

EGLE Hazardous Waste and Liquid Industrial By-products Regulations - Waste Webinar Series

Hazardous Waste Generator Trainer - Self Certification

I, _____, certify that I have viewed the entirety of the Michigan Department of

Print signatory's name here

Environment, Great Lakes, and Energy (EGLE), Waste Webinars listed below related to the waste training program(s) for which I am responsible to gain a general understanding of the hazardous waste and liquid industrial by-products generator requirements under Part 111, Hazardous Waste Management, and Part 121, Liquid Industrial By-products of the Michigan Natural Resources and Environmental Protection Act, Act 451 of 1994, as amended, and the rules promulgated thereunder. I recognize that this information is essential for me to evaluate the need for additional site-specific compliance measures and training as part of a site-specific hazardous waste training program. I recognize that additional site-specific staff training is necessary for on-site personnel to properly perform their daily duties related to the generation and management of hazardous waste and liquid industrial by-products. I further recognize that the EGLE training does not adequately cover hazardous waste tank or Subpart AA, BB, or CC requirements, and that additional independent training is necessary for those topics.
