The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division (MMD), will host a virtual informational meeting to give community members an opportunity to learn about and provide input on Michigan State University (MSU), Hazardous Waste Storage Facility's application to renew their Hazardous Waste Management Facility Operating License (License), issued pursuant to Part 111, Hazardous Waste Management, of Michigan's Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and the administrative rules promulgated thereunder.

MSU operates a hazardous waste storage facility located at 3634 East Jolly Road, Lansing, Michigan. MSU is seeking authorization to continue their licensed storage activities for hazardous waste generated on campus and at other off-site MSU facilities. No new operations were proposed in the application.

MSU submitted an application to renew their License on July 27, 2023. EGLE has determined the application is administratively complete and has begun the technical review of the application.

Please join us on **Thursday, February 29, 2024, at 6:00 p.m.**, to hear directly from EGLE staff and have your questions answered. The meeting will include an EGLE presentation followed by an informal question-and-answer period with a panel of EGLE staff. To attend the meeting, pre-register at Michigan.gov/MSU-HWSF, or click on the registration link on that webpage at the start of the meeting (6:00 p.m.). To participate by PHONE ONLY, please call 636-651-3142, and use conference code 374288.
