VIA EMAIL

Shannon Huber, Site Director
Michigan Operations
The Dow Chemical Company
1790 Building, Washington Street
Midland, Michigan 48674

Dear Shannon Huber:

SUBJECT: Receipt of a Hazardous Waste Management Facility Operating License
Renewal Application and Completeness Review; The Dow Chemical
Company; MID 000 724 724 and MID 980 617 435; Waste Data System
Numbers 392698 and 399133

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division (MMD), has received a Hazardous Waste Management Facility Operating License Renewal Application (Application), from The Dow Chemical Company (Dow), for the facilities located at 1790 Building, Washington Street and 2314 Salzburg Road, Midland, Michigan. The facility's current License was issued on September 25, 2015. Submittal of a timely Application allows the facilities to continue to operate under its current License until EGLE makes a final decision on the Application.

The MMD has reviewed the Application and determined that it is administratively complete. The MMD will now proceed to conduct a technical review.

The MMD is scheduling an informational meeting to discuss the complete Application with the public. Details regarding the meeting date, time, and location will be provided to you and published in a local newspaper, on EGLE's website, and through electronic distribution to persons on the facility's mailing list.

If you have any questions, please contact Elizabeth Vanderhoef, Geologist, Permitting and Program Support Unit, Hazardous Waste Section, MMD, at 517-388-2644, VanderhoefE1@Michigan.gov, or EGLE-MMD-HWS@Michigan.gov.

Sincerely,

Kimberly M. Tyson, Manager
Hazardous Waste Section
Materials Management Division
517-388-2797

Shannon Huber
