Legend

- FMC - facility upgrade to maintain compliance points
- REG - regionalization efforts
- CON - consolidation points
- ENF - project addressing enforcement order
- SWP - source water protection efforts
- LSL - lead service line replacements
- AVS - acute violation of standards
- NON - non-acute violation of standards
- HP - history of proactive public health protection
- LP / Mix - looping to eliminate dead-end watermains / installing storage tank mixing
- WQ - change to a more protective/higher quality source water
- SWPP - active source water protection program
- TUA - treatment upgrades to address water quality
- AMI - asset management implementation
- PII - project includes infrastructure assets for multiple systems
- PIM - project includes multiple infrastructure asset classes or financing sources
- OVER - applicant is designated as overburdened
- SIGN - applicant is designated as significantly overburdened
