

Make your own **CELL COOKIE**

Make a cookie that resembles an animal cell!

Directions: Decorate a sugar cookie with the following toppings to represent the different cell organelles. You can either make your own sugar cookie or buy pre-made cookies from the store!

Cytoplasm- frosting

Nucleus- a marshmallow

Endoplasmic Reticulum- licorice candy

Lysosomes- sprinkles

Golgi Complex- candy ribbons or gum

Ribosomes- candy balls or round sprinkles

Mitochondria- jelly beans

Want to learn more about the organelles?

Check out the **CELL PIZZA** handout to learn about what each organelle does!
