

## Standard Operating Procedures (SOPs) Table of Contents

### 100 Water Treatment

- 110 Phosphoric Acid
  - 111 Phosphoric Acid Addition at Control Station 2
- 120 Sodium Hydroxide
  - 121 Sodium Hydroxide Addition at Control Station 2
- 130 Sodium Hypochlorite
  - 131 Sodium Hypochlorite Addition at Control Station 2
  - 132 Sodium Hypochlorite Addition at Distribution Storage Facilities
  - 133 Sodium Hypochlorite Testing
- 140 [Reserved]
- 150 [Reserved]
- 160 [Reserved]
- 170 [Reserved]
- 180 [Reserved]
- 190 [Reserved]

### 200 Storage Facilities and Pumping Stations

- 210 Distribution Storage Facilities and Pumping Stations
  - 211 Distribution Storage and Pumping Station Operation and Maintenance (*under revision pending changes to distribution system storage*)
- 220 [Reserved]
- 230 [Reserved]
- 240 [Reserved]
- 250 [Reserved]
- 260 [Reserved]
- 270 [Reserved]
- 280 [Reserved]
- 290 [Reserved]

### 300 Water Mains and Appurtenances

- 310 Water Mains
  - 311 Emergency Repair of Water Mains
- 320 Hydrants
  - 321 Hydrant Inspection, Testing, and Maintenance

- 330 Valves
  - 331 Valve Inspection, Exercising and Maintenance
- 340 Backflow and Cross-Contamination Prevention
  - 341 Backflow Preventer Testing and Repair
- 350 Meters
  - 351 Meter Installation, Inspection, and Testing
- 360 [Reserved]
- 370 [Reserved]
- 380 [Reserved]
- 390 [Reserved]

**400 Distribution System Water Quality**

- 410 Water Quality Sampling & Analysis [Reserved]
- 420 Data Management & Analysis
  - 421 Customer Complaint Tracking
  - 422 Control Charting of Water Quality Parameters
- 430 Flushing
  - 431 Conventional Flushing for Water Turnover
  - 432 Unidirectional Flushing
- 440 Water Quality Management [Reserved]
- 450 [Reserved]
- 460 [Reserved]
- 470 [Reserved]
- 480 [Reserved]
- 490 [Reserved]
