Signature

I have the ability and will serve the public in a fair, honest, and open manner. If I had a judgement of guilt in a criminal proceeding or a civil action against me, I am rehabilitated, or the substance of my former offense is not reasonably related to the occupation or profession for which I am seeking a license. Yes No

By signing, I certify that I meet all the requirements of 2016 PA 407 for the examination and license for which I am applying and that the statements in this application are true and correct. I am aware that obtaining a license fraudulently is grounds for disciplinary action.

<input type="checkbox"/> Adding classification in second year of license cycle	\$200.00
<input type="checkbox"/> Adding classification in third year of license cycle	\$100.00

DO NOT STAPLE

1 (a) Hydronic heating and cooling and process piping (includes the installation of residential boilers).

(Means the application of equipment and systems which provide air conditioning by the controlled forced circulation of fluids or vapors in pipes.)

2 (b) HVAC equipment (includes ductwork, gas piping and venting).

(Means the application of equipment and systems to provide air conditioning for occupants of buildings and structures. HVAC does not include the installation of portable self-contained refrigeration equipment and window type air conditioners of not more than 1 1/2 horsepower.)

3 (c) Ductwork.

(Means the air distribution arrangement for supply, return and exhaust in air conditioning systems and in non-air conditioning systems, the materials and methods of which are specified in the Michigan Mechanical Code. Ductwork includes flues, vents and chimneys.)

4 (d) Refrigeration.

(Means the use of equipment and systems including refrigeration piping, employing the refrigeration cycle to generate low temperatures for other than air condition equipment and systems. Refrigeration includes such equipment and systems as supermarket refrigeration, industrial refrigeration, the preservation of biological materials and food storage facilities. Refrigeration does not include the installation of portable self-contained units such as refrigerators, dehumidifiers and other similar equipment of not more than 1.5 horsepower or other equipment exempted from the Michigan Mechanical Code.)

5 (e) Limited heating service.

(Means the servicing of gas-designed sectional boilers having inputs of not more than 1 million Btu's, utilizing a combustion safeguard designed to shut off the main gas supply 10 or less seconds after pilot flame failure, and all other gas-fired or solid fuel equipment and systems limited to input ratings of less than 400,000 Btu's per unit; or oil-fired equipment and systems designed for the use of number 1 or number 2 fuel oil, having a maximum firing rate of less than five gallons per hour per unit; or electrical furnaces and electric boilers using the same kilowatts that are equivalent to the fossil fuel British thermal units generated.)

6 (g) Unlimited heating service.

(Means the servicing of heating equipment and systems without restrictions concerning thermal capacity or grade of fuel oil or type of fuel.)

7 (f) Limited refrigeration and air conditioning service.

(Means the servicing of refrigeration equipment and systems and air conditioning equipment and systems employing the refrigeration cycle unlimited capacity utilizing group one refrigerants as listed in the Michigan Mechanical Code.)

8 (h) Unlimited refrigeration and air conditioning service.

(Means the servicing of refrigeration equipment and systems and air conditioning equipment and systems employing the refrigeration cycle unlimited as to thermal capacity or type of refrigerant.)

9 (i) Fire Suppression.

(Means the integrated combination of a fire alarm system and fire suppression equipment which as a result of predetermined temperature, rate of temperature rise, products of combustion, flame, or human intervention will discharge a fire extinguishing substance over a fire area.)

10 (j) Specialty License.

(Means a license to perform work within limits established by the board in one of the work classifications set forth below, for the installation and servicing of:)

- a. Solar Heating and Cooling
- b. Solid Fuel Equipment & Vented Decorative Gas Appliances
- c. LP Distribution Piping
- d. Fuel Gas Piping
- e. Fuel Gas Piping & Venting

Adding Classification License to Existing License. You must have held the pre-requisite classification for not less than 3 years IMMEDIATELY preceding the date of your application to add classification.

Classification

- C - ductwork
e – limited heating service
f – limited refrigeration & air conditioning svc
g – unlimited heating service
h – unlimited refrigeration & air conditioning svc

j – specialty (any specialty classification)

Pre-requisite classification(s)

- must already have b-HVAC
must already have b-HVAC
must already have b-HVAC or d-Refrigeration
must already have b-HVAC or e-Limited heating svc
must already have b-HVAC or d-Refrigeration
or f-Limited refrigeration & AC service
must already have b-HVAC

Experience Documentation Required- Documents Must be Attached to Application -

Applicant must be of good moral character, per 2016 PA 407, Article 8, MCL 339.5807 and have a minimum of 3 years or 6,000 hours of experience in the work classification for which he or she is seeking licensure, or an equivalent of that experience, that is acceptable to the board. Application **must include statements signed under penalty of perjury by each contractor of record that is the present or former mechanical contractor employer(s) indicating the applicant has a minimum of 3 years or 6,000 hours of performance in EACH work classification for which the applicant is seeking a license and must include a detailed and specific description of the type of work performed by the applicant including the beginning and ending dates he or she performed that work, the length of time the work was performed, the employer under which the work was performed, and the title of the individual signing the statement. The description of work performed must include, but not be limited to, heating/cooling BTU ratings, venting and duct systems, types of fuel, types of refrigerants, types of equipment and types of fire suppression systems and equipment if applicable.**

If the applicant provides evidence satisfactory to the department that he or she has successfully completed a 2-year, or equivalent, HVAC program provided by a recognized trade school, community college, or university, or a 2-year HVAC training program approved by the United States Department of Labor, the department shall credit the completion of that program toward the 3 years or 6,000 hours of work experience required. The amount credited, as determined by the department, must not exceed 1 year or 2,000 hours of the 3 years or 6,000 hours required.
