## Draft FY 2025 Detailed Project Scoring Summary Report

DW

### Legend

FMC - facility upgrade to maintain compliance points  
REG - regionalization efforts  
CON - consolidation points  
ENF - project addressing enforcement order  
SWP - source water protection efforts  
LSL - lead service line replacements  
AVS - acute violation of standards  
NON - non-acute violation of standards  
HP - history of proactive public health protection  
LP / Mix - looping to eliminate dead-end watermains / installing storage tank mixing  
WQ - change to a more protective/higher quality source water  
SWPP - active source water protection program  
TUA - treatment upgrades to address water quality  
AMI - asset management implementation  
PII - project includes infrastructure assets for multiple systems  
PIM - project includes multiple infrastructure asset classes or financing sources  
OVER - applicant is designated as overburdened  
SIGN - applicant is designated as significantly overburdened

AMP - Asset Management Plan  
LSLR - Lead Service Line Removal  
PFAS - Per- and polyfluoroalkyl substances  
PRV - Pressure Reducing Valve  
PS - Pump Station  
REP - Replacement  
SCADA - Supervisory Control and Data Acquisition  
TM - Transmission Main  
WM - Water Main  
WT - Water Tower  
WTP - Water Treatment Plant  
IMPR - Improvements
