

# EGLE's Energy Efficiency Programs for Communities

Webinar:

[View Recording](#) | [Download Slides](#)

Description:

Join the State Energy Program Specialist, Julie Staveland, and the EGLE Community Programs Coordinator, Miles Biel, as they introduce EGLE's wide variety of Energy Services and Community Energy Management programs. Dedicated to promoting healthy communities, economic growth, and environmental sustainability through energy efficiency and renewable energy, EGLE Energy Services offers programs to catalyze growth and jumpstart Michigan entities to reach their own energy goals. To assist in these efforts, Community Energy Management meets communities wherever they are on the energy management spectrum. Hear what programs and levels of assistance are available, including success stories from across the state.
