

Disclosure Statement

PA 451, Part 111, Section 324.11123(2)

In accordance with Section 324.11123(2) the following information is disclosed as required:

(i) The full name and business address of all of the following:

(A) The applicant.

Michigan Disposal, Inc. (MDI) d/b/a Michigan Disposal Waste Treatment Plant
49350 North I-94 Service Drive
Belleville, Michigan 48111

(B) The 5 persons holding the largest shares of the equity in or debt liability of the proposed facility. The department may waive all or any portion of this requirement for an applicant that is a corporation with publicly traded stock.

MDI requests that the requirement be waived as we are a publicly traded company.

(C) The operator. If a waiver is obtained under sub-subparagraph (B), detailed information regarding the proposed operator shall be included in the disclosure statement.

Michigan Disposal, Inc., a Michigan corporation, is a wholly owned subsidiary of US Ecology, Inc. a publically traded company.

(D) If known, the 3 employees of the operator who will have the most responsibility for the day-to-day operation of the facility, including their previous experience with other hazardous waste treatment, storage, or disposal facilities.

KERRY DURNEN – DIRECTOR OF OPERATIONS

Kerry Durnen is the Vice President and General Manager for Michigan Disposal, Inc. (MDI) and Wayne Disposal, Inc. (WDI). Mr. Durnen began his career at WDI in January of 1997 as a Site Engineer and then was promoted to Wastewater Treatment Plant Manager in 1998, General Manager – WDI in 2002, Director of Operations – WDI in 2003, Director of Operations – MDI and WDI in 2010, and VP and GM in 2017. As VP and GM for MDI and WDI, Mr. Durnen is responsible for all operations and maintenance – including safety, compliance, profit, and loss – associated with the hazardous waste treatment plant, active hazardous waste landfill, wastewater treatment plant and storm water treatment systems, and more than a dozen closed municipal solid waste and hazardous waste landfills.

Prior to joining WDI, Mr. Durnen worked as a Staff Engineer at Eder Associates. In this position he was responsible for various environmental remediation projects.

Mr. Durnen earned a Bachelor of Science degree in Civil and Environmental Engineering from the University of Michigan. He is a Licensed Professional Engineer in the State of Michigan.

COREY GRIDER – MANAGER OF OPERATIONS

Corey Grider is the Operations Manager at Michigan Disposal, Inc. (MDI), responsible for all operations at the facility. He began his career with the company in August 2005 as a Plant Supervisor, became the Laboratory Supervisor in September of 2007, and became the Operations Manager in January 2011.

Before working for MDI, Mr. Grider worked as a Chemist for Perma-Fix of Michigan. In this position he was responsible for analyzing incoming waste streams as well as overseeing processing plant production.

Mr. Grider earned a Bachelor of Science degree in Public Resource Management with a specialization in Environmental Economics from Michigan State University.

SYLWIA SCOTT – ENVIRONMENTAL MANAGER

Sylwia Scott is the Environmental Manager at Michigan Disposal, Inc. (MDI) and Wayne Disposal Inc. (WDI). She began her career with the company in October 2008 as a Laboratory Technician, and then was promoted to Chemist in 2009, Approvals Coordinator in 2010, and Environmental Manager in 2014. As the Environmental Manager for MDI and WDI, Ms. Scott is responsible for all environmental regulatory compliance associated with the hazardous waste treatment plant, active hazardous waste landfill, wastewater treatment plant, and storm water treatment systems.

Ms. Scott earned a Bachelor of Science degree in Nutrition and Food Science from Wayne State University and a Masters of Public Health in Environmental and Occupational Health and Safety Science from the Northwest Ohio Consortium for Public Health.

(E) Any other partnership, corporation, association, or other legal entity if any person required to be listed under sub-subparagraphs (A) to (D) has at any time had 25% or more of the equity in or debt liability of that legal entity. The department may waive all or any portion of this requirement for an applicant that is a corporation with publicly traded stock.

(ii) For each person required to be listed under this subdivision, a list of all convictions for criminal violations of any statute enacted by a federal, state, Canadian, or Canadian provincial agency if the statute is an environmental statute, if the violation was a misdemeanor committed in furtherance of obtaining an operating license under this part not more than 5 years before the application is filed, or if the violation was a felony committed in furtherance of obtaining an operating license under this part not more than 10 years before the application is filed. If debt liability is held by a chartered lending institution, information required in this subparagraph and subparagraphs (iii) and (iv) is not required from that institution. The department shall submit to the legislature a report on the 2014 act that amended this subparagraph, including the number of permits denied as a result of that act and whether this subparagraph should be further amended. The report shall cover the 5-year period after the effective date of that act and shall be submitted within 60 days after the expiration of that 5-year period. The report may be submitted electronically.

MDI requests that this requirement be waived as we are a publicly traded company.

(iii) A list of all environmental permits or licenses issued by a federal, state, local, Canadian, or Canadian provincial agency held by each person required to be listed under this subdivision that were permanently revoked because of noncompliance.

No permits have been revoked

(iv) A list of all activities at property owned or operated by each person required to be listed under this subdivision that resulted in a threat or potential threat to the environment and for which public funds were used to finance an activity to mitigate the threat or potential threat to the environment, except if the public funds expended to facilitate the mitigation of environmental contamination were voluntarily and expeditiously recovered from the applicant or other listed person without litigation.

No public funds were used to finance an activity to mitigate a threat or potential threat to the environment.
