# Memorandum

**DATE:** February 1, 2023

**TO:** Storage Tank Section Staff and Interested Parties

**FROM:** T.J. Richardson – MS, PMP  
 Manager - Storage Tank Section

**SUBJECT:** Approved Class A & B Certification Programs

On November 14, 2018, updated rules went into effect for the Michigan Underground Storage Tank Rules (MUSTR). Subpart J, Rule 75, Section 280.240 of these rules requires each site to have an approved designated Class A, Class B, and Class C operator who meets the requirements of this subpart.

In the 2018 version of MUSTFA, per Section 280.242, (d) and (e), additional forms of training or testing are allowed to be used to become a certified Class A or Class B operator. The State must review and approve these alternative methods to verify they meet the minimum requirements of these rules, as specified in Section 280.242.

The following programs have been approved by the Storage Tank Section:
