SUBJECT: Report on the Effectiveness of Part 169 in Encouraging the Reuse and Safe Storage of Scrap Tires (Triennial Report)

In accordance with Section 16911(2) of Part 169, Scrap Tires, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, the Department of Environment, Great Lakes, and Energy (EGLE) is required to report every three years to the Legislature on the effectiveness of Part 169 regarding the reuse and safe storage of scrap tires. The Michigan Scrap Tire Program is a nationally recognized effort that combines cleanup and market development grants with effective compliance and enforcement. Since the program was first appropriated funding in 1993, more than $34 million has been provided through grants to remove and properly dispose of nearly 37 million passenger tire equivalents.
