased components such as axles, suspensions, wheels, batteries, parking jacks and other purchased parts in conjunction with their respective manufacturers, and under the terms of their respective warranty policies.

We must receive immediate notification of a defect and no allowance will be made for repairs without our prior consent or approval. Manufacturer does not preauthorize any dealership for warranty work. The dealer must call our warranty service department to receive an authorization number. If the work performed is not preauthorized with a claim number, it may be deemed void. Defective parts must be returned within twenty days of receipt of replacement parts or credit may not be given for the replacement parts and an invoice may be issued.

This warranty is in lieu of all other warranties, expressed or implied by law or otherwise, and there is no warranty of merchantability or fitness of purpose. Federal regulations require motor vehicle manufacturers to maintain a record of original owners of their equipment. Our warranty registration fulfills this requirement. Please make every

effort to complete the warranty card document and send it in. This warranty written under the laws of Minnesota, USA and some provisions in this warranty may be adjusted according to your local state, province or country's laws. Complete warranty details and changes can be read on our web site, www.towmaster.com.

#### CUSTOMER REGISTRATION REQUIRED

Federal regulations require motor vehicle manufacturers to maintain a record of original owners of their equipment. Our warranty registration fulfills this requirement. Please make every effort to complete this document and send it in.

Manufacturer reserves the right to modify, without notice, specific designs and specifications as deemed advisable on the trailers described herein without obligation in regards to trailers previously manufactured. The manufacturer also reserves the right to discontinue models without obligation in regards to trailers previously sold. Written warranty covers each trailer. No other warranty expressed or implied is made.

### **Payload Ratings**

Towmaster determines the GAWR and GVWR ratings of its trailers using the following determinations:

GAWR

GAWR is determined by using the weakest link between the axle capacity rating and the combined wheel and tire rating.

GVWR

GVWR is determined by taking a fleet average weight, plus payload capacity rating (as determined by the manufacturer).

Payload Capacity Payload is determined by one of the following calculations:

If your state recognizes weight transfer to the tow vehicle transfer, then calculate payload with this formula:

GVWR - Trailer Weight = Payload Capacity

If your state ONLY recognizes GAWR or trailer capacity rating and does NOT recognize weight transfer to the tow vehicle to transfer load, then calculate using this formula:

GAWR OR Trailer capacity - Trailer Weight = Payload Capacity

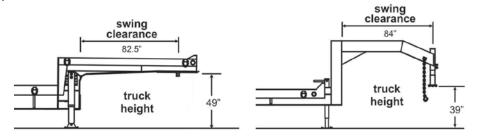

Trailer weight can fluctuate depending upon dryness of the wood deck, options installed and deck length. The best way to get the actual weight of the trailer is to scale it. Our published weights and capacities are for reference only.

### **Gooseneck Swing Clearance**

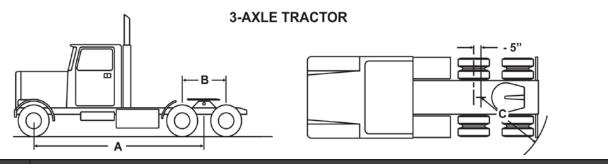

(A-Frame / Rigid Gooseneck / Hydraulic Tail)

These are the standard swing clearance dimensions on our goosenecks. Please specify swing clearance and truck height when ordering if you require a different clearance dimension.

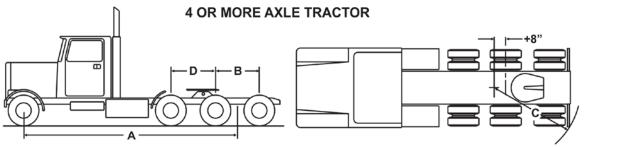

**Detachable Gooseneck Swing Clearance** 

Use the chart below to determine the proper gooseneck length to fit your tractor. Detachable gooseneck trailers come in a variety of gooseneck length options. These dimensions will help determine the swing clearance needed. If you have any questions, please call the factory for clarification.

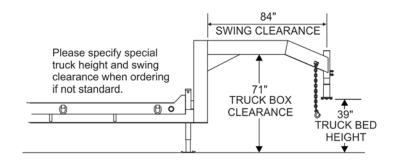

DIMENSION	DESCRIPTION
А	Wheel Base
В	Drive Axle Spacing
С	Center of forward drive axle, minus (-) 5″ to outer edge of rear tire or mud flap

## /// towmaster

a brand of aebi schmidt

#### Standard Features

#### Hitch/Tongue

- Adj. height, bolt-on coupler
- 2.5" pintle
- RV plug
- One-piece cold-formed frame rails
- Integrated storage tray
- 7K bolt-on, top-wind parking jack
- Battery break-away kit w/tow charger & test light
- Safety chains w/hooks

### Frame/Deck

- 82" between fenders
- 18.5" deck height (fully loaded)
- 6″ I-beam main frame
- 3″ Jr. I-beam crossmembers, 80,000 psi
- 2" nominal treated pine wood deck
- Formed flat bar tie downs (4 per side)
- 12 ga one-piece formed fender/panel

