- ◆ WELL
- CURRENT PROHIBITION ZONE
- PROPOSED PROHIBITION ZONE

BASE MAP ADAPTED FROM MAPS PROVIDED BY THE CITY OF ANN ARBOR, SCIO TOWNSHIP GIS, AND THE MICHIGAN CENTER FOR GEOGRAPHIC INFORMATION. WELLS ACQUIRED FROM THE MICHIGAN CENTER FOR GEOGRAPHIC INFORMATION.

WELL METADATA INFORMATION:
 The data in this file was obtained from Wellogis, the Michigan Department of Environmental Quality Statewide Groundwater Database (SGWD). Wellogis contains approximately 425,000 water well records found within the State of Michigan, and although it represents the best available data, it cannot be considered a complete database of all the wells or well records in existence. The well files were downloaded by county and merged together to create a statewide file. In the merge process any well that fell outside of its designated county boundary was removed from the original data set. Approximately 325,000 records were used in this file after the inconsistent point locations were removed. A series of additional attributes were added to the database, this is a brief overview of how the well locations were processed.
