

**WAMC Survey Review and KPI Subcommittee Meeting
February 16, 2023**

- Due to the drain conference and other commitments the group was small today.
- Population discussion
 - Population may be a better indicator of coverage for Michigan over utility count due to the large number of small utilities who may not be as far along with their asset management program.
 - Can you obtain an accurate population count from community?
 - No – Example LBWL, WRC COSDS.
 - For water systems, can you use 2020 service line verification counts for residential customer connections instead?
 - This is readily available on the EGLE website.
 - Leaves off commercial but could be a good indicator.
 - Listed by system so easy to align with WAMC survey data.
- New Committee Webpage
 - EGLE to start recording and putting together meeting minutes for group.
 - Chair – Carrie to put together meeting minutes from last meeting.
 - What does the group do?
 - Pull from public act.
 - Review surveys for sufficiency
 - Annual report from survey to MIC
 - Add information about update survey questions as needed and possibly work to build KPI/dashboard similar to TAMC.
 - Contact
 - EGLE-WAMC@Michigan.gov
 - Chair Carrie Ricker Cox coxco@oakgov.com 248-470-1314
- Close meeting early due to WAMC extending the survey deadline to 2/17/23 and low attendance.
