Re: Assessment of Existing Tank System Integrity pursuant to 40 CFR 264.191
Application for Renewal of Hazardous Waste Management Operating License
Michigan Disposal Waste Treatment Plant (MDWTP) - MID 000 724-831

Dear Ms. Scott:

All existing tank systems at the subject facility have secondary containment meeting the requirements of 40 CFR 264.193. Therefore, 40 CFR 264.191 does not require assessment of existing tank system integrity for these systems. Nonetheless, at your request I have reviewed written, certified, independent assessments by others of these systems with respect to 40 CFR 264.191. These assessments have determined that the tanks are in good condition, free of detectable leaks, and fit for the intended service under continuing routine assessment and maintenance as required by the subject license.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Please let me know if you have any questions or if I can be of further assistance. Thank you for retaining Abletech for these services.

Sincerely,

A handwritten signature in black ink that reads "M. A. Olson".

Re: Certification pursuant to R299.9508
Application for Renewal of Hazardous Waste Management Operating License
Michigan Disposal Waste Treatment Plant (MDWTP) - MID 000 724-831

Dear Ms Scott:

I have reviewed with you and Mr. Corey Grider of US Ecology in person, the subject application. From my review and familiarity with the facility design, operation as well as the permit attachments, operating license conditions and the Part 111 Rules, I believe and hereby certify that the facility is capable of treating, storing and disposing of hazardous waste in accordance with the operating license.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Please let me know if you have any questions or if I can be of further assistance. Thank you for retaining Abletech for these services.

Sincerely,

A handwritten signature in black ink, appearing to read "M.A. Olson".
