## Related Issues

**Issue:** Missing Pollutants: Ozone, NO<sub>2</sub>

## Event Details

**Parameter:** AQI

**PM2.5:** 16.053297019338686

**PM10:** 6.300029131533761

**Max AQI:** 16.053297019338686 (PM2.5)

**Temperature:** N/A

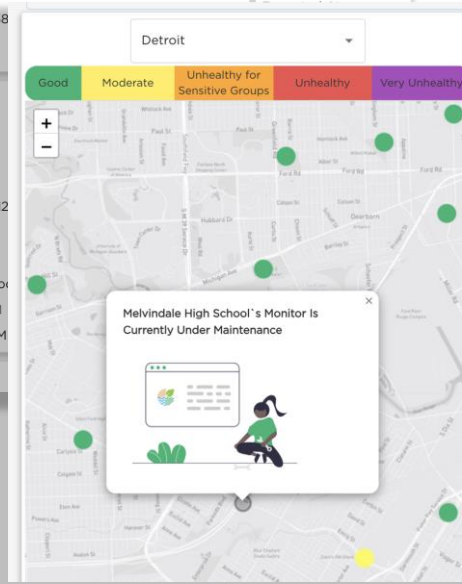

**Humidity:** N/A

**Alert Levels:** PM2.5: Good, PM10: Good

**Created At:** 6/27/2024, 10:15:08 AM

**Updated At:** 6/27/2024, 10:15:08 AM

## Measurement Details

The screenshot displays the 'Just Air' web application's 'Super Admin' interface. The main header shows navigation options like Network, Air Metrics, Community, Reports, Admins, Devices, Insights, Admin Insights, FAQ & Resources, Network Insights, Org Settings, and JA Super Admin.

Current State	Updated By	Date	Previous State	Note
Deployed	Nate Rauh-Bieri	June 7, 2024 3:10 PM	Maintenance	This monitor was outdated. It appears to now have continuous data again (searched 'Reports') so turning it back to Deployed status.
Maintenance	Nate Rauh-Bieri	June 13, 2024 1:49 PM	Deployed	Note: Outdated readings - stopped pulling data on 6/12. So putting it into maintenance to further investigate and see if it restores.
Maintenance	Nate Rauh-Bieri	May 22, 2024 4:05 PM	Deployed	Note: Registered as outdated

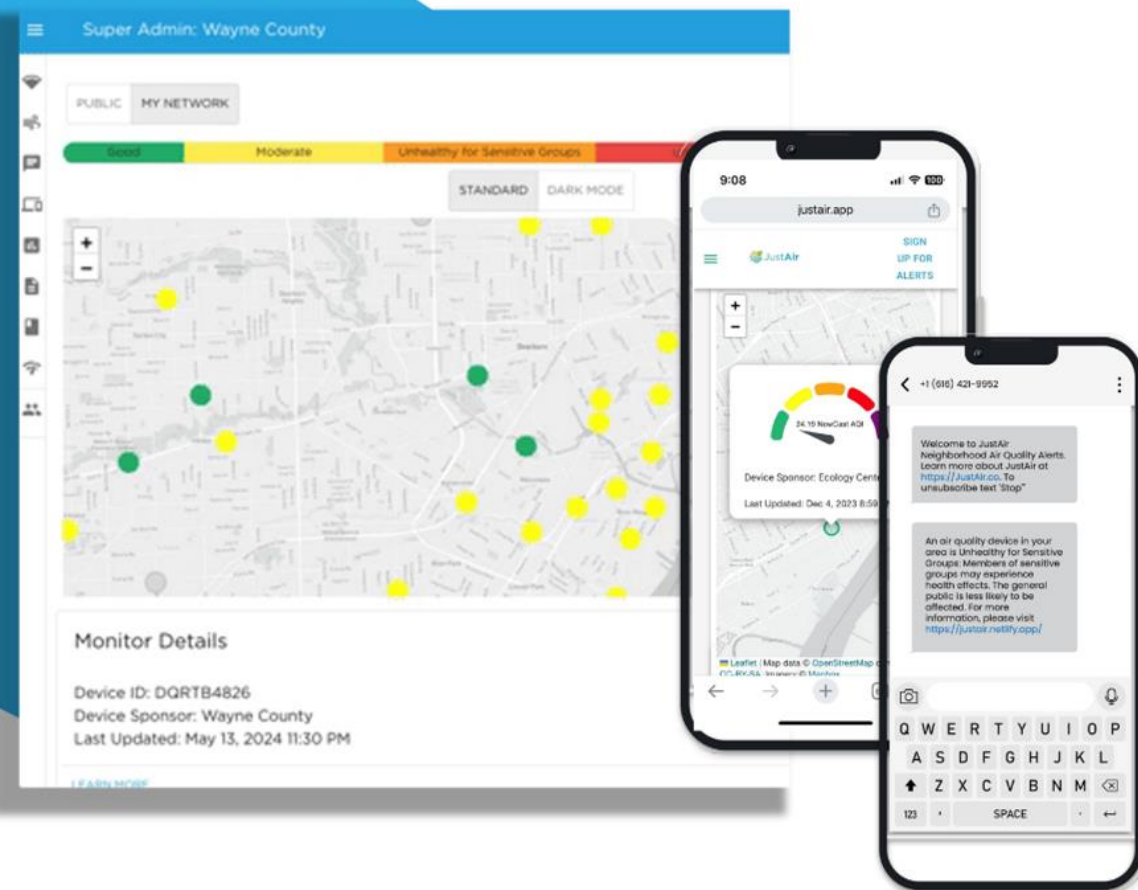

On the right, there are sections for 'Profile Explore Orgs Logout', 'New Note', and 'QY-R AB 0274 notes'. Below these are several notification cards:

- Recovery in Process**: Attempted to reset and refresh the device from aeroqual (4:10:10 PM)
- Recovery in Process**: To Unplug the power and reboot the device still re (4:9:57 PM)
- Recovery in Process**: Changing WiFi settings on aeroqual admin portal to new WiFi settings Verizon-H3100-A319 (June 19, 2024 2:16 PM)
- Recovery in Process**: Switching out new modem password 9c312330 (June 19, 2024 2:14 PM)
- Healthy**: Light WiFi is: GL-SFT1200-6f0-5G (May 23, 2024 12:23 PM)
- Healthy**: The code to the Levagood Park gate to access th (April 1, 2024 5:15 PM)

A bottom overlay shows a 'Current Update Data Preview' note stating: 'Note: This appears to have data again, turning it back to Deployed status.'

# Building the Future on Trust

Let's Get Started:  
[info@justair.co](mailto:info@justair.co)

# Key Learnings From NAAMC

**Community-Driven Innovation:** Our solutions were born from community pressure, driving us to build the very systems the EPA is now striving to implement for improved air quality monitoring.

**Maturity of the Community Monitoring Space:** The community monitoring space has evolved significantly, requiring a focused approach to maximize impact and scalability while ensuring a standard of auditable quality.

**Operational Efficiency and Accuracy:** The push towards enhanced monitoring operations highlights the importance of updating systems to deliver better accuracy at reduced costs.

**Building Trust Through Timely Responses:** Meeting resident demands with trusted, context-rich data is essential for fostering public confidence and ensuring timely action.
