Mr. David T. Roland, General Partner Deputy Assistant Secretary
Marathon Petroleum Company LP
1300 South Fort Street
Detroit, Michigan 48217-1294

Dear Mr. Roland:

This letter is in reference to your Permit to Install (PTI) applications, identified as Nos. 118-15 and 122-15 (State Registration Number A9831). Application No. 118-15 is for the proposed Tier 3 Fuels Project and Application No. 122-15 is for the proposed LPG Storage and Transfer Project. Both proposed projects are located at 1300 South Fort Street, Detroit, Michigan.

The public comment period ended at 5:00 p.m. on January 29, 2016, and a public hearing was held on January 6, 2016. Comments were received during the comment period and at the public hearing.

After careful consideration of the issues and pursuant to the delegation of authority from the Director of the Michigan Department of Environmental Quality (MDEQ), I have approved PTI Nos. 118-15 and 122-15. As a part of this approval, the Air Quality Division (AQD) staff has revised and added conditions to the permitted to address certain information received during the public participation process and the subsequent analysis of that information.

The AQD has prepared the enclosed Response to Comments (RTC) document, which provides our responses to comments received during the public comment period and at the public hearing. It also identifies the special conditions that have been modified and provides our rationale for modifying the proposed special conditions. These changes are listed in Section II of the RTC document.

This approval is based upon and subject to compliance with all administrative rules of the MDEQ and conditions stipulated in the enclosed supplements. Please review these conditions thoroughly so that you may take the actions necessary to ensure compliance with all of these conditions.

The equipment covered by these permits is also subject to the requirements of the Renewable Operating Permit Program. Submittal of the M-001 and C-001 forms may be required prior to commencing operation. A change that is subject to Rule 215 subrules (1), (2), or (3), promulgated pursuant to Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, requires the submittal of the forms to the appropriate AQD District Office. If a change is made pursuant to Rule 216, please submit the required forms to the Cadillac District Office at the address provided in the M-001 form instructions. Also, you must notify the Detroit District Office, in writing, within 30 days after completion of the installation, construction, reconstruction, relocation, or modification of the process or process equipment covered by these PTIs.
