

Hillman Fire Department
Presents

Incident Command and Resource Management in the Fire Service. (ICRMFS)

This two-day program provides students with an understanding of the Incident Command System (ICS) and resource management for the fire service and their application in both emergency and nonemergency situations. This course addresses the need for an ICS, an overview of the structure and flexibility of ICS, and an understanding of the command skills necessary to function effectively in an ICS structure, and the need to effectively manage your resources.

(Day two of this program will have hands on work, turnout gear required and SCBA is suggested.)