### Ramps/Tail

- 18" x 5'-0" formed sides, cleated ladder style
- Load angle: 17°
- Solid-bar pinned ramp hold-ups

### Axles/Suspension

- Rubber-ride suspension axles
- (2) 7,000 lb. axles (tandem, 4 wheels)
- Tires 235/85R16, load range F, 12-ply
- 16" wheels, 8-bolt
- Electric brakes
- Forward self-adjusting brakes
- Standard (Non-EZ Lube) hubs

### Lights/Wiring

- Rubber grommet mounted LED lights
- Sealed modular wiring

### **Standard Features**

- Limited Lifetime Frame Warranty
- One-Year full Warranty
- 10 Year Suspension Warranty
- Weatherproof registration holder
- Two-component polyurethane primer and paint

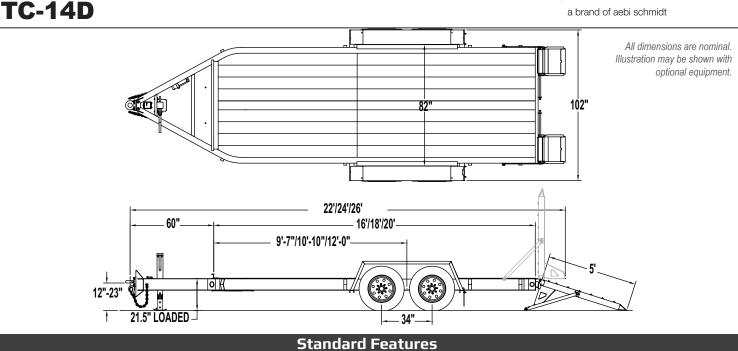

Weights and capacities vary depending upon options. Published weights are reference only.

Other options may be available. Ask your dealer or visit our website.

## **STATE OF MICHIGAN**

#### Contract No. 24000000167

#### Agricultural, Grounds, Turf, Earth Moving, and Roadside Maintenance Equipment

#### **SCHEDULE B3 - SPECIFICATION PRICING**

- 1. The Contractor must provide a pricing schedule for the proposed Contract Activities using Microsoft Excel. The pricing schedule should be submitted in a modifiable format (e.g., Microsoft Word or Excel); however, you may also submit an additional pricing schedule in a non-modifiable format (e.g., PDF). Failure to complete the pricing schedule as requested may result in disqualification of your proposal.
- **2.** Price proposals must include all costs, including but not limited to, any one-time or set-up charges, fees, and potential costs that Contractor may charge the State (e.g., shipping and handling, per piece pricing, and palletizing).
- **3.** The Contractor is encouraged to offer quick payment terms. The number of days must not include processing time for payment to be received by the Contractor's financial institution.

Quick payment terms: \_\_\_\_0 discount off invoice if paid within \_\_\_45\_\_\_\_ days after receipt of invoice.

- **4.** By submitting its proposal, the Contractor certifies that the prices were arrived at independently, and without consultation, communication, or agreement with any other Contractor.
- 5. All items below for PURCHASE shall be evaluated based on a single purchase at each prosperity region (13 single purchases). If delivery pricing is per mile, the delivery cost shall be calculated from the nearest dealer location to the estimated central location of each region. Mileage is calculated one way.
- a). (Purchase price x 13) + (Delivery cost at all 13 prosperity regions) + (13 Hours of training) or
- b). (Purchase price x 13) + (Mileage rate x mileage from nearest dealer to each estimated central prosperity region) + (13 Hours of training)
- **6.** All items below for RENTAL shall be evaluated based on a combination of a single daily, weekly, and a monthly rental in each prosperity region. Delivery and pickup shall be calculated for each single rental (13 x 3 = 39 single purchases). If delivery/pickup pricing is per mile, the delivery/pickup cost shall be calculated from the nearest dealer location to the estimated central location of each region. Mileage is calculated one way for each pickup and delivery.
- a). (Daily rental price x 13) + (Delivery and pickup cost at all 13 prosperity regions) + (Weekly rental price x 13) + (Delivery and pickup cost at all 13 prosperity regions) + (Monthly rental price x 13) + (Delivery and pickup cost at all 13 prosperity regions) or
- b). (Daily rental price x 13) + (Delivery and pickup mileage rate x mileage to and from nearest dealer to each estimated central prosperity region) + (Weekly rental price x 13) + (Delivery and pickup mileage rate x mileage to and from nearest dealer to each estimated central prosperity region) + (Monthly rental price x 13) + (Delivery and pickup mileage rate x mileage to and from nearest dealer to each estimated central prosperity region) + (Monthly rental price x 13) + (Delivery and pickup mileage rate x mileage to and from nearest dealer to each estimated central prosperity region)

7. <u>Refer to "Standard Contract Terms", section 7, regarding administration fee.</u>
