

## NOTICE OF FINAL DECISION

Republic Industrial and Energy Solutions, LLC; MIR 000 016 055  
Hazardous Waste Management Facility Renewal Operating License

September 19, 2023

On September 19, 2023, the Michigan Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division (MMD), issued a Hazardous Waste Management Facility Renewal Operating License (License) for Republic Industrial and Energy Solutions, LLC (RIES), pursuant to Part 111, Hazardous Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and the administrative rules promulgated thereunder. The issuance of the License followed a public comment period on the draft license that spanned from December 30, 2022, to February 16, 2023, and a reopened public comment period that spanned from April 3, 2023, to May 4, 2023. Four comments were received during the initial public comment period, all of which were considered minor in nature. Revisions were made to the License to correct the typographical-like errors. Additional comments were received during the second public comment period. These comments did not result in any revisions to the License. EGLE's response to substantive comments and additional changes to the License are outlined in the Response to Comments.

The License allows RIES to continue to operate its hazardous waste treatment and storage facility located at 28470 Citrin Drive in Romulus, Michigan.

The License and Response to Comments are available online at [Republic Industrial and Energy Solutions LLC \(Michigan.gov\)](#), or can be reviewed in person (by appointment) at the following locations:
