**STIPULATED ORDER REGARDING**  
**CONSENT JUDGMENT MODIFICATIONS**

At a session of said Court, held in the Courtroom thereof, in the  
City of Ann Arbor, County of Washtenaw, State of Michigan, on  
APR 22 2009, 2009.

PRESENT: Honorable Donald E. Shelton  
Circuit Court Judge

Plaintiffs and Defendant, by their respective undersigned counsel, stipulate as follows:

1. By the Stipulated Order Regarding the December 15, 2008 Status conference, dated January 13, 2009, the Court directed the State and Gelman Sciences, Inc., d/b/a Pall Life Sciences (PLS) to submit by January 15, 2009, a joint order, that among other things, set forth a schedule for the decisions, submittals, public comment periods, approvals and other steps needed to implement any potential remedial modifications and lists disagreements, if any, between the parties with regard to the schedule of events. The Court extended the due date for the submittal to January 16, 2009.

2. On January 16, 2009, the parties submitted a Stipulation and Proposed Order Regarding Potential Remedial Modifications, which included each party's proposed schedule.

3. According to the proposed schedules, PLS was to begin implementing the Evergreen System-Reduced Extraction Rate Study Work Plan by the Week of January 19, 2009 (weather permitting). Due to inclement weather, PLS was unable to begin the work as proposed and therefore, it took longer than scheduled to complete the work. As a result, PLS submitted its findings of the Evergreen System Reduced Extraction Rate Study Work Plan (Evergreen) report on March 20, 2009 instead of March 13, 2009 and the parties met to discuss the Evergreen Report on April 3, 2009 instead of the week of March 23, 2009.

4. During the April 3, 2009 meeting on the Evergreen Report, the parties agreed that additional monitoring wells would be installed to address concerns expressed by the State and to support the conclusions of the Evergreen Report. PLS has submitted a proposed monitoring well location to MDEQ for approval. According to PLS, the monitoring well(s) should be installed by mid-May, barring any unforeseen delays.

5. During the April 3, 2009 meeting, the parties also discussed the well identification process and PLS made a verbal proposal to resolve the remaining issues. MDEQ has requested that PLS provide a written proposal for further consideration.

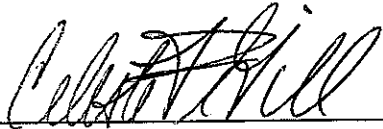

6. On April 6, 2009, the Court entered the Order Regarding Potential Remedial Modifications setting forth a schedule for the parties to consider and propose modifications. The Order also provides that the parties may seek to modify the schedule as necessary with approval of the Court.

7. To take into consideration delays that have already occurred prior to the Court's entry of its Order, and to accommodate the proposed additional investigation and information gathering that the MDEQ believes is necessary, at a minimum, to assist in its decision making, the parties agree to the following modifications to the Court's April 6, 2009 Order:

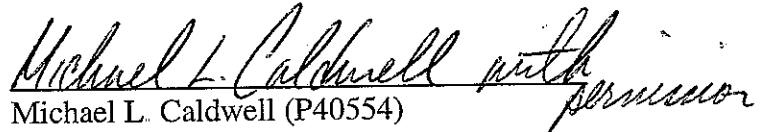

- A. The deadline for PLS to submit its Revised Remediation Plan is changed from April 24, 2009 to May 4, 2009.
- B. The deadline for DEQ to file motion Re: Well ID Disputes, (if necessary) is changed from April 30, 2009 to May 14, 2009.
- C. DEQ response to the PLS Remediation Proposal be changed from May 22, 2009 to June 15, 2009.
- D. The deadline for the parties to file motions RE: disputes (if needed) be changed from June 12, 2009 to July 8, 2009.
- E. The deadline for the Parties to file Motion seeking the Courts Approval of Remediation Plan/Resolution of Disputes (including necessary Consent Judgment amendments) be changed from June 12, 2009 to July 8, 2009.

F. Further modifications to the schedule may be sought in the event of unforeseen delays.

IT IS SO AGREED.

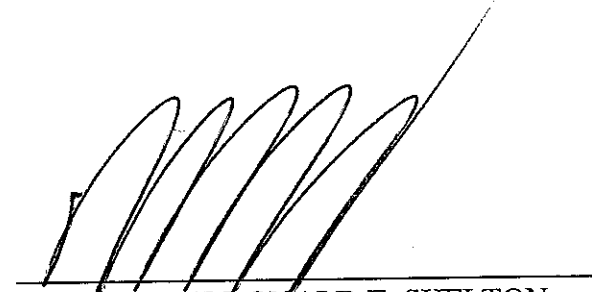

Celeste R. Gill (P52484)
